SUPPLEMENTARY INFORMATION:

This notice announces that the FAA has given its overall approval to Westover Metropolitan Airport noise compatibility program, effective February 6, 2015.

Under Section 104 (a) of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter the Act), an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the noise exposure maps.

The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulation (FAR), Part 150 is a local program, not a federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA’s approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act, and is limited to the following determinations:

(a) The noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

(b) program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

(c) program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the federal government; and

(d) program measures relating to the use of flight procedures can be implemented within the period covered...
This change allows for voluntary acquisition of residential properties located in the 65DNL noise contour. The FAA completed its review and determined that the procedural and substantive requirements of the Act and FAR Part 150 have been satisfied. The New England Region Airports Division Manager therefore approved the overall program on February 6, 2015. The Record of Approval, as well as other evaluation materials and the documents comprising the submittal, are available for review at the FAA office listed above and at the administrative offices of Westover Metropolitan Airport.

Issued in Burlington, Massachusetts on February 6, 2015.

Mary T. Walsh,
Manager, Airports Division, FAA New England Region.

FOR FURTHER INFORMATION CONTACT: Parks Preston, Program Manager, Atlanta Airports District Office, 1701 Columbia Ave., Campus Bldg., Suite 2–260, College Park, GA 30337. (404) 305–7149.

SUPPLEMENTARY INFORMATION: On January 21, 2015, PRPA, sponsor of Diego Jimenez Torres Airport (X95), informed the FAA that the Airport will close permanently on April 30, 2015. Manager, Atlanta Airports District Office, Southern Region.
