

service and SCP independent living services. Additionally, CNCS seeks to assess the long term impact of participation in the Foster Grandparent Program (FGP) and the Senior Companion Program (SCP) on caregivers satisfaction, health related outcomes and psycho-social outcomes.

This project involves a survey of caregivers to individuals who are recipients of independent living services, and caregivers to individuals receiving respite care services. Potential survey respondents will be drawn from a list of registered beneficiaries provided by a sample of SCP grantees. SCP and FGP members will be drawn from a list of registered members provided by a sample of SCP and FGP grantees. Potential interview respondents will include, caregivers

SCP respite and independent services. Survey data will be collected using a multi-modal survey methods including phone surveys, paper surveys and on-line surveys.

Quantitative data analysis will include descriptive statistics and inferential analysis of survey responses by respondent characteristics. Analyses will focus on identifying demographic factors of recipients and members, and on self-reported health status and psycho-social factors including self-efficacy, loneliness and depression.
