**II. What action is the agency taking?**

Pursuant to 40 CFR 155.58, this notice announces the availability of EPA's proposed interim registration review decision for the pesticide shown in the following table, and opens a 60-day public comment period on this proposed interim decision.

TABLE—REGISTRATION REVIEW PROPOSED INTERIM DECISIONS

Registration review case name and No.	Pesticide docket ID No.	Chemical review manager, telephone number, email address
Alpha-chlorohydrin (Case 4120) .....	EPA-HQ-OPP-2015-0726 .....	Matthew Manupella, <i>manupella.matthew@epa.gov</i> , (703) 347-0411.

Alpha-chlorohydrin (Proposed Interim Decision). The registration review docket for alpha-chlorohydrin (EPA-HQ-OPP-2015-0726) is opening in December 2015. The only registered use for alpha-chlorohydrin is as a tamper-proof bait station/bait application delivery system for elimination of Norway rats. Alpha-chlorohydrin is approved for use in and around the indoors of commercial/ industrial facilities and sanitary sewers. The label states not to use the product in any facility where children may be present, and there are no outdoor uses permitted. EPA is also publishing a draft human health risk assessment and a draft ecological problem formulation at the time of the docket opening for a 60-day public comment period. In this alpha-chlorohydrin proposed interim decision, the Agency has determined that no additional data are required and no changes to the affected registration or its labeling are currently required. At this time, EPA is making no human health or environmental safety findings associated with the Endocrine Disruptor Screening Program (EDSP) screening of alpha-chlorohydrin, nor is it making an endangered species finding. EPA's registration review decision for alpha-chlorohydrin will depend upon the result of an EDSP Federal Food, Drug and Cosmetic Act (FFDCA) section 408(p) determination, and Endangered Species Assessment (ESA) determination.

The registration review docket for a pesticide generally includes earlier documents related to the registration review of the case. In the case of alpha-chlorohydrin the Agency expedited the registration review and is opening the docket with the proposed interim decision and supporting documents.

The registration review program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decision and to involve the public.

Section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136a(g)) required EPA to establish by regulation procedures for reviewing pesticide registrations, originally with a goal of reviewing each pesticide's registration every 15 years to ensure that a pesticide continues to meet the FIFRA standard for registration. The Agency's final rule to implement this program was issued in August 2006 and became effective in October 2006, and appears at 40 CFR part 155, subpart C. The Pesticide Registration Improvement Act of 2003 (PRIA) was amended and extended in September 2007. FIFRA, as amended by PRIA in 2007, requires EPA to complete registration review decisions by October 1, 2022, for all pesticides registered as of October 1, 2007.

The registration review final rule at 40 CFR 155.58(a) provides for a minimum 60-day public comment period on all proposed interim registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed interim decisions. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the docket for the pesticide included in the Table. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and will provide a "Response to Comments Memorandum" in the docket. The interim registration review decision will explain the effect that any comments had on the interim decision and provide the Agency's response to significant comments.

**Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Synthetic Fiber Production Facilities (Renewal)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency has submitted an information collection request (ICR), "NSPS for Synthetic Fiber Production Facilities (40 CFR part 60, subpart HHH) (Renewal)" (EPA ICR No. 1156.13, OMB Control No. 2060-0059) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through December 31, 2015. Public comments were previously requested via the **Federal Register** (80 FR 32116) on June 5, 2015 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**DATES:** Additional comments may be submitted on or before January 28, 2016.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2012–0528, to (1) EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), by email to [docket.oeca@epa.gov](mailto:docket.oeca@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to [oira\\_submission@omb.eop.gov](mailto:oira_submission@omb.eop.gov). Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

**Abstract:** Owners and operators of synthetic fiber production facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 60, subpart A, as well as the applicable specific standards found at 40 CFR part 60, subpart HHH. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

**Form Numbers:** None.

**Respondents/affected entities:** Synthetic fiber production plants with a

solvent-spun, synthetic fiber process that produce more than 500 megagrams (Mgs) of fiber per year.

**Respondent's obligation to respond:** Mandatory (40 CFR part 60, subpart HHH).

**Estimated number of respondents:** 22 (total).

**Frequency of response:** Initially, semiannually, and quarterly.

**Total estimated burden:** 1,880 hours (per year). Burden is defined at 5 CFR 1320.3(b).

**Total estimated cost:** \$335,000 (per year), includes \$165,000 annualized capital or operation & maintenance costs.

**Changes in the Estimates:** There is no significant change in burden in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. However, there is a slight increase in labor hours due to adding the assumption that all respondents must spend one hour annually reviewing the regulatory requirements. There is also an increase in labor costs for as a result of using updated labor rates from the Bureau of Labor Statistics to calculate burden costs.
