I. Background

The administration of the Trade Act of 1974, as amended by the Trade Adjustment Assistance Extension Act of 2015 (TAAEA 2015), is the responsibility of the Secretary of Labor. Through agreements (Governor-Secretary Agreements) established with states, states serve as agents of the Department in making payments to workers who have lost their jobs as a result of foreign trade and are certified eligible for the TAA Program. Section 241 of the Trade Act provides that: "the Secretary shall from time to time certify to the Secretary of the Treasury for payment to each cooperating state the sums necessary to enable such State as agents of the United States to make payments provided for by this chapter."

As such, states may request reserve funds before the Final Distribution to cover the costs of Training, Job Search Allowances and Relocation Allowances, **Employment and Case Management** Services and State Administration of these benefits. Reserve funds will be distributed to states in accordance with 20 CFR 618.920 on an as-needed basis in response to reserve fund requests to provide monies to those states that experience large, unexpected layoffs or otherwise have training needs that are not met by their initial allocation. These funds must be requested using the Form ETA-9117 (OMB No. 1205-0275).

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
