Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U. S. C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: National Outcomes Evaluation of the Garrett Lee Smith Suicide Prevention Program—Revision

The Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Mental Health Services (CMHS) is requesting clearance for the revision of data collection associated with the previously-approved cross-site evaluation of the Garrett Lee Smith (GLS) Youth Suicide Prevention and Early Intervention Program (GLS Suicide Prevention Program), now entitled National Outcomes Evaluation (NOE). The NOE is a proposed redesign of the currently-approved cross-site evaluation (OMB No. 0930-0286; Expiration, January 2017) that builds on prior published GLS evaluation proximal and distal training and aggregate findings from program activities (e. g., Condrón et al., 2014; Walrath et al., 2015). As a result of the vast body of information collected and analyzed through the cross-site evaluation of the two GLS Suicide Prevention Programs components—the GLS State/Tribal Program and the GLS Campus Program—SAMHSA has identified areas for additional investigation and the types of inquiry needed to move the evaluation into its next phase.

The NOE aims to address the field's need for additional evidence on the impacts of the GLS Suicide Prevention Program in three areas: (1) Suicide prevention training effectiveness, (2) early identification and referral on subsequent care follow-up and adherence, and (3) suicide safer care practices within health care settings. The evaluation comprises three distinct, but interconnected core studies—Training, Continuity of Care (COC), and Suicide Safer Environment (SSE). The Training and SSE studies also have “enhanced” study components. Core study data align with required program
