III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act \(^1\) and paragraph of Rule 19b–4(f)(6) thereunder.\(^2\)

The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Exchange stated that waiver of this requirement is consistent with the protection of investors and the public interest because it will allow the Exchange to have consistent rules related to minor violations across each of the BGM Affiliated Exchanges, which it believes will both more consistently and effectively regulate members of the BGM Affiliated Exchanges as well as reduce the regulatory burden on Members of the Exchange that are also members of EDGX, BYX and/or BZX. The Commission believes that the proposed rule change presents no novel issues and that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission designates the proposed rule change to be operative upon filing.\(^3\)

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

current rule applicable to obvious errors. Interpretation and Policy .08 to Rule 6.15, explained in further detail below, is currently operating on a pilot program set to expire on February 20, 2015. The Exchange proposes to extend the pilot program to October 23, 2015.

On April 8, 2013, the Commission approved, on a pilot basis, amendments to Exchange Rule 6.15 that stated that options executions will not be adjusted or nullified if the execution occurs while the underlying security is in a limit or straddle state as defined by the Plan. Under the terms of this current pilot program, though options executions will generally not be adjusted or nullified while the underlying security is in a limit or straddle state, such executions may be reviewed by the Exchange should the Exchange decide to do so under its own motion.

Pursuant to a comment letter filed in connection with the order approving the establishment of the pilot, the Exchange committed to provide the public, a dataset containing the data for each straddle and limit state in optionable stocks that had at least one trade on the Exchange during these periods. Barring this provision, the commissions of Rule 6.15 would likely apply in many instances during limit and straddle states. The Exchange believes that continuing the pilot will protect against any unanticipated consequences in the options markets during a limit or straddle state. Thus, the Exchange believes that the protections of current Rule should continue while the industry gains further experience operating the Plan.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.2 Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)4 requirements that the rules of an exchange not be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)5 requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. In particular, the Exchange further believes that it is necessary and appropriate in the interest of promoting fair and orderly markets to exclude transactions executed during a limit or straddle state from certain aspects of the Exchange Rule 6.15. The Exchange believes the application of the current rule will be impracticable given the lack of a reliable NBBO in the options market during limit and straddle states, and that the resulting actions (i.e., nullified trades or adjusted prices) may not be appropriate given market conditions. Extension of this pilot would ensure that limit orders that are filled during a limit or straddle state would have certainty of execution in a manner that promotes just and equitable principles of trade, removes impediments to, and perfects the mechanism of a free and open market and a national market system. Thus, the Exchange believes that the protections of the pilot should continue while the industry gains further experience operating the Plan.

B. Self-Regulatory Organization’s Statement on Burden on Competition

C2 does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that, by extending the expiration of the pilot, the proposed rule change will allow for further analysis of the pilot and a determination of how the pilot shall be structured in the future. In doing so, the proposed rule change will also serve to promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant
burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b–4(f)(6)(iii) thereunder.7

The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the obvious error pilot program to continue uninterrupted while the industry gains further experience operating under the Plan to Address Extraordinary Market Volatility, and avoid any investor confusion that could result from a temporary interruption in the pilot program. For this reason, the Commission designates the proposed rule change to be operative upon filing.8

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
