Preliminary Results of the Review ⁵

In accordance with 19 CFR 351.221(b)(4)(i), we calculated an individual subsidy rate for DSM, the firm subject to the administrative review. For the period January 1, 2014, through December 31, 2014, we preliminarily determine the total net countervailable subsidy rate for DSM is 0.01 percent which is *de minimis*. We preliminarily determine that the net countervailable subsidy rate for Hyundai Steel, the firm subject to the NSR, is 0.23 percent *ad valorem*, which is *de minimis*.

Disclosure and Public Comment

The Department intends to disclose to parties to this proceeding the calculations performed in reaching the preliminary results within five days of the date of publication of these preliminary results.⁶ Interested parties may submit written arguments (case briefs) within 30 days of publication of the preliminary results and rebuttal comments (rebuttal briefs) within five days after the time limit for filing the case briefs.⁷ Pursuant to 19 CFR 351.309(d)(2), rebuttal briefs must be limited to issues raised in the case briefs. Parties who submit arguments are requested to submit with the argument: (1) Statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Certain Polyethylene Terephthalate Resin From the People's Republic of China: Final Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) determines that imports of certain polyethylene terephthalate resin (PET resin) from the People's Republic of China (PRC) are being sold in the United States at less than fair value (LTFV), as provided in section 735 of the Tariff Act of 1930, as amended (the Act). The final weighted-average dumping margins of sales at LTFV are listed in the "Final Determination Margins" section, *infra*.

DATES: *Effective Date:* March 14, 2016.

FOR FURTHER INFORMATION CONTACT: Steve Bezirgianian or Tyler Weinhold, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-1131 or (202) 482-1121, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 15, 2015, the Department of Commerce (Department) published in the **Federal Register** the preliminary determination in the LTFV investigation of PET resin from the PRC.¹ For a

We later published a correction to that notice, which corrected errors in the weighted-average margin chart appearing in the *Preliminary Determination* (see *Certain Polyethylene Terephthalate Resin From the People's Republic of China: Notice of Correction to Preliminary Affirmative Less Than Fair Value Determination*, 80 FR 69643 (November 10, 2015)).

description of the events that have occurred since the *Preliminary Determination*, see the Issue and Decision Memorandum, which is hereby adopted by this notice.² The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

As explained in the memorandum from the Acting Assistant Secretary for Enforcement & Compliance, the Department has exercised its discretion to toll all administrative deadlines due to the recent closure of the Federal Government because of snowstorm "Jonas." All deadlines in this segment of the proceeding have been extended by four business days. The revised deadline for the final determination of this investigation is now March 4, 2016.

Period of Investigation

The period of investigation (POI) is July 1, 2014, through December 31, 2014.

Scope of the Investigation

The merchandise covered by this investigation is certain PET resin from the PRC. For a full description of the scope of the investigation, see Appendix I to this notice.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues and Decision Memorandum accompanying this notice. A list of the issues raised and to which the Department responded is attached to this notice as Appendix II.

Changes to the Margin Calculations Since the Preliminary Determination

Based on the Department's analysis of the comments received and our findings at verification, we made certain changes to our margin calculations. For a discussion of these changes, see the Issues and Decision Memorandum.

Combination Rates

In the *Initiation Notice*,³ the Department stated that it would calculate combination rates for the respondents that are eligible for a separate rate in this investigation. *Policy Bulletin 05.1* describes this practice.⁴

Separate Rate

Under section 735(c)(5)(A) of the Act, the rate for all other companies that have not been individually examined is normally an amount equal to the weighted average of the estimated weighted average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely on the basis of facts available. In this final determination, the Department has calculated rates for both mandatory respondents that are not zero, *de minimis*, or based entirely on facts available. Therefore, the Department has assigned to the companies that have not been individually examined but have

demonstrated their eligibility for a separate rate a margin of 114.47 percent, which is the weighted-average of Xingyu's and FEIS's margins using publicly-ranged quantities for their sales of subject merchandise.⁵

PRC-Wide Rate

In our *Preliminary Determination*, we found that certain PRC exporters and/or producers of the merchandise under consideration during the POI did not respond to the Department's quantity and value questionnaire. As a result, we preliminarily determined to calculate the PRC-wide rate on the basis of adverse facts available (AFA). For the final determination, we have determined to use, as the AFA rate applied to the PRC-wide entity, 126.58 percent, the highest CONNUM-specific dumping margin calculated in this final determination. Consistent with our practice, the Department selected Xingyu's highest CONNUM-specific margin, as AFA, because this rate is higher than the other rates in this investigation and therefore, sufficiently adverse to serve the purposes of facts available.⁶ Furthermore, there is no need to corroborate the selected margin because it is based on information submitted by Xingyu in the course of this investigation, *i.e.*, it is not secondary information.⁷

Final Determination Margins

The Department determines that the final weighted-average dumping margins, and cash deposit rates reflecting adjustments to the weighted-average dumping margins to account for export subsidies and estimated domestic subsidy pass-through (*see below for additional explanation*), are as follows:

Exporter	Producer	Weighted-average margin ¹ (percent)	Cash deposit rate (percent)
Far Eastern Industries (Shanghai) Ltd. or Oriental Industries (Suzhou) Limited. ⁸	Far Eastern Industries (Shanghai) Ltd. or Oriental Industries (Suzhou) Limited.	104.98	99.29

Practice and Application of Combination Rates in Antidumping Investigations Involving Non-Market Economy Countries," (April 5, 2005) (Policy Bulletin 05.1), available on the Department's Web site at <http://enforcement.trade.gov/policy/bull05-1.pdf>.

⁵ See Memorandum to the File entitled "Final Determination of the Investigation of Certain Polyethylene Terephthalate Resin from the People's Republic of China: Calculation of the Final Margin for Separate Rate Companies," dated concurrently with this notice. With two respondents, we normally calculate: (A) A weighted-average of the dumping margins calculated for the mandatory respondents; (B) a simple average of the dumping margins calculated for the mandatory respondents; and (C) a weighted-average of the dumping margins

calculated for the mandatory respondents using each company's publicly-ranged values for the merchandise under consideration. We compare (B) and (C) to (A) and select the rate closest to (A) as the most appropriate rate for all other companies. ⁸ In the *Preliminary Determination*, we collapsed Oriental Industries (Suzhou) Limited with FEIS. No parties challenged those findings, and we are continuing to collapse those firms in this final determination.

⁹ In the *Preliminary Determination*, we collapsed four firms (Jiangsu Xingye Plastic Co., Ltd., Jiangyin Xingjia Plastic Co., Ltd., Jiangyin Xingtai New Material Co., Ltd., and Jiangsu Xingye Polytech Co., Ltd.) with Xingyu. No parties challenged those findings, and we are continuing to so collapse those firms in this final determination.

Disclosure

We intend to disclose to parties in this proceeding the calculations performed for this final determination within five days of the date of public announcement of our final determination, in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

Pursuant to section 735(c)(1)(B) of the Act, the Department will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all entries of PET resin from the PRC, which were entered, or withdrawn from warehouse, for consumption on or after October 15, 2015, the date of publication in the **Federal Register** of the affirmative *Preliminary Determination*. Further, pursuant to section 735(c)(1)(B)(ii) of the Act, the Department will instruct CBP to require a cash deposit¹⁰ equal to the weighted-average amount by which the normal value exceeds U.S. price, adjusted where appropriate for export subsidies and estimated domestic subsidy pass-through,¹¹ as follows: (1) For the exporter/producer combination listed in the table above, the cash deposit rate will be equal to the dumping margin which the Department determined in this final determination; (2) for all combinations of PRC exporters/producers of merchandise under consideration which have not received their own separate rate above, the cash deposit rate will be equal to the dumping margin established for the PRC-wide entity; and (3) for all non-PRC

exporters of merchandise under consideration which have not received their own separate rate above, the cash deposit rate will be equal to the cash deposit rate applicable to the PRC exporter/producer combination that supplied that non-PRC exporter. The suspension of liquidation instructions will remain in effect until further notice.

Consistent with the *Preliminary Determination* and as noted above, where the product under investigation is also subject to a concurrent countervailing duty investigation, we instruct CBP to require a cash deposit less the amount of the countervailing duty determined to constitute any export subsidies or domestic subsidy pass through. Therefore, in the event that countervailing duty order is issued and suspension of liquidation is resumed in the companion countervailing duty investigation on PET resin from the PRC, the Department will instruct CBP to require cash deposits adjusted by the amount of export subsidies and domestic subsidy pass through, as appropriate. These adjustments are reflected in the final column of the rate chart, above.¹² Until such suspension of liquidation is resumed in the companion countervailing duty investigation, and so long as suspension of liquidation continues under this antidumping duty investigation, the cash deposit rates for this antidumping duty investigation will be the rates identified in the weighted-average margin column in the rate chart, above.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the U.S. International Trade Commission (ITC) of our final determination. As our final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will determine within 45 days whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of the subject merchandise. If the ITC determines that such injury exists, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Return or Destruction of Proprietary Information

This notice will serve as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this determination and notice in accordance with sections 735(d) and 777(i) of the Act.
