Approval and Promulgation of Implementation Plans; Attainment Redesignation for Missouri Portion of the St. Louis MO-IL Area; 1997 8-Hour Ozone Standard and Associated Maintenance Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve the State of Missouri's request to redesignate the Missouri portion of the St. Louis MO-IL nonattainment area, the "St. Louis area" or "area" to attainment for the 1997 8-hour National Ambient Air Quality Standards (NAAQS or Standard) for ozone (O₃). The Missouri counties comprising the St. Louis area are Franklin, Jefferson, St. Charles, and St. Louis along with the City of St. Louis. EPA's approval of the redesignation request is based on the determination that the St. Louis area has met the criteria for redesignation to attainment set forth in the Clean Air Act (CAA), including the determination that the St. Louis area has attained the 1997 8-hour O₃ standard. Additionally, EPA is approving the state's plan for maintaining the 1997 O₃ standard in the St. Louis area for 10 years beyond redesignation. In a separate action the state of Illinois submitted a similar redesignation request for the Illinois portion of the St. Louis MO-IL 1997 8-hour O₃ area. On June 12, 2012, the EPA published a document in the **Federal Register** taking final action to address the Illinois portion of the St. Louis area.

DATES: *Effective date:* This final rule is effective on February 20, 2015.

ADDRESSES: EPA has established a docket for this action under Docket ID

No. EPA-R07-OAR-2014-0900. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219. The Regional Office's official hours of business are Monday through Friday, 8:00 a.m. to 4:30 p.m. excluding Federal holidays. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

FOR FURTHER INFORMATION CONTACT: Ms. Lachala Kemp, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, KS 66219 at (913) 551-7214 or by email at kemp.lachala@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever "we," "us," or "our" is used, we refer to EPA. This section provides additional information by addressing the following:

I. What is the background for this rule?

On July 18, 1997, EPA promulgated a revised 8-hour O₃ NAAQS of 0.08 parts per million (ppm) (62 FR 38856). EPA published a final rule designating and classifying areas under the 8-hour O₃ NAAQS on April 30, 2004 (69 FR 23857). In that rulemaking, the St. Louis area was designated as nonattainment for the 1997 8-hour O₃ standard and classified as a moderate nonattainment area under subpart 2 of the CAA.

On November 3, 2011, Missouri requested redesignation of the Missouri portion of the St. Louis area to attainment of the 1997 8-hour O₃ standard, and requested approval of the Missouri SIP revision containing a maintenance plan for the Missouri portion of the St. Louis area. Missouri submitted a supplement to this request on April 29, 2014.

On June 9, 2011 (76 FR 33647), EPA issued a final rulemaking determining that the entire St. Louis MO-IL area attained the 1997 8-hour O₃ NAAQS based on three years of complete, quality assured O₃ data for the period of 2008-2010.

On December 31, 2014 (79 FR 78755), EPA published a notice of proposed rulemaking (NPR) proposing to approve Missouri's request to redesignate the Missouri portion of the St. Louis area to attainment of the 1997 8-hour O₃ standard, and also proposing to approve Missouri's maintenance plan for the area. The proposed rulemaking provides a detailed discussion and sets forth the basis for determining that Missouri's redesignation request meets the CAA requirements for redesignation to attainment for the 1997 8-hour O₃ NAAQS.

The primary background for this action is contained in EPA's December 31, 2014, proposal to approve Missouri's redesignation request, and in EPA's June 9, 2011, final rulemaking determining that the area has attained the 1997 8-hour O₃ standard based on complete, quality assured monitoring data for 2008-2010. In these rulemakings, we noted that under EPA regulations at 40 CFR 50.10 and 40 CFR part 50, appendix I provides that the 8-hour O₃ standard is attained when the three-year average of the annual fourth-highest daily maximum 8-hour average O₃ concentration is less than or equal to 0.08 ppm, when rounded at all monitoring sites in the area. See 69 FR 23857 (April 30, 2004). To support the redesignation of the area to attainment of the NAAQS, the O₃ data must be complete for the three attainment years. The data completeness requirement is met when the average percent of days with valid ambient monitoring data is

greater than ninety percent, and no single year has less than seventy five percent data completeness. See 40 CFR part 50, appendix I, 2.3(d). Under the CAA, EPA may redesignate a nonattainment area to attainment if sufficient, complete, quality assured data are available to determine that the area has attained the standard and if it meets the other CAA redesignation requirements in section 107(d)(3)(E).

II. Summary of SIP Revisions

On November 3, 2011, EPA received a SIP revision from the State of Missouri requesting redesignation of the Missouri portion of the St. Louis MO–IL area to attainment for the 1997 8-hour O₃ standard, and approval of the area's maintenance plan. Missouri submitted a supplemental revision on April 29, 2014. The maintenance plan is designed to keep the Missouri portion of the St. Louis area in attainment of the 1997 8-hour O₃ standard through 2025. A more detailed rationale for EPA's proposed action to approve the SIP submissions are explained in the NPR and will not be restated here. The comment period on EPA's proposed rule opened December 31, 2014, the date of its publication in the **Federal Register**, and closed on January 30, 2015. No public comments were received on the NPR.

III. What action is EPA taking?

EPA is approving a request from the State of Missouri to redesignate the Missouri portion of the St. Louis, MO–IL area to attainment of the 1997 8-hour O₃ standard. In addition, EPA is approving as a revision to the Missouri SIP, the State's plan for maintaining the 1997 8-hour O₃ standard through 2025 in the area.

In accordance with 5 U.S.C. 553(d), EPA finds there is good cause for this action to become effective immediately upon publication. This is because a delayed effective date is unnecessary due to the nature of a redesignation to attainment, which relieves the area from certain CAA requirements that would otherwise apply to it. The immediate effective date for this action is authorized under both 5 U.S.C. 553(d)(1), which provides that rulemaking actions may become effective less than 30 days after publication if the rule "grants or recognizes an exemption or relieves a restriction," and section 553(d)(3), which allows an effective date less than 30 days after publication "as otherwise provided by the agency for good cause found and published with the rule." The purpose of the 30-day waiting period prescribed in section 553(d) is to give affected parties a reasonable time to

adjust their behavior and prepare before the final rule takes effect. This rule, however, does not create any new regulatory requirements such that affected parties would need time to prepare before the rule takes effect. Rather, this rule relieves the state of various requirements for this nonattainment area. For these reasons, EPA finds good cause under 5 U.S.C. 553(d)(3) for this action to become effective on the date of publication of this action.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- does not provide EPA with the discretionary authority to address, as

appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen oxides, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

40 CFR Part 81

Environmental protection, Air pollution control.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: February 9, 2015.

Karl Brooks,

Regional Administrator, Region 7.

For the reasons stated in the preamble, the Environmental Protection Agency amends 40 CFR parts 52 and 81 as set forth below:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart AA—Missouri

■ 2. Section 52.1342 is amended by adding paragraph (c) to read as follows:

§ 52.1342 Control strategy: Ozone.

* * * * *

(c) On November 3, 2011 and April 29, 2014, Missouri submitted requests to redesignate the Missouri portion of the St. Louis MO–IL area to attainment of the 1997 8-hour ozone standard. The Missouri portion of the St. Louis MO–IL area includes Jefferson, Franklin, St.

Charles, and St. Louis Counties along with the City of St. Louis. As part of the redesignation request, the State submitted a plan for maintaining the 1997 8-hour ozone standard through 2025 in the area as required by Section 175A of the Clean Air Act.

PART 81—DESIGNATION OF AREAS FOR AIR QUALITY PLANNING PURPOSES

■ 3. The authority citation for part 81 continues to read as follows:

Authority: 42 U.S.C. 7401, *et seq.*

Subpart C—Section 107 Attainment Status Designations

■ 4. Section 81.326 is amended by revising the entry for “St. Louis MO–IL” in the table entitled “Missouri—1997 8-Hour Ozone NAAQS (Primary and Secondary)” to read as follows:

§ 81.326 Missouri.

* * * * *

MISSOURI—1997 8-HOUR OZONE NAAQS
[Primary and Secondary]

Designated area	Designation ^a			Category/Classification	
	Date ¹	Type	Date ¹	Type	
* * * * *	*	*	*	*	*
St. Louis, MO–IL					
Franklin County	February 20, 2015	Attainment.			
Jefferson County	February 20, 2015	Attainment.			
St. Charles County	February 20, 2015	Attainment.			
St. Louis City	February 20, 2015	Attainment.			
St. Louis County	February 20, 2015	Attainment.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA–HQ–OPP–2013–0670; FRL–9922–08]

Dimethenamid; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of dimethenamid in or on cottonseed subgroup 20C and cotton, gin byproducts. BASF Corporation requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA).

DATES: This regulation is effective February 20, 2015. Objections and requests for hearings must be received on or before April 21, 2015, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2013–0670, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460–0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OPP Docket is (703) 305–5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Susan Lewis, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460–0001; main telephone number: (703) 305–7090; email address: RDfrNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of EPA’s tolerance regulations at 40 CFR part 180 through the Government Publishing Office’s e-CFR site at http://www.ecfr.gov/cgi-bin/text-idx?&c=ecfr&tpl=/ecfrbrowse/Title40/40tab_02.tpl.
