SUPPLEMENTARY INFORMATION:

Background: On February 23, 2012, the White House released Consumer Data Privacy in a Networked World: A Framework for Protecting Privacy and Promoting Innovation in the Global Digital Economy (the “Privacy Blueprint”). The Privacy Blueprint directs NTIA to convene multistakeholder processes to develop legally enforceable codes of conduct that specify how the Consumer Privacy Bill of Rights applies in specific business contexts. On December 3, 2013, NTIA announced that it would convene a multistakeholder process with the goal of developing a code of conduct to protect consumers’ privacy and promote trust regarding facial recognition technology in the commercial context. On February 6, 2014, NTIA convened the first meeting of the multistakeholder process, followed by additional meetings through July 2015.

Matters To Be Considered: The March 29, 2016 meeting is a continuation of a series of NTIA-convened multistakeholder discussions concerning facial recognition technology. Stakeholders will engage in an open, transparent, consensus-driven process to develop a code of conduct regarding facial recognition technology. The March 29, 2016 meeting will build on stakeholders’ previous work. More information about stakeholders’ work is available at: http://www.ntia.doc.gov/other-publication/2015/privacy-multistakeholder-process-facial-recognition-technology.

Time and Date: NTIA will convene a meeting of the privacy multistakeholder process concerning facial recognition technology on March 29, 2016, from 1:00 p.m. to 5:00 p.m., Eastern Time. The meeting date and time are subject to change. The meeting is subject to cancellation if stakeholders complete their work developing a code of conduct.
