

elect to subscribe to trading ports, yet maintain them in test mode, will be charged the fee equally on a per-port basis. Last, the Exchange notes that subscription to Trading Ports used in Test Mode is voluntary, and member firms may subscribe to as many or as few ports they believe is necessary for their testing purposes.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In this instance, the proposed fee merely allows the Exchange to recapture the costs associated with maintaining member ports that are in test mode and DR, and may provide the Exchange with a profit to the extent its costs are covered. The Trading Port used in Test Mode fee is applied uniformly to member firms that have such ports in the Carteret data center, where the Exchange incurs expenses to support this port configuration option.

The proposed fee will also promote efficient use of Trading Ports for testing. Similarly, the Exchange incurs greater costs in offering DR ports in the new Chicago data center, which the Exchange is seeking to cover. Any burden arising from the fees is necessary to cover costs associated with the location of the functionality in Chicago. If the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result as member firms chose one of many alternative venues on which they may trade. Accordingly, the Exchange does not believe that the proposed changes will impair the ability

of members or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹³

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-Phlx-2016-31 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-Phlx-2016-31. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule

change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-Phlx-2016-31 and should be submitted on or before March 30, 2016.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁴

Robert W. Errett,
Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-77291; File No. SR-BATS-2015-108]

Self-Regulatory Organizations; BATS Exchange, Inc.; Notice of Filing of Partial Amendment No. 1 and Order Granting Accelerated Approval to a Proposed Rule Change To Adopt BATS Rule 11.27(a) To Implement the Quoting and Trading Requirements of the Regulation NMS Plan To Implement a Tick Size Pilot Program

March 3, 2016.

I. Introduction

On November 30, 2015, BATS Exchange, Inc. ("Exchange" or "BATS") filed with the Securities and Exchange Commission ("Commission" or "SEC"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposal to adopt BATS Rule 11.27(a) to implement the quoting and trading requirements of the Plan to Implement Tick Size Pilot Program ("Plan") submitted to the Commission pursuant

¹⁴ 17 CFR 200.30-3(a)(12).

¹⁵ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

¹³ 15 U.S.C. 78s(b)(3)(A)(ii).

to Rule 608 of Regulation NMS under the Act (“Tick Size Pilot”).³ The proposal was published for comment in the **Federal Register** on December 9, 2015.⁴ The Commission received three comment letters on the proposal and a response letter from BATS.⁵ On January 21, 2016, the Commission designated a longer period for Commission action on the proposal, until March 8, 2016.⁶ On March 2, 2016, BATS filed Partial Amendment No. 1.⁷ This order approves the proposal, as modified by Partial Amendment No. 1.

II. Background

On August 25, 2014, NYSE Group, Inc., on behalf of BATS Exchange, Inc., BATS Y-Exchange, Inc., Chicago Stock Exchange, Inc., EDGA Exchange, Inc., EDGX Exchange, Inc., FINRA, NASDAQ OMX BX, Inc., NASDAQ OMX PHLX LLC, the Nasdaq Stock Market LLC, New York Stock Exchange LLC (“NYSE”), NYSE MKT LLC, and NYSE Arca, Inc. (collectively “Participants”⁸), filed with the Commission, pursuant to section 11A of the Act⁹ and Rule 608 of Regulation NMS thereunder,¹⁰ the Plan to Implement the Tick Size Pilot.¹¹ The

³ See Securities Exchange Act Release No. 74892 (May 6, 2015), 80 FR 27513 (May 13, 2015) (order approving the Tick Size Pilot) (“Approval Order”).

⁴ See Securities Exchange Act Release No. 76552 (December 3, 2015), 80 FR 76591 (“BATS Proposal”).

⁵ See letters from Theodore R. Lazo, Managing Director and Associate General Counsel, Securities Industry and Financial Markets Association, dated December 18, 2015 (“SIFMA Letter”); Mary Lou Von Kaenel, Managing Director, Financial Information Forum, dated December 22, 2015 (“FIF Letter”); Brendon J. Weiss, Co-Head, Government Affairs, Intercontinental Exchange, Inc. and John K. Kerin, CEO, Chicago Stock Exchange, Inc., dated January 15, 2016 (“NYSE Letter”); and Andrew Madar, Associate General Counsel, Financial Industry Regulatory Authority, Inc. (“FINRA”) and Chris Solgan, Assistant General Counsel, BATS, dated February 23, 2016 (“BATS Response Letter”).

⁶ See Securities Exchange Act Release No. 76945, 81 FR 4734 (January 27, 2016).

⁷ In Partial Amendment No. 1, BATS proposes to: (1) Add an exception to permit members to fill a customer order in a Pilot Security in Test Group Two or Test Group Three at a non-nickel increment to comply with BATS Rule 12.6 under limited circumstances; (2) add an exception to the Trade-at Prohibition for certain error correction transactions; (3) modify the stopped order exception to the Trade-at Prohibitions to better align it with the stopped order exception for Rule 611 of Regulation NMS; and (4) clarify the use of Trade-at Intermarket Sweep Orders in connection with the Trade-At Prohibition.

⁸ The Commission notes that on February 5, 2016, National Stock Exchange, Inc. (“NSX”) filed a Plan amendment with the Commission to become a Plan Participant pursuant to section II.C of the Plan. This amendment is effective upon filing pursuant to Rule 608(b)(3)(iii) of Regulation NMS.

⁹ 15 U.S.C. 78k-1.

¹⁰ 17 CFR 242.608.

¹¹ See letter from Brendon J. Weiss, Vice President, Intercontinental Exchange, Inc., to Secretary, Commission, dated August 25, 2014.

Participants filed the Plan to comply with an order issued by the Commission on June 24, 2014.¹² The Plan was published for comment in the **Federal Register** on November 7, 2014,¹³ and approved by the Commission, as modified, on May 6, 2015.¹⁴ On November 6, 2015, the Commission issued an exemption to the Participants from implementing the Plan until October 3, 2016.¹⁵

The Tick Size Pilot is designed to allow the Commission, market participants, and the public to study and assess the impact of increment conventions on the liquidity and trading of the common stocks of certain small-capitalization companies. Each Participant is required to comply, and to enforce compliance by its members, as applicable, with the provisions of the Plan.¹⁶ The Plan requires Participants to develop quoting and trading requirements for the Tick Size Pilot as well as collect, publish, and submit to the Commission a variety of data elements such as market quality statistics and market maker profitability.¹⁷ BATS is proposing to adopt BATS Rule 11.27(a) and certain Interpretations and Policies to implement the quoting and trading requirements of the Tick Size Pilot.¹⁸

¹² See Securities Exchange Act Release No. 72460, 79 FR 36840 (June 30, 2014).

¹³ See Securities Exchange Act Release No. 73511 (November 3, 2014), 79 FR 66423.

¹⁴ See Approval Order, *supra* note 3.

¹⁵ See Securities Exchange Act Release No. 76382, 80 FR 70284 (November 13, 2015).

¹⁶ Rule 608(c) of Regulation NMS. 17 CFR 242.608(c). See also Plan Sections II.B and IV.

¹⁷ The data collection requirements for the Plan are specified in Appendices B and C. See Approval Order, *supra* note 3. BATS has adopted rules to implement the data collection requirements under the Plan. See BATS Rule 11.27(b); see also Securities Exchange Act Release No. 77105 (February 10, 2016), 81 FR 8112, (February 17, 2016).

¹⁸ NYSE, on behalf of the Plan Participants, submitted a letter to the Commission requesting exemption from certain provisions of the Plan related to the quoting and trading requirements as they apply to Pilot Securities that have a price under \$1.00. See letter from Elizabeth K. King, General Counsel & Corporate Secretary, NYSE, to Brent J. Fields, Secretary, Commission, dated October 14, 2015 (“October Exemption Request”). In addition, FINRA, on behalf of the Plan Participants, submitted a letter to the Commission requesting additional exemptions from certain provisions of the Plan related to the quoting and trading requirements. See letter from Marcia E. Asquith, Senior Vice President and Corporate Secretary, FINRA, to Robert W. Errett, Deputy Secretary, Commission, dated February 23, 2016 (“February Exemption Request”). The Commission, pursuant to its authority under Rule 608(e) of Regulation NMS, has granted BATS a limited exemption from the requirement to comply with certain provisions of the Plan as specified in the letters and noted herein. See letter from David Shillman, Associate Director, Division of Trading and Markets, Commission to Eric Swanson,

III. Description of the Proposed Rule Change

A. Policies and Procedures To Comply With the Plan

Proposed BATS Rule 11.27(a) would establish the rules necessary for compliance with the applicable quoting and trading requirements specified in the Plan for BATS and its members.¹⁹

Proposed BATS Rule 11.27(a)(1) provides that members shall establish, maintain, and enforce written policies and procedures that are reasonably designed to comply with the applicable quoting and trading requirements of the Plan. Proposed BATS Rule 11.27(a)(2) sets forth that BATS system will not display, quote or trade in violation of the applicable quoting and trading requirements for a Pilot Security specified in the Plan or its proposed rule, unless the quotation or transaction is specifically exempted under the Plan.

B. Compliance and Pilot Securities Under \$1.00 During the Pilot Period

Proposed BATS Rule 11.27(a)(3) sets forth the procedures for Pilot Securities whose price drops below \$1.00 during the Pilot Period.²⁰ If the price of a Pilot Security drops below \$1.00 during regular trading hours on any trading day, the Pilot Security will continue to trade according to the quoting and trading requirements of its originally assigned Test Group within the Plan. If a Pilot Security has a Closing Price²¹ below \$1.00 on any trading day, the Pilot Security would be moved from its respective Test Group into the Control Group, and would be quoted and traded at any price increment that is currently permitted for the remainder of the Pilot Period. Proposed BATS Rule 11.27(a)(3) further provides, that notwithstanding anything to the contrary, all Pilot Securities will continue to be subject to BATS Rule 11.27(b), which sets forth BATS’ data collection requirements for Tick Size Pilot.

Executive Vice President, General Counsel and Secretary, BATS, dated March 3, 2016 (“SEC Exemption Letter”).

¹⁹ BATS proposed that its Rule 11.27(a) be in effect during a pilot period to coincide with the Pilot Period of the Plan, including any extensions. See Proposed BATS Rule 11.27(a) Interpretations and Policies .03.

²⁰ BATS has requested an exemption from the Plan related to this provision. See October Exemption Request, *supra* note 18.

²¹ Capitalized terms used in this Order are defined in the Plan, unless otherwise specified herein. Further, BATS has proposed to use the Plan’s defined terms in its Rule 11.27(a). See Proposed BATS Rule 11.27(a) Interpretations and Policies .01.

C. Quoting and Trading Rules for Test Group One

Proposed BATS Rule 11.27(a)(4) describes the quoting and trading requirements for Pilot Securities in Test Group One. Specifically, BATS proposes that no member may display, rank, or accept from any person any displayable or non-displayable bids or offers, orders, or indications of interest in increments other than \$0.05 for Pilot Securities in Test Group One. Orders priced at either the midpoint of the national best bid and national best offer (“NBBO”) or best protected bid and best protected offer (“PBBO”) and orders entered into a Participant-operated retail liquidity program may be ranked and accepted in increments of less than \$0.05. The provision also sets forth that Pilot Securities in Test Group One would continue to be able to trade at any price increment that is currently permitted by applicable Participant, Commission, and BATS rules.

D. Quoting and Trading Rules for Test Group Two

Proposed BATS Rule 11.27(a)(5) describes the quoting and trading requirements of Pilot Securities in Test Group Two. Specifically, BATS proposes that no member may display, rank, or accept from any person any displayable or non-displayable bids or offers, orders, or indications of interest in increments other than \$0.05 for Pilot Securities in Test Group Two.²² Further, BATS proposes that absent any enumerated exceptions, no member organization may execute an order in any increment other than \$0.05 for Pilot Securities in Test Group Two.²³

Proposed BATS Rule 11.27(a)(5)(C) provides that Test Group Two Pilot Securities may trade in increments less than \$0.05 in the following circumstances: (1) At the midpoint between the NBBO or the PBBO; (2) for Retail Investor Orders that are provided with price improvement that is at least \$0.005 better than the PBBO; and (3) Negotiated Trades. In Partial Amendment No. 1, BATS proposed a fourth exception to the Test Group Two requirement that Pilot Securities trade in \$0.05 increments. Specifically, BATS

proposed that a member may execute a customer order at an increment other than \$0.05, following the execution of a permissible proprietary trade by that member, in order to comply with BATS Rule 12.6.²⁴

E. Quoting and Trading Rules for Test Group Three

Proposed BATS Rule 11.27(a)(6) describes the quoting and trading requirements of Pilot Securities in Test Group Three. BATS proposes for Pilot Securities in Test Group Three that no member may display, rank, or accept from any person any displayable or non-displayable bids or offers, orders, or indications of interest in increments other than \$0.05.²⁵ Proposed BATS Rule 11.27(a)(6)(B) states that for Test Group Three Pilot Securities no member would be permitted to execute an order, including Brokered Cross Trades, in an increment other than \$0.05 unless there was an exception enumerated by proposed BATS’s Rule 11.27(a)(6)(C). Proposed BATS Rule 11.27(a)(6)(C) sets forth four exceptions for trading of Test Group Three Pilot Securities to occur in increments of less than \$0.05: (1) At the midpoint between the NBBO or the PBBO; (2) for Retail Investor Orders that are provided with price improvement at least \$0.005 better than the PBBO; (3) for Negotiated Trades; and (4) for executions of a customer order to comply with BATS Rule 12.6 following the execution of a proprietary trade by the member at an increment other than \$0.05, where such proprietary trade was permissible pursuant to an exception under the Plan.²⁶

Proposed BATS Rule 11.27(a)(6)(D)(i) sets forth that, absent an exception set forth in proposed BATS Rule 11.27(a)(6)(D)(ii), no member that operates a Trading Center may execute a sell order for a Pilot Security in Test Group Three at the price of a Protected Bid or execute a buy order for a Pilot Security in Test Group Three at the price of a Protected Offer during regular trading hours (*i.e.*, the “Trade-at Prohibition”). Under the Trade-at Prohibition, a member that operates a Trading Center that is displaying a

quotation, via either a processor or an SRO quotation feed, that is at a price equal to the traded-at Protected Bid or Protected Offer is permitted to execute orders at that level, but only up to the amount of its displayed size. A member that operates a Trading Center that was not displaying a quotation at a price equal to the traded-at Protected Quotation, via either a processor or an SRO quotation feed, is prohibited from price-matching protected quotations unless at least one of the exceptions applies.

Proposed BATS Rule 11.27(a)(6)(D)(ii) sets forth the exceptions to the Trade-at Prohibition for members that operate Trading Centers as follows:

(a) The order is executed within the same independent aggregation unit²⁷ of the member that operates the Trading Center that displayed the quotation via either a processor or an SRO quotation feed, to the extent such member uses independent aggregation units, at a price equal to the traded-at Protected Quotation that was displayed before the order was received, but only up to the full displayed size of that independent aggregation unit’s previously displayed quote. Further, proposed BATS Rule 11.27(a)(6)(D)(ii)(a) also specifies that a Trading Center that is displaying a quotation as agent or riskless principal may only execute as agent or riskless principal and a Trading Center displaying a quotation as principal (excluding riskless principal) may execute as principal, agent or riskless principal;

(b) the order that is of Block Size²⁸ at the time of origin and is not an aggregation of non-block orders; broken into orders smaller than Block Size prior to submitting the order to a Trading Center for execution; or executed on multiple Trading Centers;

(c) the order is a Retail Investor Order that is executed with at least \$0.005 price improvement;

(d) the order is executed when the Trading Center displaying the Protected Quotation that was traded-at was experiencing a failure, material delay, or malfunction of its systems or equipment;

(e) the order is executed as part of a transaction that was not a “regular way” contract;

(f) the order is executed as part of a single-priced opening, reopening, or closing transaction by the Trading Center;

(g) the order is executed when a Protected Bid is priced higher than a Protected Offer in the Pilot Security;

(h) the order is identified as a Trade-at Intermarket Sweep Order (“ISO”);²⁹

²² Similar to the exception in Test Group One, orders priced to trade at the midpoint of the NBBO or PBBO and orders entered into a Participant-operated retail liquidity price program may be ranked and accepted in increments of less than \$0.05. See Proposed BATS Rule 11.27(a)(5)(A).

²³ Proposed BATS Rule 11.27(a)(5)(B) applies to all trades, including Brokered Cross Trades. A Brokered Cross Trade is defined in the Plan as a trade that a broker-dealer that is a member of a Participant executes directly by matching simultaneous buy and sell orders for a Pilot Security. See Plan Section I.G.

²⁴ See Partial Amendment No. 1, *supra* note 7. BATS has requested an exemption from the Plan related to this provision. See February Exemption Request, *supra* note 18.

²⁵ Similar to the exceptions for Test Group One and Test Group Two, orders priced to trade at the midpoint of the NBBO or PBBO and orders entered in a Participant-operated retail liquidity program may be ranked and accepted in increments of less than \$0.05. See Proposed BATS Rule 11.27(a)(6)(A).

²⁶ See Partial Amendment No. 1, *supra* note 7. BATS has requested an exemption from the Plan related to this provision. See February Exemption Request, *supra* note 18.

²⁷ BATS proposes that, “Independent aggregation unit” has the same meaning as provided under Rule 200(f) of Regulation SHO. See 17 CFR 242.200(f).

²⁸ “Block Size” is defined in the Plan as an order (1) of at least 5,000 shares or (2) for a quantity of stock having a market value of at least \$100,000.

²⁹ See Partial Amendment No. 1, *supra* note 7. In Partial Amendment No. 1, BATS proposes to define a Trade-At ISO as a limit order for a Pilot Security

(i) the order is executed by a Trading Center that simultaneously routed Trade-at ISOs to execute against the full displayed size of the Protected Quotation with a price that is better than, or equal to, the limit price of the limit order identified as a Trade-at ISO;

(j) the order is executed as part of a Negotiated Trade;

(k) the order is executed when the Trading Center displaying the Protected Quotation that was traded at had displayed within one second prior to execution of the transaction that constituted the Trade-at, a Best Protected Bid or Best Protected Offer, as applicable, for the Pilot Security with a price that was inferior to the price of the Trade-at transaction;

(l) the order is executed by a Trading Center, which at the time of order receipt, had guaranteed an execution at no worse than a specified price (a “stopped order”) where: (1) The stopped order was for the account of a customer; (2) the customer agreed to the specified price on an order-by-order basis; and (3) the price of the Trade-at transaction was, for a stopped buy order, equal to or less than the National Best Bid in the Pilot Security at the time of execution or, for a stopped sell order, equal to or greater than the National Best Offer in the Pilot Security at the time of execution, as long as such order is priced at an acceptable increment;³⁰

(m) the order is for a fractional share order of a Pilot Security, provided that such fractional share order was not the result of breaking an order³¹ for one or more whole shares of a Pilot Security into orders for fractional shares or was not otherwise effected to evade the requirements of the Tick Size Pilot; or

(n) the order is to correct a bona fide error, which is recorded by the Trading Center in its error account. BATS proposes to define a bona fide error as: 1. The inaccurate conveyance or execution of any term of an order including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the

that meets the following requirements: 1. When routed to a Trading Center, the limit order is identified as a Trade-at ISO; and 2. simultaneously with the routing of the limit order identified as a Trade-at ISO, one or more additional limit orders, as necessary, are routed to execute against the full size of any protected bid, in the case of a limit order to sell, or the full displayed size of any protected offer, in the case of a limit order to buy, for the Pilot Security with a price that is better than or equal to the limit price of the limit order identified as a Trade-at ISO. These additional routed orders also must be marked as Trade-at ISOs. See Proposed BATS Rule 11.27(a)(7)(A)(i).

³⁰ See Partial Amendment No. 1, *supra* note 7. BATS has requested an exemption from the Plan related to this provision. See February Exemption Request, *supra* note 18.

³¹ Additionally, no member shall break an order into smaller orders or otherwise effect or execute an order to evade the requirements of the Trade-at Prohibition or any other provisions of the Plan. See Proposed BATS Rule 11.27(a) Interpretations and Policies .02.

execution of an order on the wrong side of a market; 2. the unauthorized or unintended purchase, sale, or allocation of securities, or the failure to follow specific client instructions; 3. the incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or 4. a delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.³²

IV. Summary of Comments

As noted above, the Commission received three comment letters concerning the proposed rule change³³ and a response letter from BATS.³⁴ All three commenters discussed various aspects of the Trade-at Prohibition. The commenters noted differences between the Trade-at Prohibition rules proposed by BATS and NYSE.³⁵ One commenter noted that the NYSE’s proposal would limit a Trading Center from price matching a Protected Quotation to when the Trading Center is displaying in a principal capacity, while the BATS Proposal would not restrict price matching to a Trading Center’s principal capacity.³⁶

One commenter expressed support for BATS’s Trade-at Prohibition proposal.³⁷ However, one commenter, NYSE, stated that the BATS Proposal was inconsistent with the goals of the Plan

³² See Partial Amendment No. 1, *supra* note 7. BATS has requested an exemption from the Plan related to this provision. See February Exemption Request, *supra* note 18.

³³ See *supra* note 5. The Commission notes that the SIFMA Letter and the FIF Letter also addressed the proposed rule changes submitted by FINRA and NYSE to implement the quoting and trading requirements of the Tick Size Pilot. See SIFMA Letter and FIF Letter. Also see Securities Exchange Act Release No. 77218 (February 23, 2016), 81 FR 10290 (February 29, 2016) (order approving the “FINRA Proposal”) and Securities Exchange Act Release No. 73229 (October 22, 2015), 80 FR 66065 (October 28, 2015) (notice of the “NYSE Proposal”).

³⁴ As noted above, BATS and FINRA submitted a joint response to comment letters. See BATS Response Letter, *supra* note 5.

³⁵ See SIFMA Letter and FIF Letter. For example, these two commenters highlighted two distinctions between the NYSE Proposal and the BATS Proposal. The commenters noted that the BATS Proposal does not limit the Retail Investor Order exception to the Trade-at Prohibition to only orders submitted by an exchange program whereas the NYSE Proposal does include this limitation. Additionally, the commenters noted that the BATS Proposal allows for a Trade-at Prohibition for orders that were displayed as either an agency, riskless principal, or principal capacity whereas the NYSE proposal only allows for orders that were displayed on a principal basis. One commenter indicated that if the differences persisted it would be “virtually impossible” for its members to comply with the Plan. See SIFMA Letter.

³⁶ See SIFMA Letter.

³⁷ See SIFMA Letter. For example, SIFMA stated that it believed that the Commission should approve BATS’s proposal.

because it would incentivize a migration of trading to dark venues.³⁸ This commenter stated that the BATS Proposal would allow an alternative trading system (“ATS”) to execute matched trades of any of its participants at the Traded-at Protected Quotation if the ATS is displaying on an agency basis, a quotation of another participant at the Protected Quotation.³⁹ The commenter noted that all participant orders displayed by an ATS are agency orders of the ATS and that trades matched by ATS participants without display are also agency orders of that ATS. Therefore, the commenter believes that the BATS Proposal would allow trades by ATS participants at the Trade-at Protected Quotation without that participant displaying a Protected Quotation. The commenter believes that the proposal allows ATS participants to “free-ride” on the displayed Protected Quotation of other ATS participants.⁴⁰ The commenter stated that if implemented, trading would continue in dark pools at a price of displayed liquidity and that the proposal would result in similar trading behaviors between Test Group Three and Test Group Two.⁴¹

In its response, BATS disagreed with NYSE’s characterization of the display exception’s operation as set forth in the BATS Proposal, and confirmed that a broker-dealer would not be permitted to trade based on interest that it is not responsible for displaying.⁴² BATS noted that it would view a broker-dealer that matches orders in the over-the-counter (“OTC”) market, as principal, agent or riskless principal, to have “executed” such orders as a Trading Center for purposes of proposed BATS Rule 11.27(a), regardless of whether such broker-dealer ultimately executes and reports such trade through an OTC trade reporting facility, an ATS or another Trading Center. Accordingly, if a broker-dealer has displayed, as principal, a buy order at the protected bid on an exchange or Electronic Communications Network (“ECN”) prior to its receipt of a customer sell order, it could internalize that customer sell order, up to its displayed size, in reliance on the proposed BATS Rule 11.27(a)(6)(D)(ii)(a) exceptions. If, however, that broker-dealer has not displayed a principal buy order at the

³⁸ The commenter also indicated that the proposal did not follow the procedure outlined by the Plan’s Operating Committee. See NYSE Letter.

³⁹ See NYSE Letter.

⁴⁰ See NYSE Letter.

⁴¹ See NYSE Letter.

⁴² As noted above, BATS and FINRA submitted a joint response to comments. See BATS Response Letter, *supra* note 5.

protected bid, but matches its customer order with an order for its own account and submits the paired orders to an ECN where another broker-dealer is displaying a buy order at the protected bid, the broker-dealer submitting the paired orders could not rely on the proposed display exceptions. While the ECN, as a Trading Center, could execute the displayed order as agent with offsetting interest because it was displaying an agency quotation at the protected bid, the broker-dealer submitting the paired orders could not, as a Trading Center, trade with its customer order, because it was not displaying a principal quotation at the protected bid. Accordingly, such a transaction could not be effected consistent with the Trade-at Prohibition under the BATS proposal.

One commenter discussed other provisions related to the Trade-at Prohibition.⁴³ Specifically, the commenter stated the definition of Block Size order, used for the Block Size exception to the Trade-at Prohibition, would prevent a Trading Center from facilitating a block cross trade.⁴⁴ The commenter requested that the proposal be amended to permit the aggregation of non-block orders as long as at least one component of the order was of the defined Block Size.⁴⁵ In response, BATS opined that such an exception was inconsistent with the Plan. BATS believes that permitting the aggregation of non-block orders or the combination of Block Size orders with non-block size orders would undermine the Block Size exception by making it overly broad.

The commenter suggested that the exceptions to the Trade-at Prohibition contained in this proposal should be more closely aligned with the exemptions granted to Rule 611 of Regulation NMS.⁴⁶ Specifically, the commenter referenced the Rule 611 exemptions for (1) certain error correction transactions and (2) certain print protection transactions.⁴⁷ BATS

agreed with the commenter, in part, and amended this proposal to include an exception for certain error correction transactions for the Trade-at Prohibition.⁴⁸ BATS, however, did not believe that it was appropriate to provide a print protection transaction exception for the Trade-at Prohibition that correlates to the exemption for Rule 611 of Regulation NMS.⁴⁹

The commenter also noted there was a distinction between the stopped order exception applicable to Rule 611 of Regulation NMS exception and the proposed stopped order exception for the Trade-at Prohibition. The commenter provided an example where an order would satisfy Rule 611 of Regulation NMS but would not satisfy the proposed Trade-at Prohibition exception. In response, BATS amended and harmonized the respective stopped trade exceptions to harmonize the stopped order exception.⁵⁰

Finally, one commenter requested clarification on the treatment of a variety of order types, including Good Till Canceled orders entered in non-nickel increments before the Pilot Period, indications of interest priced to execute at the midpoint, and market maker peg orders. BATS noted that Test Group One permits indications of interest priced to execute at the midpoint. With regard to the other orders, BATS noted that the Participants are drafting FAQs to address the commenter's questions.

V. Discussion and Findings

After carefully considering the proposed rule change, the comments submitted, and BATS's response to the comments, the Commission finds that the proposal is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁵¹ Specifically, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act,⁵² which requires, among other things, that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove

impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest, and are not designed to permit unfair discrimination between customers, issuers, brokers or dealers. In addition, the Commission finds that the proposed rule change is consistent with section 6(b)(8) of the Act,⁵³ which requires that the rules of an exchange not impose any burden on competition that is not necessary or appropriate.

The Commission stated in the Approval Order that the Tick Size Pilot should provide a data-driven approach to evaluate whether certain changes to the market structure for Pilot Securities would be consistent with the Commission's mission to protect investors, maintain fair, orderly and efficient markets, and facilitate capital formation.⁵⁴ As discussed below, the Commission believes that BATS's proposal is consistent with the requirements of the Act and would further the purpose of the Plan to provide meaningful data.

BATS, as a Participant in the Plan, has an obligation to comply, and enforce compliance by its members, with the terms of the Plan. Rule 608(c) of Regulation NMS provides that "[e]ach self-regulatory organization shall comply with the terms of any effective national market system plan of which it is a sponsor or participant. Each self-regulatory organization also shall, absent reasonable justification or excuse, enforce compliance with any such plan by its members and persons associated with its members."⁵⁵ Proposed BATS Rule 11.27(a) would impose compliance obligations on its members with the quoting and trading requirements set forth in section VI of the Plan. As discussed below, the Commission also believes the proposal is consistent with the Act because it is designed to assist BATS in meeting its regulatory obligations pursuant to Rule 608 of Regulation NMS and the Plan.

A. Policies and Procedures To Comply With the Plan

Proposed BATS Rule 11.27(a)(1) provides that BATS members must establish, maintain, and enforce written

⁴³ See FIF Letter. The Commission notes that FIF asked several interpretative questions and provided explanatory examples in its comment letter on the FINRA proposal that were not raised within the FIF Letter related to the BATS proposal. However, these issues were discussed in the BATS Response Letter and discussed in the FINRA Order.

⁴⁴ According to the commenter, a "block cross trade" is block size order that includes smaller orders. The commenter noted that the three additional qualifications contained within the BATS proposal are meant to ensure the purpose of the Trade-at Prohibition is not undermined. See FIF Letter. See also Proposed BATS Rule 11.27(a)(6)(D)(ii)(b).

⁴⁵ See FIF Letter.

⁵³ 15 U.S.C. 78f(b)(8).

⁵⁴ See Approval Order, *supra* note 3.

⁵⁵ 17 CFR 242.608(c). See also Section II.B of the Plan which provides that each Participant will adopt rules requiring compliance by its members with provisions of the Plan. In addition, Section IV of the Plan requires all Participants and members of Participants to establish maintain and enforce written policy and procedures that are reasonably designed to comply with the applicable quoting and trading requirements specified in section VI of the Plan for the Pilot Securities.

policies and procedures that are reasonably designed to meet the applicable quoting and trading requirements of the Plan. Proposed BATS Rule 11.27(a)(2) states that BATS's system will not display, quote, or trade in violation of the applicable quoting and trading requirements for a Pilot Security specified in the Plan and its rule. As noted above, sections II.B and IV of the Plan provide that each Participant must establish, maintain and enforce written policies and procedures that are reasonably designed to comply with the quoting and trading requirements of the Plan and adopt rules requiring compliance by its members with the terms of the Plan. Accordingly, proposed BATS Rules 11.27(a)(1) and (2) are consistent with the Act as they implement these Plan provisions.

B. Compliance and Pilot Securities Under \$1.00 During the Pilot Period

Proposed BATS Rule 11.27(a)(3) provides a mechanism to address instances where the price of a Pilot Security assigned to a Test Group falls below \$1.00. Specifically, if the price of a Pilot Security assigned to a Test Group falls below \$1.00 during a trading day, the Pilot Security would remain in its assigned Test Group. If, however, a Pilot Security has a Closing Price below \$1.00 during any trading day, that Pilot Security would be moved out of its respective Test Group and into the Control Group.⁵⁶ The Commission notes that the selection criteria for Pilot Securities were developed to minimize the likelihood of the inclusion of securities that trade with a share price of \$1.00 or less. However, the Commission understands that there could be instances over the course of the Pilot Period where a Pilot Security's price falls below \$1.00. According to the Participants, a \$0.05 quoting and/or trading increment could be harmful to trading for such low priced Pilot Securities. Accordingly, the Commission believes that this provision is consistent with the Act because it should help to ensure that the universe of Pilot Securities remains constant over the Pilot Period while also addressing trading concerns for Pilot Securities that experience a fall in price.

Proposed BATS Rule 11.27(a) Interpretations and Policies .03 specifies that the rule's effectiveness shall be contemporaneous with the pilot period. The Commission believes that this

proposed rule is consistent with the Act because it reinforces and clarifies important dates and obligations under the Plan.

C. Quoting and Trading Rules for Test Group One and Test Group Two

Proposed BATS Rule 11.27(a)(4) provides that no member may display, rank, or accept from any person any displayable or non-displayable bids or offers, orders, or indications of interest in any Pilot Security in Test Group One in increments other than \$0.05. However, proposed BATS Rule 11.27(a)(4) also provides that orders priced to execute at the midpoint of the NBBO or PBBO and orders entered in a Participant-operated retail liquidity program may be ranked and accepted in increments of less than \$0.05. Finally, proposed BATS Rule 11.27(a)(4) provides that Pilot Securities in Test Group One may continue to trade at any price increment that is currently permitted by applicable Participant, SEC and BATS rules. The Commission finds that proposed BATS Rule 11.27(a)(4) is consistent with the Act because it implements provisions of the Plan.

Proposed BATS Rule 11.27(a)(5) provides that no member may display, rank, or accept from any person any displayable or non-displayable bids or offers, orders, or indications of interest in any Pilot Security in Test Group Two in increments other than \$0.05. However, proposed BATS Rule 11.27(a)(5) also provides that orders priced to execute at the midpoint of the NBBO or PBBO and orders entered in a Participant-operated retail liquidity program may be ranked and accepted in increments of less than \$0.05. Proposed BATS Rule 11.27(a)(5)(B) further provides that no member may execute an order in a Test Group Two Pilot Security in an increment other than \$0.05, unless an exception applies. Pilot Securities in Test Group Two may trade in increments less than \$0.05 when trading: (i) At the midpoint between the NBBO or the PBBO; (ii) Retail Investor Orders that are provided price improvement that is at least \$0.005 better than the PBBO; (iii) Negotiated Trades; and (iv) customer orders to comply with BATS Rule 12.6 following the execution of a proprietary trade that is permissible pursuant to Plan exception.⁵⁷ The Commission finds that proposed BATS Rules 11.27(a)(5)(C)(i), (ii) and (iii) are consistent with the Act because they implement provisions of the Plan.

In Partial Amendment No. 1, BATS proposes to add a trading increment exception in BATS Rule 11.27(a)(5)(C)(iv), which would allow the execution of a customer order following a proprietary trade by a BATS member at an increment less than \$0.05 in the same security, on the same side and at the same price as (or within the prescribed amount of) a customer order owed a fill pursuant to BATS Rule 12.6, where the triggering proprietary trade was permissible pursuant to an exception under the Plan. BATS believes that this customer order protection exception should facilitate the ability of its members to continue to protect customer orders while retaining the flexibility to engage in proprietary trades that comply with an exception to the Plan. Based on the foregoing, the Commission finds that proposed BATS Rule 11.27(a)(5)(C)(iv) is consistent with the Act.⁵⁸

D. Quoting and Trading Rules for Test Group Three

Proposed BATS Rule 11.27(a)(6)(A) provides that no member may display, rank, or accept from any person any displayable or non-displayable bids or offers, orders, or indications of interest in any Pilot Security in Test Group Three in increments other than \$0.05. Proposed BATS Rule 11.27(a)(6)(A) also provides that for Test Group Three Pilot Securities orders priced to execute at the midpoint of the NBBO or PBBO and orders entered in a Participant-operated retail liquidity program may be ranked and accepted in increments of less than \$0.05. Proposed BATS Rule 11.27(a)(6)(B) specifies that the \$0.05 trading increment will apply to all trades, including Brokered Cross Trades; and that trades for Test Group Three Pilot Securities may not occur in increments of less than \$0.05 unless there is an applicable exception listed in proposed Rule BATS Rule 11.27(a)(6)(C). Pursuant to proposed Rule BATS Rule 11.27(a)(6)(C), Test Group Three Pilot Securities may trade in increments less than \$0.05 when trading: (i) At the midpoint between the NBBO or the PBBO; (ii) Retail Investor Orders that are provided price improvement that is at least \$0.005 better than the PBBO and; (iii) Negotiated Trades; and (iv) customer orders to comply with BATS Rule 12.6 following the execution of a proprietary

⁵⁶ The Commission notes that it has granted BATS an exemption from Rule 608(c) related to this provision. See SEC Exemption Letter, *supra* note 18.

⁵⁷ See Partial Amendment No. 1, *supra* note 7.

⁵⁸ The Commission notes that it has granted BATS an exemption from Rule 608(c) related to this provision. See SEC Exemption Letter, *supra* note 18.

trade that is permissible pursuant to Plan exception.⁵⁹

The Commission finds that proposed BATS Rule 11.27(a)(6)(A), proposed BATS Rule 11.27(a)(6)(B), and proposed BATS Rules 11.27(a)(6)(C)(i), (ii) and (iii) are consistent with the Act because they implement provisions of the Plan. In addition, as discussed above,⁶⁰ the Commission finds that proposed BATS Rule 11.27(a)(6)(C)(iv) is consistent with the Act.

1. Quoting and Trading Rules for Test Group Three: Trade-at Prohibition

Proposed BATS Rule 11.27(a)(6)(D) describes the Trade-at Prohibition and the exceptions applicable thereto.⁶¹ Specifically, proposed BATS Rule 11.27(a)(6)(D)(i) sets forth that absent any of the exceptions listed in subparagraph (D)(ii), no member that operates a Trading Center may execute a sell order for a Pilot Security in Test Group Three at the price of a Protected Bid or execute a buy order for a Pilot Security in Test Group Three at the price of a Protected Offer during regular trading hours (*i.e.*, the Trade-at Prohibition). Proposed BATS Rule 11.27(a)(6)(D)(i) also states that under the Trade-at Prohibition, a member that operates a Trading Center that is displaying a quotation, via either a processor or an SRO quotation feed, that is at a price equal to the traded-at Protected Bid or Protected Offer is permitted to execute orders at that level, but only up to the amount of its displayed size. Finally, proposed BATS Rule 11.27(a)(6)(D)(i) states that a member that operates a Trading Center that was not displaying a quotation at a price equal to the traded-at Protected Quotation, via either a processor or an SRO quotation feed, is prohibited from price-matching protected quotations unless an exception applies.

Proposed BATS Rule 11.27(a)(6)(D)(ii) lists the exceptions to the Trade-at Prohibition. The proposed exceptions set forth in BATS Rules 11.27(a)(6)(D)(ii)(c) through (g), (j), (k),

and (m) mirror the exceptions set forth in the Plan.⁶² The Commission finds these exceptions to be consistent with the Act because they implement Plan provisions.

In proposed BATS Rule 11.27(a)(6)(D)(ii)(a), BATS proposes to implement the display exception to the Trade-at Prohibition. As proposed, BATS has added several details about its operation and implementation. For example, BATS proposes that a Trading Center that uses independent aggregation units execute orders within the same independent aggregation unit that displayed the quotation. In addition, BATS proposes to specify that Trading Centers that display a quotation as agent or riskless principal may only execute as agent or riskless principal. If the Trading Center is displaying a quotation as principal (excluding riskless principal), the Trading Center may execute as principal, agent or riskless principal.

As noted above, one commenter suggested that BATS's proposal would create an incentive for trading in Test Group Three to migrate to dark venues.⁶³ According to the commenter, BATS's proposal would permit a non-displayed Trading Center to submit matched trades to an ATS that was displaying on an agency basis the quotation of another ATS subscriber.⁶⁴ BATS responded that it did not believe this scenario could occur under its proposal, and confirmed that the broker-dealer submitting the matched trade could not, as a Trading Center trade with its customer order because it was not displaying a principal quotation. The Commission finds that BATS's proposed Rule 11.27(a)(6)(D)(ii)(a) to be consistent with the Act. The Commission believes that BATS's proposed rule clarifies the operation of the display exception in a manner consistent with the goals of the Plan. First, a Trading Center would only be able to execute an order in the same capacity in which it has displayed a quotation. Accordingly, a Trading Center could not rely on an agency quotation to execute on a principal basis. Further, a Trading Center that uses independent aggregation units would be restricted in its ability to rely on quotations displayed by other independent aggregation units. As noted above, a Trading Center that utilizes independent aggregation units may only execute an order in the independent aggregation unit that displayed the

quotation. The Commission believes that these additional rules implement the display exception to the Trade-at Prohibition in a manner that should incent the display of liquidity.⁶⁵

Proposed BATS Rule 11.27(a)(6)(D)(ii)(b) sets forth the exception to the Trade-at Prohibition for orders of Block Size. BATS proposes additional provisions with respect to Block Size orders including that orders at the time of origin may not be: (1) An aggregation of non-block orders; (2) broken into orders smaller than Block Size prior to submitting the order to a Trading Center for execution; or (3) executed on multiple Trading Centers.

As noted above, one commenter suggested that these additional provisions would limit firms' ability to facilitate block cross trades.⁶⁶ BATS responded that the additional criteria would clarify this Trade-at Prohibition exception. Further, BATS noted that permitting the aggregation of non-block orders or permitting members to combine a block order with non-block orders would overly expand the scope of the exception.

The Commission believes that the additional criteria for the Block Size exception are consistent with the Act. In the Approval Order, the Commission modified the Block Size definition for the purposes of the Plan to more closely reflect the trading characteristics of potential Pilot Securities.⁶⁷ The Commission believes proposed BATS Rule 11.27(a)(6)(D)(ii)(b) appropriately limits the scope and applicability of the Block Size exception, and should help to exclude trades and order handling scenarios that were not contemplated or intended to be considered for an exception for the Trade-at Prohibition.

Proposed BATS Rule 11.27(a)(6)(D)(ii)(h) sets forth the exception to the Trade-at Prohibition for orders identified as Trade-at ISO. In Partial Amendment No. 1, BATS proposes to clarify the definition of a Trade-at ISO for purposes of the exception. Specifically, BATS proposes to define Trade-At ISO as a limit order for a Pilot Security that meets the following requirements: (1) When routed to a Trading Center, the limit order is identified as a Trade-at ISO; and (2) simultaneously with the routing of the limit order identified as a Trade-at ISO, one of more additional limit orders, as necessary, are routed to execute

⁵⁹ See Partial Amendment No. 1, *supra* note 7.

⁶⁰ See Section V.C above related to the discussion of proposed BATS Rule 11.27(a)(5)(C)(iv). The Commission notes that it has granted BATS an exemption from Rule 608(c) related to this provision. See SEC Exemption Letter, *supra* note 18.

⁶¹ The Commission notes that the BATS Response Letter contains detailed responses to a number of interpretive questions that were raised by a commenter in regards to the BATS and FINRA Proposals. See *supra* note 43. The Commission understands that the Participants are developing interpretive guidance on the quoting and trading rules under the Plan and expects that Participants will continue to work with market participants on the implementation of the quoting and trading rules of the Tick Size Pilot.

⁶² See Section VI.D(3) through (7), (10), (11) and (13) of the Plan.

⁶³ See NYSE Letter.

⁶⁴ *Id.*

⁶⁵ See FIF Letter.

⁶⁶ See Approval Order, *supra* note 3.

⁶⁷ See Approval Order, *supra* note 3. In the Approval Order, the Commission stated that the Trade-at Prohibition should test whether market participants are incentivized to display more liquidity in a wider tick environment.

against the full size of any protected bid, in the case of a limit order to sell, or the full displayed size of any protected offer, in the case of a limit order to buy, for the Pilot Security with a price that is better than or equal to the limit price of the limit order identified as a Trade-at ISO. These additional routed orders also must be marked as Trade-at ISO.⁶⁸

According to BATS, the use of the term ISO as set forth in the Plan could be unclear in Test Group Three.⁶⁹ As noted in BATS's Partial Amendment No. 1, an ISO may mean that the sender of the ISO has swept better-priced protected quotations, so that the recipient of that ISO may trade through the price of the protected quotation (in compliance with Rule 611 of Regulation NMS⁷⁰), or it could mean that the sender of the ISO has swept protected quotations at the same price at which it wishes to execute (in addition to any better-priced quotations), so that the recipient of that ISO may trade at the price of the protected quotation (as an exception to the Trade-at Prohibition). Accordingly, since the meaning of an ISO may differ under Rule 611 of Regulation NMS and the Trade-at Prohibition under the Plan, BATS proposes Rule 11.27(a)(6)(D)(ii)(h) to reflect that the order is a Trade-at ISO so that a receiving Trading Center in a Test Group Three Pilot Security would know, upon receipt of that Trade-at ISO, that the Trading Center that sent the Trade-at ISO had already executed against the full size of displayed quotations at that price (e.g., the recipient of that Trade-at ISO could permissibly trade at the price of the protected quotation). In addition, BATS proposes to make a corresponding change to BATS Rule 11.27(a)(6)(D)(ii)(i).

The Commission believes that proposed BATS Rule 11.27(a)(6)(D)(ii)(h) and BATS Rule 11.27(a)(6)(D)(ii)(i) are consistent with the Act because they clarify the use and operation of ISOs under the Plan. The

definition in the Plan provided that an ISO received under the Plan would indicate to the recipient that orders to execute against the full displayed size at a price equal to the ISO's limit price had been routed. However, the Commission understands that the use of the term ISO in connection with the exception to the Trade-at Prohibition could cause confusion. Therefore, the Commission believes that BATS's proposal should clarify the use of ISOs under the Plan and facilitate their implementation.

Proposed BATS Rule 11.27(a)(6)(D)(ii)(l) sets forth an exception to the Trade-at Prohibition for stopped orders. A stopped order is defined as an order executed by a Trading Center which, at the time of order receipt, the Trading Center had guaranteed an execution at no worse than a specified price where: (1) The stopped order was for the account of a customer; (2) the customer agreed to the specified price on an order-by-order basis; and (3) the price of the Trade-at transaction was, for a stopped buy order, equal to or less than the National Best Bid in the Pilot Security at the time of execution or, for a stopped sell order, equal to or greater than the National Best Offer in the Pilot Security at the time of execution, as long as such order is priced at an acceptable increment.

As noted above, one commenter raised questions about how the stopped order exception would operate as an exception to the Trade-at Prohibition.⁷¹ In Partial Amendment No. 1, BATS amended the rule text of proposed BATS Rule 11.27(a)(6)(D)(ii)(l) to clarify its operation under the Trade-at Prohibition. The Commission finds that proposed BATS Rule 11.27(a)(6)(D)(ii)(l), as modified by Partial Amendment No. 1, is consistent with the Act because it implements the Plan provision in a manner that clarifies its operation for these order types.⁷²

In Partial Amendment No. 1, BATS proposes an additional exception to the Trade-at Prohibition.⁷³ Specifically, proposed BATS Rule 11.27(a)(6)(D)(ii)(n) sets forth an exception to the Trade-at Prohibition for "bona fide errors."⁷⁴ Proposed BATS

Rule 11.27(a)(6)(D)(ii)(n) provides an exception to the Trade-at Prohibition where the order is to correct a bona fide error, which is recorded by the Trading Center in its error account. The proposed definition for a "bona fide error" is: (i) The inaccurate conveyance or execution of any term of an order including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market; (ii) the unauthorized or unintended purchase, sale, or allocation of securities, or the failure to follow specific client instructions; (iii) the incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or (iv) a delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order. In order to utilize this exception to the Trade-at Prohibition, the following conditions must be met: (1) The bona fide error must be evidenced by objective facts and circumstances, the Trading Center must maintain documentation of such facts and circumstances, and the Trading Center must record the transaction in its error account; (2) the Trading Center must establish, maintain, and enforce written policies and procedures that are reasonably designed to address the occurrence of errors and, in the event of an error, the use and terms of a transaction to correct the error in compliance with this exception; and (3) the Trading Center must regularly surveil to ascertain the effectiveness of its policies and

the Trade-At Prohibition in the Plan. First, the print protection exemption applicable to Rule 611 is inconsistent with the Trade-at Prohibition because the Rule 611 print protection exemption explicitly contemplates protection for both displayed and reserve (undisplayed) size of orders. In this regard, the Commission believes that such an exception for the Trade-at Prohibition often will be unnecessary because a print protection exception for the Trade-at Prohibition would need to be premised upon a displayed customer order, which already is excepted from the Trade-at Prohibition if it satisfies the requirements of proposed BATS Rule 11.27(a)(6)(D)(i) and the Plan. Moreover, providing a print protection exemption from the Trade-At Prohibition would create the potential for trading scenarios that would result in better-priced, displayed orders being bypassed for the execution of inferior, same-priced orders. The Commission believes such a result is inconsistent with the Plan in general, and the Trade-at Prohibition in particular. Finally, the Commission notes that BATS represents that the print protection exemption applicable to Rule 611 of Regulation NMS is rarely used by its members.

⁶⁸ See Proposed BATS Rule 11.27(a)(7)(A)(i).

⁶⁹ Section VI.D(8) of the Plan provides an exception to the Trade-at Prohibition for ISOs. In addition, Section I(MM) defined a Trade-at ISO as a limit order for a Pilot Security that meets the following requirements: (1) When routed to a Trading Center, the limit order is identified as an ISO; and (2) simultaneously with the routing of the limit order identified as an ISO, one or more additional limit orders, as necessary, are routed to execute against the full displayed size of any protected bid, in the case of a limit order to sell, or the full displayed size of any protected offer, in the case of a limit order to buy, for the Pilot Security with a price that is equal to the limit price of the limit order identified as an ISO. These additional routed orders also must be marked as ISO.

⁷⁰ 17 CFR 242.611.

⁷¹ See FIF Letter.

⁷² The Commission notes that it has granted BATS an exemption from Rule 608(c) related to this provision. See SEC Exemption Letter, *supra* note 18.

⁷³ This additional exception was requested by a commenter. See FIF Letter.

⁷⁴ The Commission notes that one commenter suggested that there should be a print protection exception to the Trade-at Prohibition that corresponds to the print protection exemption that is applicable to Rule 611 of Regulation NMS. See FIF Letter. The Commission does not agree that a print protection exception would be consistent with

procedures to address errors and transactions to correct errors and takes prompt action to remedy deficiencies in such policies and procedures.⁷⁵

The Commission finds that the exception to the Trade-at Prohibition for the correction of bona fide errors is consistent with the Act.⁷⁶ The Commission believes that this exception should promote efficiency and the best execution of investor orders. As noted in the Commission's order exempting such orders from Rule 611 of Regulation NMS, the exemption will allow Trading Centers to execute error correction transactions at the appropriate prices to correct bona fide errors without having to qualify for one of the exceptions to the Trade-at Prohibition.⁷⁷

The Commission finds that the BATS proposal to implement the Tick Size Pilot quoting and trading requirements, including the Interpretations and Policies, are consistent with the Act. The proposal clarifies and implements the quoting and trading requirements set forth in the Plan.

VI. Solicitation of Comments of Partial Amendment No. 1

Interested persons are invited to submit written data, views, and arguments concerning Partial Amendment No. 1, including whether the proposed rule change, as modified by Partial Amendment No. 1, is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-BATS-2015-108 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange

⁷⁵ See Partial Amendment No. 1, *supra* note 7. See also Securities Exchange Act Release No. 55884 (June 8, 2007), 72 FR 32926 (June 14, 2007).

⁷⁶ The Commission notes that the conditions for a bona fide error exception for the Trade-at Prohibition would be consistent with the corresponding bona fide error exemption for Rule 611 and would apply only to the error correction transaction itself and would not, for example, apply to any subsequent trades effected by a Trading Center to eliminate a proprietary position connected with the error correction transaction or a broker dealer's mere failure to execute a not-held order in accordance with a customer's expectations. See also Securities Exchange Act Release No. 55884 (June 8, 2007), 72 FR 32926 (June 14, 2007).

⁷⁷ The Commission notes that it has granted BATS an exemption from Rule 608(c) related to this provision. See SEC Exemption Letter, *supra* note 18.

Commission, 100 F Street NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-BATS-2015-108. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-BATS-2015-108 and should be submitted on or before March 30, 2016.

VII. Accelerated Approval of Proposed Rule Change, as Modified by Partial Amendment No. 1

The Commission finds good cause, pursuant to section 19(b)(2) of the Act, to approve the proposed rule change, as modified by Partial Amendment No. 1, prior to the 30th day after the date of publication of Partial Amendment No. 1 in the **Federal Register**. Partial Amendment No. 1 amends four of the requirements set forth in this proposed rule change. First, BATS proposes to add an exception to permit members to fill a customer order in a Pilot Security in Test Group Two or Three at a non-nickel increment to comply with BATS Rule 12.6 (Prohibition Against Trading Ahead of Customer Orders) under limited circumstances. Second, BATS is amending the proposal to adopt an exception to the Trade-at Prohibition for certain error correction transactions. Third, BATS is proposing to modify the stopped order exception to the Trade-at Prohibition to clarify its operation under

the Plan. Finally, BATS is proposing to clarify the use of ISOs in connection with the Trade-at Prohibition.

BATS believes that the change to allow members to fill a customer order at a non-nickel increment to comply with BATS Rule 12.6 under limited circumstances best facilitates the ability of members to continue to protect customer orders while retaining the flexibility to engage in proprietary trades that comply with an exception to the Plan. BATS believes adding an exception to the Trade-at Prohibition for error correction transactions is appropriate as this exception is equally applicable to the Trade-at Prohibition as to Rule 611 of Regulation NMS, and that adopting this exception appropriately aligns the requirements of the Trade-at Prohibition with Rule 611 of Regulation NMS. Similarly, BATS believes that amending the stopped order exception will result in more consistent treatment under Regulation NMS and the Plan, which should ease compliance burdens for members. Finally, BATS believes that amending the reference to ISOs in connection with the Trade-at Prohibition is consistent with the Act because it will better align that reference to the definition of "Trade-At Intermarket Sweep Order" as set forth in the Plan.

Based on the foregoing, the Commission believes that the changes to: (1) Add an exception to BATS Rule 11.27(a)(5)(C)(iv) and 11.27(a)(6)(C)(iv) to permit members to fill a customer order in a Pilot Security at a non-nickel increment to comply with BATS Rule 12.6 under limited circumstances, (2) create an exception to the Trade-at Prohibition for certain error correction transactions, (3) modify the stopped order exception to the Trade-at Prohibition, and (4) to clarify the use of ISOs in connection with the Trade-at Prohibition are all consistent with the Act. Accordingly, the Commission finds good cause for approving the proposed rule change, as modified by Partial Amendment No. 1, on an accelerated basis, pursuant to section 19(b)(2) of the Act.

VIII. Conclusion

IT IS THEREFORE ORDERED, pursuant to section 19(b)(2) of the Act⁷⁸ that the proposed rule change, as modified by Partial Amendment No. 1 (SR-BATS-2015-108) be, and it hereby is, approved on an accelerated basis.

⁷⁸ 15 U.S.C. 78s(b)(2).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁷⁹

Robert W. Errett,

Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 32022; 812-14591]

Amplify ETF Trust and Amplify Investments LLC; Notice of Application

March 3, 2016.

AGENCY: Securities and Exchange Commission (“Commission”).

ACTION: Notice of an application under section 6(c) of the Investment Company Act of 1940 (“Act”) for an exemption from section 15(a) of the Act and rule 18f-2 under the Act, as well as from certain disclosure requirements in rule 20a-1 under the Act, Item 19(a)(3) of Form N-1A, Items 22(c)(1)(ii), 22(c)(1)(iii), 22(c)(8) and 22(c)(9) of Schedule 14A under the Securities Exchange Act of 1934, and Sections 6-07(2)(a), (b), and (c) of Regulation S-X (“Disclosure Requirements”). The requested exemption would permit an investment adviser to hire and replace certain sub-advisers without shareholder approval and grant relief from the Disclosure Requirements as they relate to fees paid to the sub-advisers.

APPLICANTS: Amplify ETF Trust (the “Trust”), a Massachusetts business trust registered under the Act as an open-end management investment company with multiple series, and Amplify Investments LLC, a Delaware limited liability company registered as an investment adviser under the Investment Advisers Act of 1940 (“Amplify” or the “Adviser,” and, collectively with the Trust, the “Applicants”).

FILING DATES: The application was filed December 15, 2015.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission’s Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on March 28, 2016, and should be accompanied by proof of

service on the applicants, in the form of an affidavit or, for lawyers, a certificate of service. Pursuant to rule 0-5 under the Act, hearing requests should state the nature of the writer’s interest, any facts bearing upon the desirability of a hearing on the matter, the reason for the request, and the issues contested.

Persons who wish to be notified of a hearing may request notification by writing to the Commission’s Secretary.

ADDRESSES: Secretary, U.S. Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090. Applicants: 3250 Lacey Road, Suite 130, Downers Grove, IL 60515.

FOR FURTHER INFORMATION CONTACT: David J. Marcinkus, Senior Counsel, or Dalia Blass, Assistant Chief Counsel, at (202) 551-6821 (Division of Investment Management, Chief Counsel’s Office).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained via the Commission’s Web site by searching for the file number, or an applicant using the Company name box, at <http://www.sec.gov/search/search.htm> or by calling (202) 551-8090.

Summary of the Application

1. The Adviser will serve as the investment adviser to the Funds pursuant to an investment advisory agreement with the Trust (the “Advisory Agreement”).¹ The Adviser will provide the Funds with continuous and comprehensive investment management services subject to the supervision of, and policies established by, each Fund’s board of trustees (“Board”). The Advisory Agreement permits the Adviser, subject to the approval of the Board, to delegate to one or more sub-advisers (each, a “Sub-Adviser” and collectively, the “Sub-Advisers”) the responsibility to provide the day-to-day portfolio investment management of each Fund, subject to the supervision and direction of the Adviser. The primary responsibility for managing the Funds will remain vested in the Adviser. The Adviser will hire, evaluate, allocate assets to and oversee

¹ Applicants request relief with respect to any existing and any future series of the Trust and any other registered open-end management company or series thereof that: (a) Is advised by Amplify or its successor or by a person controlling, controlled by, or under common control with Amplify or its successor (each, also an “Adviser”); (b) uses the manager of managers structure described in the application; and (c) complies with the terms and conditions of the application (any such series, a “Fund” and collectively, the “Funds”). For purposes of the requested order, “successor” is limited to an entity that results from a reorganization into another jurisdiction or a change in the type of business organization.

the Sub-Advisers, including determining whether a Sub-Adviser should be terminated, at all times subject to the authority of the Board.

2. Applicants request an exemption to permit the Adviser, subject to Board approval, to hire certain Sub-Advisers pursuant to Sub-Advisory Agreements and materially amend existing Sub-Advisory Agreements without obtaining the shareholder approval required under section 15(a) of the Act and rule 18f-2 under the Act.² Applicants also seek an exemption from the Disclosure Requirements to permit a Fund to disclose (as both a dollar amount and a percentage of the Fund’s net assets): (a) The aggregate fees paid to the Adviser and any Affiliated Sub-Adviser; and (b) the aggregate fees paid to Sub-Advisers other than Affiliated Sub-Advisers (collectively, “Aggregate Fee Disclosure”). For any Fund that employs an Affiliated Sub-Adviser, the Fund will provide separate disclosure of any fees paid to the Affiliated Sub-Adviser.

3. Applicants agree that any order granting the requested relief will be subject to the terms and conditions stated in the Application. Such terms and conditions provide for, among other safeguards, appropriate disclosure to Fund shareholders and notification about sub-advisory changes and enhanced Board oversight to protect the interests of the Funds’ shareholders.

4. Section 6(c) of the Act provides that the Commission may exempt any person, security, or transaction or any class or classes of persons, securities, or transactions from any provisions of the Act, or any rule thereunder, if such relief is necessary or appropriate in the public interest and consistent with the protection of investors and purposes fairly intended by the policy and provisions of the Act. Applicants believe that the requested relief meets this standard because, as further explained in the Application, the Advisory Agreements will remain subject to shareholder approval, while the role of the Sub-Advisers is substantially similar to that of individual portfolio managers, so that requiring shareholder approval of Sub-Advisory Agreements would impose unnecessary delays and expenses on the Funds. Applicants believe that the requested relief from the Disclosure Requirements meets this standard because it will improve the Adviser’s

² The requested relief will not extend to any Sub-Adviser that is an affiliated person, as defined in section 2(a)(3) of the Act, of a Fund or the Adviser, other than by reason of serving as a sub-adviser to one or more of the Funds (“Affiliated Sub-Adviser”).
