transportation security and an appropriate level of need to access transportation security information—such as, regulated parties and other industry stakeholders, Federal agencies, and state and local governments. This system also integrates other security-related information and communications at the sensitive transportation security information (SSI) level. It is located in a secure online environment and is accessible from the Homeland Security Information Network (HSIN) and TSA (for TSA staff only). It disseminates mission-critical information to users inside and outside of the TSA organization. It provides an online portal allowing authorized users to obtain, post, and exchange information, access common resources, and communicate with similarly situated individuals.

TSA infoBoards are primarily used for disseminating TSA mission-critical information, such as Security Directives (SD), compliance status, policy updates, and watch lists; however, some groups of stakeholders utilize infoBoards for collaboration and to upload transportation security information. InfoBoards allow stakeholders to filter alerts and information based on their particular needs, such as their regulated areas of operation or their treaty relationship for foreign government staff.

TSA intends TSA infoBoards to be used primarily by individuals with transportation security responsibilities, such as aircraft operators, airport security coordinators, and international transportation security coordinators. These individuals can voluntarily contact TSA to request access to TSA infoBoards; TSA does not require participation in TSA infoBoards.

Description of Data Collection

TSA will collect two types of information through TSA infoBoards. The collection is voluntary. TSA infoBoards users are not required to provide all information requested, but users who choose to withhold information will not receive the benefits of TSA infoBoards associated with that information collection.

1. User registration information. TSA will collect this information to ensure only those members of the transportation community with a relevant interest in transportation security and with an appropriate level of need to access transportation security information can be allowed onto TSA infoBoards. Such registration information will include the user’s name, professional contact information, agency/company, job title, employer, airport (optional), citizenship, regulatory interest, and employment verification contact information.

2. User’s choice of infoBoards. TSA will collect this information to select TSA infoBoards community(ies) appropriate for the particular user. Users are asked to submit their transportation security interest(s) and desired infoBoard(s) (to assess the user’s qualifications and needs together with the user registration information).

Use of Results

TSA will use this information to assess and improve the capabilities of all transportation modes to prevent, prepare for, mitigate against, respond to, and recover from transportation security incidents. A failure to collect this information will limit TSA’s ability to effectively enable modal operators to respond to, and quickly recover after, a transportation security incident. Insufficient awareness, prevention, response, and recovery to a transportation security incident will result in increased vulnerability of the U.S. transportation network.

Based on industry population estimates and growth rates, and interest generated amongst the transportation modes prior to TSA infoBoards’ release to the public, TSA estimates that there will be approximately 10,000 users within the first three years of the system’s use. TSA estimates users will spend approximately 1 hour per TSA infoBoards user inputting the information described above. Given this information, the total annual hour burden for this information collection for all respondents within the first three years of TSA infoBoards’ release is estimated to be approximately 30,000 hours. There are no fees to use TSA infoBoards.

Dated: March 10, 2016.
Christina Walsh, TSA Paperwork Reduction Act Officer, Office of Information Technology.

SUMMARY: This notice announces that the Transportation Security Administration (TSA) has forwarded the Information Collection Request (ICR), OMB control number 1652–0032, abstracted below to the Office of Management and Budget (OMB) for review and approval of an extension of the currently approved collection under the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. TSA published a Federal Register notice, with a 60-day comment period soliciting comments, of the following collection of information on November 25, 2015, 80 FR 73806. The collection involves using a questionnaire to collect medical information from candidates for the job of Transportation Security Officer (TSO) to ensure their qualifications to perform TSO duties pursuant to sec. 111 of the Aviation and Transportation Security Act (ATSA).

DATES: Send your comments by April 18, 2016. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to Desk Officer, Department of Homeland Security/TSA, and sent via electronic mail to airc-submission@omb.eop.gov or faxed to (202) 395–6974.

FOR FURTHER INFORMATION CONTACT: Christina Walsh, TSA Paperwork Reduction Act (PRA) Officer, Office of Information Technology (OIT), TSA–40, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598–6040; telephone (571) 227–2062; email TSAPRA@dhs.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at www.reginfo.gov. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
(2) Evaluate the accuracy of the agency’s estimate of the burden;
(3) Enhance the quality, utility, and clarity of the information to be collected; and
(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Transportation Security Officer (TSO) Medical Questionnaire.
Type of Request: Extension of a currently approved collection.
OMB Control Number: 1652–0032.
Affected Public: Applicants for employment as a Transportation Security Officer with TSA.
Abstract: TSA currently collects relevant medical information from Transportation Security Officer (TSO) candidates for the purpose of assessing whether the candidates meet the medical qualification standards the agency has established pursuant to the Aviation and Transportation Security Act (ATSA) (49 U.S.C. 44935). TSA collects this information through a medical questionnaire completed by TSO candidates and, in certain cases, further evaluation forms completed by TSO candidates’ health care providers. The medical questionnaire and further evaluation forms evaluate a candidate’s physical and medical qualifications to be a TSO, including visual and aural acuity, physical coordination, and motor skills.
Total Number of Respondents: 30,094.1

Estimated Annual Burden Hours: 16,489 hours.
Dated: March 10, 2016.
Christina Walsh,
TSA Paperwork Reduction Act Officer, Office of Information Technology.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[DOcket No. FR–5913–N–07]
60-Day Notice of Proposed Information Collection for Public Comment Under the Paperwork Reduction Act—Rental Assistance Demonstration (RAD) Program

Documents
AGENCY: Office of the Assistant Secretary for Housing, HUD.
ACTION: Notice.
SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. HUD is soliciting public comments on the subject proposal.
The Rental Assistance Demonstration allows Public Housing, Moderate Rehabilitation (Mod Rehab), Rent Supplement (Rent Supp), and Rental Assistance Payment (RAP) properties to convert to long-term project-based Section 8 rental assistance contracts. The documents that are the subject of this notice are those used to process and complete the conversion process for Public Housing, Mod Rehab, Rent Supp, and RAP properties.
DATES: Comment Due Date: May 16, 2016.
ADDRESSES: Interested persons are invited to submit comments regarding this notice to the Regulations Division, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street SW., Room 10276, Washington, DC 20410–0500.

For Further Information Contact: Marilyn M. Edge, Senior Advisor, Multifamily Housing Office of Recapitalization, Office of Housing, U.S. Department of Housing and Urban Development, 451 7th Street SW., Washington, DC 20410; telephone 202–708–3730, (this is not a toll-free number). Persons with hearing or speech impairments may access this number via TTY by calling the Federal Relay Service at (800) 877–8339.

SUPPLEMENTARY INFORMATION:
I. Evaluation of Proposed Information Collection

HUD will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended). This notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information on the following:
(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;
(3) Ways to enhance the quality, utility and clarity of information to be collected; and,
(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology: e.g. permitting electronic submission of responses.
