#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

The Census Bureau conducts the Quarterly Summary of State and Local Government Tax Revenue, using the F-71 (Quarterly Survey of Property Tax Collections), F-72 (Quarterly Survey of State Tax Collections), and F-73 (Quarterly Survey of Non-Property Taxes) forms. The Quarterly Summary of State and Local Government Tax Revenue provides quarterly estimates of state and local government tax revenue at the national level, as well as detailed tax revenue data for individual states. The information contained in this survey is the most current information available on a nationwide basis for state and local government tax collections.

The Census Bureau needs state and local tax data to publish benchmark statistics on taxes, to provide data to the Bureau of Economic Analysis for Gross Domestic Product (GDP) calculations and other economic indicators, and to provide data for economic research and comparative studies of governmental finances. Tax collection data are used to measure economic activity for the Nation as a whole, as well as for comparison among the various states. Economists and public policy analysts use the data to assess general economic conditions and state and local government financial activities.

The Census Bureau is requesting an extension of the approval of the current forms. No changes to the forms are being requested.

For the Quarterly Survey of Non-Property Taxes (Form F-73) we will mail letters quarterly to a sample of approximately 1,800 local tax collection agencies known to have substantial collections of local general sales and/or local individual/corporation net income
