Assessment Rates

If a respondent's weighted-average dumping margin is above *de minimis* in the final results of these reviews, we will calculate an importer-specific assessment rate on the basis of the ratio of the total amount of antidumping duties calculated for the importer's examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1).⁷ If the respondent's weighted-average dumping margin is zero or *de minimis* in the final results of reviews, we will instruct U.S. Customs and Border Protection (CBP) not to assess duties on any of its entries in accordance with the *Final Modification for Reviews*.⁸

For entries of subject merchandise during the POR produced by DSM or Hyundai Steel for which they did not know their merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of these reviews.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of final results of these reviews for all shipments of CTL plate from Korea entered, or withdrawn from

warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) The cash deposit rate with respect to the administrative review respondent will be the rate established in the final results of the review; (2) for merchandise exported by manufacturers or exporters not covered in these reviews but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in these reviews, a prior review, or the original investigation but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 0.98 percent,⁹ the all-others rate established in the less-than-fair-value investigation, adjusted for the export-subsidy rate in the companion countervailing duty investigation.

With respect to Hyundai Steel, the new shipper respondent, the Department established a combination cash deposit rate for this company consistent with its practice as follows: (1) For subject merchandise produced and exported by Hyundai Steel, the cash deposit rate will be the rate established for Hyundai Steel in the final results of the NSR; (2) for subject merchandise exported by Hyundai Steel, but not produced by Hyundai Steel, the cash deposit rate will be the rate for the all-others rate established in the less-than-fair-value investigation; and (3) for subject merchandise produced by Hyundai Steel but not exported by Hyundai Steel, the cash deposit rate will be the rate applicable to the exporter.

These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

The Department is issuing and publishing these results in accordance with sections 751(a)(1), 751(a)(2)(B), 777(i) of the Act and 19 CFR 351.214 and 351.221(b)(4).
