Case 5. A law firm filed a public version of its complaint containing CBI in a section 337 investigation. The Commission found that the law firm did not violate the APO since the CBI that was disclosed and made publicly accessible was not obtained under an APO related to a Commission investigation. In addition, the disclosure of the CBI occurred before an APO was issued in the Commission investigation. The letter to the firm advised it to practice better procedures in the future to ensure that no CBI is disclosed.

By order of the Commission.

Issued: March 22, 2016.

Lisa R. Barton,

Secretary to the Commission.

SUPPLEMENTARY INFORMATION: The Copyright Office is conducting separate studies concerning software-enabled consumer products and section 1201 of title 17.

Software-Enabled Consumer Products Study

On December 15, 2015, the Copyright Office issued an NOI announcing a study on the role of copyright law with

respect to the design, distribution, and use of consumer products that include embedded software. 80 FR 77668. This study is being done at the request of the United States Senate Committee on the Judiciary. Consistent with the Committee’s request, the focus of the study is on software contained in consumer products; it is not intended to address more general questions about software and copyright.

Section 1201 Study

Enacted in 1998 as part of the Digital Millennium Copyright Act (“DMCA”), section 1201 prohibits the circumvention of technological measures employed by or on behalf of copyright owners to control access to their works (also known as “access controls”), as well as the trafficking in technologies or services that facilitate such circumvention. In addition, section 1201 codifies a triennial rulemaking process through which the Librarian of Congress, upon the recommendation of the Register of Copyrights, can grant exemptions to the prohibition on the circumvention of access controls. The Copyright Office issued an NOI soliciting comments on the operation and effectiveness of section 1201 on December 29, 2015. 80 FR 81369.

Roundtable Subjects of Inquiry

At this time, the Copyright Office is providing notice of its intention to seek further input for these studies through public roundtables to be held on the dates and at the addresses set forth above. The public roundtables will offer an opportunity for interested parties to comment on topics set forth in the NOIs.

For the software-enabled consumer products study, the roundtables at each location will consist of sessions on the following topics: (1) The proper role of copyright in protecting software-enabled consumer products; (2) ownership and contractual issues; (3) fair use; and (4) the first sale doctrine, section 117, and other limitations and exceptions. After the final session, the Office will also provide participants and observers with an opportunity to offer additional comments for the record.

For the section 1201 study, roundtables at each location will consist of sessions on the following topics: (1) The relationship of section 1201 to copyright infringement, consumer issues, and competition; (2) the rulemaking process—evidentiary and procedural issues; (3) the rulemaking process—renewal of previously granted exemptions; (4) the anti-trafficking prohibitions and third-party assistance for permitted circumvention of technological measures; and (5)
