Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews of 133 Species in Hawaii, Oregon, Idaho, and Washington

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are initiating 5-year status reviews for 133 species in Hawaii, Oregon, Idaho, and Washington under the Endangered Species Act of 1973, as amended (Act). A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any new information on these species that has become available since the last review.

DATES: To ensure consideration in our reviews, we are requesting submission of new information no later than April 14, 2015. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For the 130 species in Hawaii (see table below), submit information to: Deputy Field Supervisor—Programmatic, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Pacific Islands Fish and

Wildlife Office, 300 Ala Moana Blvd., Room 3-122, Box 50088, Honolulu, HI 96850.

For Bradshaw’s desert-parsley and Howell’s spectacular thelypody, submit information to: Field Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Oregon Fish and Wildlife Office, 2600 SE 98th Avenue, Suite 100, Portland, OR 97266.

Alternatively you may submit information on the Oregon species by email to: fw1or5yearreview@fws.gov.

For MacFarlane’s four-o’-clock, submit information to: Field Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Idaho Fish and Wildlife Office, 1387 S. Vinnell Way, Suite 368, Boise, ID 83709.

FOR FURTHER INFORMATION CONTACT: Marie Brueggemann, U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office (see **ADDRESSES**), 808-792-9400 (for species in Hawaii); Jeff Dillon, U.S. Fish and Wildlife Service, Oregon Fish and Wildlife Office, 503-231-6179 (for Bradshaw’s desert-parsley and Howell’s spectacular thelypody); or Kim Garner, Idaho Fish and Wildlife Office, 208-378-5243 (for MacFarlane’s four-o’-clock). Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION:

Why do we conduct 5-year reviews?

Under the Act (16 U.S.C. 1531 *et seq.*), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2) of the Act requires us to review each listed species’ status at least once every 5 years to determine whether it should be

removed from the List; or be changed in status from endangered to threatened, or from threatened to endangered. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review.

What information do we consider in the review?

A 5-year review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that has become available since the listing determination or most recent status review, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented that benefit the species;

(D) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the Act); and

(E) Other new information, data, or corrections, including but not limited to, taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and will also be useful in evaluating the ongoing recovery programs for these species.

What species are under review?

This notice announces our active review of the 133 species listed in the table below.

SPECIES FOR WHICH WE ARE INITIATING A 5-YEAR STATUS REVIEW

Request for New Information

To ensure that a 5-year review is complete and based on the best available scientific and commercial information, we request new

information from all sources. See "What Information Do We Consider in Our Review?" for specific criteria. If you submit information, please support it with documentation such as maps, bibliographic references, methods used

to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

If you wish to provide information for any species listed above, please submit

your comments and materials to the appropriate contact in the Oregon Fish and Wildlife Office, Idaho Fish and Wildlife Office, or Pacific Islands Fish and Wildlife Office (see **ADDRESSES** section).

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials received will be available for public inspection, by appointment, during normal business hours at the offices where the comments are submitted.

Completed and Active Reviews

Endangered Species; Recovery Permit Application

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following application for a recovery permit to conduct activities with the purpose of enhancing the survival of an endangered species. The Endangered Species Act of 1973, as

amended (Act), prohibits certain activities with endangered species unless a Federal permit allows such activity. The Act also requires that we invite public comment before issuing such permits.

DATES: To ensure consideration, please send your written comments by March 16, 2015.

ADDRESSES: Program Manager for Restoration and Endangered Species Classification, Ecological Services, U.S. Fish and Wildlife Service, Pacific Regional Office, 911 NE. 11th Avenue, Portland, OR 97232-4181. Please refer to the permit number for the application when submitting comments.

FOR FURTHER INFORMATION CONTACT:

Colleen Henson, Fish and Wildlife Biologist, at the above address, or by telephone (503-231-6131) or fax (503-231-6243).

SUPPLEMENTARY INFORMATION:

Background

The Act (16 U.S.C. 1531 *et seq.*) prohibits certain activities with respect to endangered and threatened species unless a Federal permit allows such activity. Along with our implementing regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17, the Act provides for certain permits, and requires that we invite public comment before issuing these permits for endangered species.

A permit granted by us under section 10(a)(1)(A) of the Act authorizes the permittee to conduct activities (including take or interstate commerce) with respect to U.S. endangered or threatened species for scientific purposes or enhancement of propagation or survival. Our regulations implementing section 10(a)(1)(A) of the Act for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Application Available for Review and Comment

We invite local, State, and Federal agencies and the public to comment on the following application. Please refer to the permit number for the application when submitting comments.

Documents and other information submitted with this application are available for review by request from the Program Manager for Restoration and Endangered Species Classification at the address listed in the **ADDRESSES** section of this notice, subject to the requirements of the Privacy Act (5

U.S.C. 552a) and the Freedom of Information Act (5 U.S.C. 552).

Permit Number: TE-003483

Applicant: U.S. Geological Survey, Pacific Island Ecosystems Research Center, Hawaii National Park, Hawaii.

The applicant requests a permit amendment to take (capture, band, mark, measure, weigh, collect blood samples, radio-tag, release, recapture, and search for and monitor nests) the Hawaiian coot (*Fulica americana alai*) and the Hawaiian stilt (*Himantopus mexicanus knudseni*) on the island of Oahu, in conjunction with scientific research, for the purpose of enhancing the species' survival.

Public Availability of Comments

All comments and materials we receive in response to this request will be available for public inspection, by appointment, during normal business hours at the address listed in the **ADDRESSES** section.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*).

Dated: January 30, 2015.

Theresa E. Rabot,

Acting Regional Director, Pacific Region, U.S. Fish and Wildlife Service.
