SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Bananas From the Philippines Into the Continental United States.

OMB Control Number: 0579-0394.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart—Fruits and Vegetables" (7 CFR 319.56–1 through 319.56–74).

Section 319.56–58 of the regulations provides the requirements for the importation of bananas from the Philippines into the continental United States. The regulations require the use of information collection activities, including operational workplans, recordkeeping, production site registration, monitoring and oversight of registered production sites, fruit fly trapping to establish places of production with low pest prevalence, investigations, certification of harvest stage, carton markings, shipping documents, and phytosanitary certificates with an additional declaration.

When comparing the regulations to the information collection activities that were previously approved, we found that several of the information collection activities above were not included. We have adjusted the overall estimates of burden accordingly.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0076 hours per response.

Respondents: Producers and importers of bananas from the Philippines and national plant protection organization officials of the Philippines.

Estimated annual number of respondents: 41.

Estimated annual number of responses per respondent: 3,924.

Estimated annual number of responses: 160,891.

Estimated total annual burden on respondents: 1,219 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 4th day of March 2016.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: 7 CFR Part 210, National School Lunch Program.

Form: FNS-640.

OMB Control Number: 0584-0006.

Expiration Date: March 31, 2016.

Type of Request: Revision of a currently approved collection.

Abstract: The Richard B. Russell National School Lunch Act (NSLA), as amended, authorizes the National School Lunch Program (NSLP) to safeguard the health and well-being of the nation's children and provide free or reduced price school lunches to qualified students through subsidies to schools. Section 10 of the Child Nutrition Act of 1966 (42 U.S.C. 1779) requires the Secretary of Agriculture to prescribe such regulations as deemed necessary to carry out this Act and the NSLA (42 U.S.C. 1751 *et seq.*). Pursuant to that provision, the Secretary has issued 7 CFR part 210, which sets forth policies and procedures for the administration and operation of the NSLP. The United States Department of Agriculture (USDA) provides States with general and special cash assistance and donations of foods to assist schools in serving nutritious lunches to children each school day. Participating State agencies must conduct administrative reviews to monitor compliance with Program requirements. FNS collects

Program data from State agencies on FNS forms that have been approved by OMB. The FNS-640 form collects information from these administrative reviews conducted by the State agency. The FNS-640 Coordinated Review Effort (CRE) Data Report is currently approved as part of this information collection. The title of the FNS-640 form is being changed to "Administrative Review Data Report" and FNS is proposing revisions to reflect changes to the administrative review process and revisions to incorporate the form into an electronic report for the Food Program Reporting System (FPRS). Upon approval of the proposed revisions by OMB, the reporting burden for this form will be merged into the FPRS information collection, OMB control # 0584-0594, expiration date 06/30/2017. The reporting and recordkeeping burden hours associated with this revision are not changing.

This information collection is required to administer and operate this program in accordance with the NSLA. All of the reporting and recordkeeping requirements associated with the NSLP are currently approved by the Office of Management and Budget and are in force. This is a revision of the currently approved information collection.
