to Commission regulation of security-based swap data repositories ("SDR"), the DFA Effective Date Order provided exemptions from Exchange Act Sections 13(n)(5)(D)(i), 13(n)(5)(F), 13(n)(5)(G), 13(n)(5)(H), 13(n)(7)(A), 13(n)(7)(B), and 13(n)(7)(C), each of which will expire on the earlier of (1) the date the Commission grants registration to an SDR and (2) the earliest compliance date set forth in any of the final rules regarding the registration of SDRs. The DFA Effective Date Order also provided an exemption from Exchange Act Section 29(b) with respect to provisions of the Exchange Act amended or added by subtitle B of the Dodd-Frank Act for which compliance is triggered by registration or adoption of final rules by the Commission, or for which the Commission has provided an exemption or exemptive relief, until such date as the Commission specifies. Absent other Commission action, these exemptions relevant to SDRs ("SDR Relief") will expire as of March 18, 2016, as further explained below.

In February 2015, the Commission adopted Rules 13n–11 to 13n–112 under the Exchange Act to govern SDRs (the "SDR Rules"). The SDR Rules became effective on May 18, 2015. The SDR Rules release states that SDRs must be in compliance with the SDR Rules by March 18, 2016, which is 365 days after publication of the SDR Rules in the Federal Register (the "SDR Rules Compliance Date"). The SDR Rules Release also notes that (1) an exempt application, any SDR must be registered with the Commission and in compliance with the federal securities laws and the rules and regulations thereunder (including the applicable Dodd-Frank Act provisions and all of the SDR Rules) by the SDR Rules Compliance Date, and (2) all exemptions that the Commission provided in the DFA Effective Date Order will expire on the compliance date, including the exemptions set forth in the DFA Effective Date Order. The SDR Rules govern the SDR registration process, duties, and core principles. The 12 core SDR Rules establish a framework for SDRs to register with the Commission by filing a new Form SDR, and require an SDR to update its Form SDR when any information becomes inaccurate. The SDR Rules also provide a process for the Commission to cancel or revoke the registration of an SDR.

In addition to the requirements set forth in the SDR Rules, there are a number of regulatory requirements applicable to SDRs once registered under Regulation SBSR, which was adopted by the Commission at the same time as the SDR Rules. Regulation SBSR provides for the reporting of security-based swap information to registered SDRs, and the public dissemination of security-based swap transaction, volume, and pricing information by registered SDRs. Rule 907 of Regulation SBSR requires a registered SDR to establish and maintain written policies and procedures for carrying out its duties under Regulation SBSR.

II. Discussion

The Commission is using its authority under Section 36 of the Exchange Act to grant a temporary exemption from compliance with the SDR Rules until June 30, 2016 to extend the SDR Relief so that it will expire on the earlier of (1) the date the Commission grants registration to an SDR and (2) June 30, 2016. The temporary exemption is designed to help facilitate the potential submission of any SDR applications.

Subject to certain exceptions, Section 36 of the Exchange Act authorizes the Commission, by rule, regulation, or order, to exempt, either conditionally or unconditionally, any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Exchange Act or any rule or regulation thereunder, to the extent that such exemption is necessary or appropriate in the public interest, and is consistent with the protection of investors. The Commission finds that it is necessary and appropriate in the public interest, and consistent with the protection of investors to grant a temporary exemption from compliance with the SDR Rules until June 30, 2016. The SDR Rules implement mandates under Title VII of the Dodd-Frank Act and govern the SDR registration process, duties and core principles. The Commission notes that the SDR Rules Compliance Date is less than one month away. The Commission believes that granting the temporary exemption along with an extension of the SDR Relief will give additional time to potential SDR registrants to thoroughly develop and prepare a complete application for registration. Notices of completed Forms SDR will be published to afford interested persons an opportunity to submit written comments concerning such application. Given the SDR Rules Compliance Date, the temporary exemption should also provide staff sufficient time to analyze adequately any application materials that may be submitted.

II. Conclusion

Accordingly, the Commission hereby grants, pursuant to Section 36 of the Exchange Act, a temporary exemption from compliance with the SDR Rules until June 30, 2016, and an extension of the SDR Relief such that it will expire on the earlier of (1) the date the Commission grants registration to an SDR and (2) June 30, 2016.

By the Commission.

Brent J. Fields,
Secretary.

10 In the SDR Rules Release, the Commission stated that if a person files an amendment to its application for registration after the Commission has already published notice of the filing of its Form SDR and the Commission finds that the amendment renders the prior filing materially incomplete, then the 90-day period pursuant to Rule 13n–11(c) will reset from the time that the Commission deems the amended application to be complete for the Commission’s review.
solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s
Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to include U.S. non-display policies in the Nasdaq rule book under Nasdaq Rule 7023. The text of the proposed rule change is available on the Exchange’s Web site at http://nasdaq.cchwallstreet.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s
Statement of the Purpose of, and
Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s
Statement of the Purpose of, and
Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Nasdaq Rule 7023 (NASDAQ Depth-of-Book Data) by adding IM–7023–1. Nasdaq Rule 7023(a)(2)(B) defines “Non-Display Usage” as any method of accessing depth-of-book data that involves access or use by a machine or automated device without access or use of a display by a natural person or persons. IM–7023–1 will incorporate guidance regarding U.S. non-display policies into the Nasdaq rule book to provide additional detail with regard to specific data usages and thereby ensure greater transparency.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers, and is consistent with the Section 6(b)(5) requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and practices, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and to perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are important to investors and listed companies.” Likewise, in NetCoalition v. Securities and Exchange Commission (“NetCoalition”) the DC Circuit upheld the Commission’s use of a market-based approach in evaluating the fairness of market data fees against a challenge claiming that Congress mandated a cost-based approach. As the court emphasized, the Commission “intended in Regulation NMS that ‘market forces, rather than regulatory requirements’ play a role in determining the market data . . . to be made available to investors and at what cost.”

Further, “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; and ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker
