SUPPLEMENTARY INFORMATION:

I. Background

The data collection includes three application forms to establish membership in the Registered Apprenticeship-College Consortium. The three types of membership are: Two- and four-year post-secondary institutions, Registered Apprenticeship sponsors, and organizations and associations that represent institutions or sponsors on a national, regional or state level and serve in a coordinating role to facilitate membership in the consortium. At the September 2011 meeting of the Secretary’s Advisory Committee on Apprenticeship (ACA) a unanimous proposal was adopted to form a national consortium based on the Servicemembers Opportunity Colleges Consortium (SOC) model, which is a consortium of colleges that provides college articulation for soldiers and veterans who accumulate credits at a number of colleges. The SOC is supported by the Department of Defense. The ACA also adopted the Registered Apprenticeship-College Consortium Articulation Framework which outlines the goals of the consortium, the principles that guide the effort, conditions of membership, and criteria. The ACA authorizes this information collection.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
