

previous years, NMFS only included the cost of employees' time (salary and benefits) spent working on the program in calculating DPC rather than all incremental costs of management, data collection, and enforcement. NMFS is still evaluating how to incorporate additional costs and may, in coordination with the Pacific Fishery Management Council, do so in the future.

"V", as specified at § 660.115(b)(1)(ii), is the total ex-vessel value, as defined at § 660.111, for each sector from the previous calendar year. To calculate "V" for use in determining 2016 fee percentages, electronic fish ticket data in the Pacific Fisheries Information Network (PacFIN) are used for the Shorebased IFQ Program. The MS Coop Program and the C/P Coop Program values are calculated using the average price of whiting derived from those reported on the MS Coop Program cost

recovery form from calendar year 2014. This average price (\$0.11) and the retained catch estimates (weight) from the observer data (as reported in PacFIN from NORPAC) were used to calculate the "V" for the MS and C/P Coop Programs.

Ex-vessel values and amounts landed each year fluctuate, and the amount NMFS collects each year in cost recovery fees also fluctuate accordingly. When the cost recovery fees collected by NMFS are greater or less than the actual net incremental costs incurred for a given year, the fee percentage for the following year will be adjusted accordingly (as specified § 660.115(b)(1)(i)).

It is expected that, in 2015, the Shorebased IFQ Program will have paid \$292,051.99 less than the 2014 DPC used to calculate its 2015 fee percentage. As the Shorebased IFQ Program fee percentage for 2016 has

already been capped at the maximum 3.0 percent, there will be no fee adjustment for that sector.

It is expected that, in 2015, the MS Coop Program will have paid \$82,642.35 less than the 2014 DPC used to calculate its 2015 fee percentage. Therefore, the MS Coop Program DPC used to calculate the 2016 fee percentage will be adjusted upward by \$82,642.35.

The adjustment to the C/P Coop program costs used to determine the 2015 fee percentage showed that NMFS anticipated collecting \$15,295.71 more than the costs used to determine the 2015 fee, resulting in a fee percentage of negative 0.1. However, because a fee percentage cannot be negative, NMFS set the 2015 C/P Coop program cost recovery fee at 0.0 percent (79 FR 78400) and is now deducting \$15,295.71 from the DPC used to calculate the 2016 fee percentage.

	FY 2014 DPC used for 2015 calculation	2015 Fees expected	Adjustment for 2016
Shorebased IFQ Program	\$1,546,740.00	\$1,254,688.01	N/A
MS Coop Program	\$177,110.00	\$94,467.65	\$82,642.35
C/P Coop Program	N/A	\$0.00	(\$15,295.71)

The adjustments for the MS Coop and C/P Coop programs are included, and increase or reduce their DPC values which are shown below in the fee percentage calculations for that sector.

Shorebased IFQ Program—3.0% = the lower of 3% or $(\$2,310,729.95 / \$52,052,455) \times 100$
 MS Coop Program—2.5% = the lower of 3% or $(\$372,976.40 / \$15,189,237) \times 100$
 C/P Coop Program—0.7% = the lower of 3% or $(\$168,971.09 / \$25,219,201) \times 100$.

MS pricing is the average price per pound that the C/P Coop Program will use to determine their fee amount due (MS pricing multiplied by the value of the aggregate pounds of all groundfish species harvested by the vessel registered to a C/P-endorsement limited entry trawl permit, multiplied by the C/P fee percentage, equals the fee amount due). In past years, MS pricing was based on the average price per pound of Pacific whiting as reported in PacFIN from the Shorebased IFQ Program. In other words, data from the IFQ fishery was used as a proxy for the MS average price per pound to determine the "MS pricing" used in the calculation for the C/P sector's fee amount due. For 2016 MS pricing, NMFS used values derived from those reported on the MS Coop Program cost recovery form from calendar year 2014 as this was

determined to be the best information available. NMFS has calculated the 2016 MS pricing to be used as a proxy by the C/P Coop Program as: \$0.11/lb for Pacific whiting.

Cost recovery fees are submitted to NMFS by Fish buyers via Pay.gov (<https://www.pay.gov/paygov/>). Fish buyers registered with Pay.gov can login in the upper left-hand corner of the screen. Fish buyers not registered with Pay.gov can go to the cost recovery forms directly from the Web site below. As stated in the preamble to the cost recovery proposed and final rules, in the spring of each year, NMFS will release an annual report documenting the details and data used for the above calculations. The report will include information such as the fee percentage calculation, program costs, and ex-vessel value by sector. The annual report for fishing year 2013 and calculation for 2014 is available at: http://www.westcoast.fisheries.noaa.gov/publications/fishery_management/trawl_program/analytical%20docs/cost_recovery_annual_report_01.pdf.

The annual report for fishing year 2015 and calculation for 2016 will be made available to the public electronically via the NMFS West Coast Region Groundfish Web site http://www.westcoast.fisheries.noaa.gov/fisheries/groundfish_catch_shares/index.html.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Highly Migratory Species Tournament Registration and Reporting.
OMB Control Number: 0648-0323.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 300.

Average Hours per Response: Tournament registration, 2 minutes; tournament reporting, 20 minutes.

Burden Hours: 600.

Needs and Uses: This request is for extension of a currently approved information collection.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS) is responsible for management of the nation's marine fisheries. Existing regulations require operators of tournaments involving Atlantic highly migratory species (HMS: Atlantic swordfish, sharks, billfish, and tunas) to register four weeks in advance of the Atlantic Highly Migratory Species Tournament. Operators must provide contact information and the tournament's date(s), location(s), and target species. If selected by NMFS, operators are required to submit an HMS tournament summary report within seven days after tournament fishing has ended. Most of the catch data in the summary report is routinely collected in the course of regular tournament operations. NMFS uses the data to estimate the total annual catch of HMS and the impact of tournament operations in relation to other types of fishing activities. In addition, HMS tournament registration provides a method for tournament operators to request educational and regulatory outreach materials from NMFS.

Affected Public: Business or other for-profit organizations; not for profit institutions.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Dated: December 28, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.
