II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to propose revisions to the Fee Schedule to address how the Exchange would treat transactions in ByRDs.

The Exchange recently added rules related to ByRDs and plans to launch trading in ByRDs in March 2016. To encourage trading in ByRDs, the Exchange proposes to exempt transactions in ByRDs from all transaction fees and credits at this time.

The Exchange believes that the proposed rule change is reasonable and does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed change is pro-competitive as it would further the Exchange’s goal of introducing new products to the marketplace by encouraging trading in these products. To the extent that the proposed change incentivizes any market participants to direct their order flow to the Exchange, all market participants would benefit from increased liquidity and trading opportunities on the Exchange.

B. Self-Regulatory Organization’s Statement on Burden on Competition

In accordance with section 6(b)(6) of the Act, the Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed change is pro-competitive as it would further the Exchange’s goal of introducing new products to the marketplace and encouraging trading in these products, which would in turn, benefit market participants. To the extent that this purpose is achieved, all of the Exchange’s market participants should benefit from the improved market liquidity. Enhanced market quality and increased transaction volume that results from the anticipated increase in order flow directed to the Exchange will benefit all market participants.
