FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 et seq.) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than March 20, 2015.

FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Submission for OMB Review; Comment Request

AGENCY: Federal Trade Commission (“Commission” or “FTC”).

ACTION: Notice.

SUMMARY: The FTC intends to conduct an evaluation of Admongo, its advertising literacy program for children ages 8–12. The evaluation will involve a randomized controlled trial of the Admongo online game, using an Internet panel recruited by a market research company. This research will be conducted to further the FTC’s mission of protecting consumers from unfair and deceptive marketing. The information collection requirements described below...
are being submitted to the Office of Management and Budget ("OMB") for review as required by the Paperwork Reduction Act ("PRA").

DATES: Comments must be submitted on or before March 26, 2015.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the SUPPLEMENTARY INFORMATION section below. Write “Admongo Evaluation, FTC File No. P085200” on your comment, and file your comment online at https://ftcpublic.commentworks.com/ftc/admongoevaluationpro2, by following the instructions on the web-based form. If you prefer to file your comment on paper, mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW., Suite CC–5610 (Annex J), Washington, DC 20580, or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Constitution Center, 400 7th Street SW., 5th Floor, Suite 5610 (Annex J), Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be addressed to David Givens, Economist, Bureau of Economics, Federal Trade Commission, 600 Pennsylvania Avenue NW., Washington, DC 20580. Telephone: (202) 326–3397.

SUPPLEMENTARY INFORMATION:

I. Background

As the nation’s consumer protection agency, the FTC is responsible for enforcing laws that prohibit unfair and deceptive advertising and marketing practices. Part of this mission involves educating consumers, including young consumers. In April 2010, the FTC launched a youth-directed, multi-media advertising literacy campaign called Admongo and distributed accompanying lesson plans to 100,000 educators in every U.S. public school with a fifth or sixth grade class. The Admongo program aims to help children from 8 to 12 become more discerning consumers of marketing information. The program has three broad objectives: (1) Raising awareness of advertising and marketing messages; (2) teaching critical thinking skills that will help children analyze and interpret advertisements; and (3) demonstrating the benefits of being an informed consumer. The program is designed to teach students specific skills: How to identify ads, how to identify the ways advertisers try to engage with, and learn from on their own. Cost-effectiveness data will enable FTC staff to evaluate both this program and the potential use of other similar programs in the future. The FTC is particularly interested in the effect of game play on the ability to interpret real ads (i.e., to differentiate explicit and implied claims, identify particular persuasive techniques, and understand why they were chosen, etc.) and the ways in which the game’s effect varies by age and other family and demographic characteristics.

II. Paperwork Reduction Act

Under the PRA, 44 U.S.C. 3501–3521, federal agencies must get OMB approval for each collection of information they conduct or sponsor. “Collection of information” means agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3), 5 CFR 1320.3(c).

On March 3, 2014, the FTC sought public comment on the information collection requirements associated with the proposed Admongo evaluation study. The comment period was received. Pursuant to the OMB regulations, 5 CFR part 1320, that implement the PRA, the Commission is providing this second opportunity for public comment.

A. Description of the Collection of Information and Proposed Use

Subject to OMB approval, the FTC will conduct a randomized trial of the Admongo online game, involving 800 students, ages 8–12. A market research contractor will select students for participation from among its existing panelists. Students must have parental permission to participate in the evaluation. A randomly selected half of the participants will be assigned to a treatment group, and the remaining students will be assigned to a control group.

Treatment students will be instructed to play the Admongo online game from their homes for one hour and then to complete an advertising literacy test (also online) within the allotted time (20 minutes). To ensure that each treatment student’s true exposure to the game is recorded accurately, her time spent playing (and other measures of her performance within the game) will be monitored and logged by the game’s server. Control students will be instructed to take the test without playing the Admongo game. To ensure that control group members do not play the game, no mention will be made to these students about the existence of Admongo or its connection to the test they are instructed to take. To further ensure the integrity of the evaluation, the market research company will screen out any panelist who has been exposed to Admongo prior to this study.

Admongo’s effect on ad literacy will be estimated from the difference in test scores between the control and treatment groups. Additional variables measuring demographic, financial, and family characteristics of the students, to the extent this information can be captured through a screening questionnaire that is administered to participants’ parents, will increase the precision of Admongo’s estimated impact and will reveal the influence of these factors on ad literacy.

The sample will be selected to mirror the U.S. population of 8–12 year-olds along a number of observable dimensions. However, because participation in the study is voluntary and based on a marketing research Internet panel, the sample may suffer from selection bias and may not constitute a nationally representative sample of 8–12 year-old American children. Therefore, the estimate of Admongo’s impact, derived from this sample, will not generalize to the broader audience of all 8–12 year-old Americans.

On March 3, 2014, the FTC sought public comment on the information collection requirements associated with the proposed Admongo evaluation study. The comment period was received. Pursuant to the OMB regulations, 5 CFR part 1320, that implement the PRA, the Commission is providing this second opportunity for public comment.

Therefore, the estimate of Admongo’s impact, derived from this sample, will not generalize to the broader audience of all 8–12 year-old Americans.
B. Estimated Burden Hours

The proposed evaluation will involve 800 students ages 8–12. The half of the sample assigned to the treatment group will play the Admongo online game for one hour and then take a 20-minute advertising literacy test immediately afterwards. The time burden for the treatment-group totals 533 hours. The half of the sample assigned to the control group will take the test without playing the game. The time burden for the control group will be only the time required to take the test—133 hours in total. Finally, a parent of each participating student will be asked to complete a screening questionnaire, estimated to take 5 minutes. The aggregate time burden to complete the questionnaire totals 67 hours. Therefore, the total time burden for all participants equals 733 hours.

C. Estimated Costs

Participation will not impose any start-up, capital, or labor expenditures. The costs to respondents involve only the time expended to play the Admongo online game and/or take the online advertising literacy test or complete a screening questionnaire. Participation in the evaluation is voluntary; respondents are drawn from existing pools of Internet panelists (i.e., households that have already indicated they are willing and able to take part in Internet research), and participants and their parents are free to refuse the invitation to participate in any particular study. All students (or their parents) will be compensated at the standard rate by the market research company that recruits them and runs the experiment. Treatment-group students are expected to be compensated more than control-group students due to the former group’s substantially larger time commitment.

D. Analysis of Comments Received

The Commission received one comment regarding the proposed collection of information. The commenter was a private citizen who offered several observations on the proposed study design. First, the commenter pointed out that the sample is restricted to children with Internet access at home, limiting the generalizability of the results. In response, we note that although use of an Internet panel may limit generalizability of results, the household-level information collected from a screening questionnaire administered to parents should at least provide information on how the sample differs from the universe of interest. Second, the commenter noted that an evaluation of Admongo’s effectiveness could be helpful to the FTC’s child-directed outreach efforts, but that if few children access Admongo, then a study of its effectiveness is not needed. In response, we point out that the objective of the proposed study is to evaluate the potential effectiveness of the Admongo online game, which is independent of the actual use of the game. A finding of a beneficial effect could lead to wider use of Admongo. Third, the commenter expresses concern that the control and treatment groups may differ in ways that would confound measurement of Admongo’s effect. In response, we note that participating students within each age-sex cell will be randomly assigned to control and treatment groups, minimizing the chances that the groups will differ systematically. And, fourth, the commenter suggested asking participants’ parents to certify that their children have received no assistance when completing the ad literacy test. In response, we find this a sensible suggestion and will consult with the market research company on the feasibility of obtaining such a certification from parents.

E. Request for Comment

You can file a comment online or on paper. For the Commission to consider your comment, we must receive it on or before March 26, 2015. Write “Admongo Evaluation, FTC File No. P085200” on your comment and on the envelope, and mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW., Suite 5610 (Annex J), Washington, DC 20580, or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Constitution Center, 400 7th Street SW., 5th Floor, Suite 5610 (Annex J), Washington, DC 20024. If possible, submit your paper comment to the Commission by courier or overnight service. Visit the Commission Web site at http://www.ftc.gov to read this Notice and the news release describing it. The FTC Act and other laws that the Commission administers permit the collection of public comments to consider and use in this proceeding as appropriate. The Commission will consider all timely and responsive public comments that it receives on or before March 31, 2015. Agency Information Collection Activities; Proposed Collection; Public Comment Request

AGENCY: Office of the Assistant Secretary for Health, Office of Adolescent Health, HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, OS seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on the ICR must be received on or before April 27, 2015.

ADDRESSES: Submit your comments to Information.CollectionClearance@hhs.gov or by calling (202) 690–6162.

FOR FURTHER INFORMATION CONTACT: Information Collection Clearance staff, Information.CollectionClearance@hhs.gov or (202) 690–6162.

Information Collection Request Title: Office of Adolescent Health Teen Pregnancy Prevention, FY 2015–2020 Performance Measure Collection

Abstract: The Office of Adolescent Health (OAH), U.S. Department of Health and Human Services (HHS) is requesting approval by OMB on a new collection. In FY2015, OAH expects to award a second 5-year cohort of TPP grants. Performance Measure data collection is a requirement of all TPP grant awards and is included in the funding announcements. The measures include dissemination, partners, training, health-care linkages, sustainability, reach, dosage, fidelity, quality, and cost, reported separately by grantee/sub grantee and program model.

Likely Respondents: 137 TPP grantees and sub-grantees.

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Darius Taylor, Information Collection Clearance Officer.
