Federal Register notices regarding current or pending tolerances.

- Risk assessments.
- Bibliographies concerning current registrations.
- Summaries of incident data.
- Any other pertinent data or information.

Each docket contains a document summarizing what the Agency currently knows about the pesticide case and a preliminary work plan for anticipated data and assessment needs. Additional documents provide more detailed information. During this public comment period, the Agency is asking that interested persons identify any additional information they believe the Agency should consider during the registration review of these pesticides. The Agency identifies in each docket the areas where public comment is specifically requested, though comment in any area is welcome.

2. Other related information. More information on these cases, including the active ingredients for each case, may be located in the registration review schedule on the Agency’s Web site at http://www.epa.gov/oppsrdr1/registration_review/schedule.htm. Information on the Agency’s registration review program and its implementing regulation may be seen at http://www.epa.gov/oppsrdr1/registration_review.

3. Information submission requirements. Anyone may submit data or information in response to this document. To be considered during a pesticide’s registration review, the submitted data or information must meet the following requirements:
- To ensure that EPA will consider data or information submitted, interested persons must submit the data or information during the comment period. The Agency may, at its discretion, consider data or information submitted at a later date.
- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any material that is not in English, and a written transcript must accompany any information submitted as an audiographic or videographic record. Written material may be submitted in paper or electronic form.
- Submitters must clearly identify the source of any submitted data or information.
- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous registration review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide’s registration review.
- As provided in 40 CFR 155.58, the registration review docket for each pesticide case will remain publicly accessible through the duration of the registration review process; that is, until all actions required in the final decision on the registration review case have been completed.

Adequacy Status of the Dallas-Fort Worth, Texas Reasonable Further Progress 8-Hour Ozone Motor Vehicle Emission Budgets for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: EPA is notifying the public that it has found that the motor vehicle emissions budgets (MVEBs) in the Dallas-Fort Worth, Texas (DFW) Reasonable Further Progress (RFP) State Implementation Plan (SIP) revision, submitted on July 10, 2015 by the Texas Commission on Environmental Quality (TCEQ) are adequate for transportation conformity purposes. As a result of EPA’s finding, the DFW area must use these budgets for future conformity determinations.

DATES: These budgets are effective January 26, 2016.

FOR FURTHER INFORMATION CONTACT: The essential information in this notice will be available at EPA’s conformity Web site: http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm. You may also contact Mr. Jeffrey Riley, Air Planning Section (6PD–L), U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733, telephone (214) 665–8542, Email address: Riley.Jeffrey@epa.gov.

SUPPLEMENTARY INFORMATION:
Throughout this document “we,” “us,” and “our” refers to EPA. The word “budget(s)” refers to the mobile source emissions budget for volatile organic compounds (VOCs) and the mobile source emissions budget for nitrogen oxides (NOx).

On July 10, 2015, we received a SIP revision from the TCEQ. This revision consisted of an RFP SIP for the DFW area for the year 2017. The MVEB is the amount of emissions allowed in the state implementation plan for on-road motor vehicles; it establishes an emissions ceiling for the regional transportation network. The MVEBs are provided in Table 1:

<table>
<thead>
<tr>
<th>NOx</th>
<th>VOC</th>
</tr>
</thead>
<tbody>
<tr>
<td>148.36</td>
<td>77.18</td>
</tr>
</tbody>
</table>

On August 25, 2015, EPA posted the availability of the DFW area MVEBs on EPA’s Web site for the purpose of soliciting public comments, as part of the adequacy process. The comment period closed on September 24, 2015, and we received no comments.

Today’s notice is simply an announcement of a finding that EPA has already made. EPA Region 6 sent a letter to TCEQ on December 10, 2015, finding that the MVEBs in the DFW RFP SIP, submitted on July 10, 2015 are adequate and must be used for transportation conformity determinations in the DFW area. This finding has also been announced on EPA’s conformity Web site: http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm. Transportation conformity is required by section 176(c) of the Clean Air Act. EPA’s conformity rule, 40 Code of Federal Regulations (CFR) part 93, requires that transportation plans, programs and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do so. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which EPA determines whether a SIP’s MVEB is adequate for transportation conformity purposes are outlined in 40 CFR 93.116(b)(4). We have also described the process for determining the adequacy of submitted SIP budgets in our July 1, 2004, final rulemaking entitled, “Transportation Conformity Rule Amendments for the 8-Hour Ozone Standard: Final Rule.”
