Hepatitis C Virus “Lookback” Requirements Based on Review of Historical Testing Records; Technical Amendment

AGENCY: Food and Drug Administration, HHS.
ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending the biologics regulations by removing the Hepatitis C Virus (HCV) “lookback” requirements regarding review of historical testing records. FDA is taking this action because the HCV “lookback” regulations based on review of historical testing records expired on August 24, 2015, due to the sunset provision provided under the regulation.

DATES: This rule is December 28, 2015.

FOR FURTHER INFORMATION CONTACT: Gretchen Opper, Center for Biologics Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 71, Rm. 7301, Silver Spring, MD 20993–0002, 240–402–7911.

SUPPLEMENTARY INFORMATION: In the Federal Register of August 24, 2007 (72 FR 48766), FDA published a final rule entitled “Current Good Manufacturing Practice for Blood and Blood Components; Notification of Consignees and Transfusion Recipients Receiving Blood and Blood Components at Increased Risk of Transmitting Hepatitis C Virus Infection (‘Lookback’).” Under
§ 610.48 (21 CFR 610.48) of the final rule, FDA established HCV “lookback” requirements based on review of historical testing records. The requirements under § 610.48 were to remain in effect for 8 years after the date of publication of the final rule in the Federal Register (§ 610.48(e)). Section 610.48(e) specifically provides that the section expired on August 24, 2015; therefore, FDA is removing this regulation from Title 21 of the Code of Federal Regulations.

FDA is also making conforming changes to other biologics regulations where § 610.48 is referenced.

FDA is revising the biologics regulations as follows:

• Removing and reserving § 610.48.
• Revising § 606.100(b)(19) (21 CFR 606.100(b)(19)) by removing the reference to § 610.48.
• Revising § 606.160(b)(1)(viii) by removing the reference to § 610.48.

Publication of this document constitutes final action under the Administrative Procedure Act (5 U.S.C. 553). FDA has determined that notice and public comments are unnecessary because the amendments to the regulations provide only technical changes to remove and update information and are nonsubstantive.

RIN 1625–AA00

Safety Zone; New Year’s Eve Firework Displays, Chicago River, Chicago, IL

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone that encompasses all waters of the Main Branch of the Chicago River between the Michigan Avenue Bridge and the west entrance to the Chicago Harbor Lock. The safety zone is intended to restrict vessels from a portion of the Main Branch of the Chicago River from 11:30 p.m. on December 31, 2015 to 12:15 a.m. on January 1, 2016. This temporary safety zone is necessary to protect the public and vessels from the hazards associated with multiple barge based firework displays on the Main Branch of the Chicago River.

We are issuing this rule, and under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable. The final details for this event were not known to the Coast Guard until there was insufficient time remaining before the event to publish a NPRM. Thus, delaying the effective date of this rule to wait for a comment period to run would be impracticable because it would inhibit the Coast Guard’s ability to protect the public and vessels from the hazards associated with multiple barge based firework displays on the Main Branch of the Chicago River.

For the same reasons discussed in the preceding paragraph, waiting for a 30 day notice period to run would be impracticable.

III. Legal Authority and Need for Rule

The legal basis for the rule is the Coast Guard’s authority to establish safety zones: 33 U.S.C. 1231; 33 CFR 1.05–1, 160.5; Department of Homeland Security Delegation No. 0170.1.

December 31, 2015 and January 1, 2016 Chicago’s New Year’s Eve firework displays will take place from multiple barge based launch sites on the Main
