

estimated cost of \$0 for capital investment or maintenance and operational costs.

### III. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

**Authority:** 44 U.S.C. 3501 *et seq.*

Dated: March 23, 2016.

#### James Jones,

*Assistant Administrator, Office of Chemical Safety and Pollution Prevention.*

### Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Regional Haze Regulations (Renewal)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency has submitted an information collection request (ICR), "Regional Haze Regulations (Renewal)" (EPA ICR No. 1813.09, OMB Control No. 2060-0421) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through March 31, 2016. Public comments were previously requested via the **Federal Register** (80 FR 58473) on September 29, 2015 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**DATES:** Additional comments may be submitted on or before April 29, 2016.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2003-0162, to (1) EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to [oira\\_submission@omb.eop.gov](mailto:oira_submission@omb.eop.gov). Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

**FOR FURTHER INFORMATION CONTACT:** Chris Werner, Air Quality Policy Division, Office of Air Quality Planning and Standards, C539-04, Environmental Protection Agency, Research Triangle Park, NC 27711; telephone number: (919) 541-5133; fax number: (919) 541-5315; email address: [werner.christopher@epa.gov](mailto:werner.christopher@epa.gov).

**SUPPLEMENTARY INFORMATION:** Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** This ICR is for activities related to the implementation of the EPA's regional haze rule, for the time period between March 31, 2016, and March 31, 2019, and renews the previous ICR. The regional haze rule codified at 40 CFR parts 308 and 309, as authorized by sections 169A and 169B of the Clean Air Act, requires states to develop implementation plans to protect visibility in 156 federally-protected Class I areas. Tribes may choose to develop implementation plans. For this time period, states will primarily be developing and submitting periodic comprehensive implementation plan revisions (or initial implementation plans) and progress reports to comply with the regulations.

**Form Numbers:** None.

**Respondents/affected entities:** Entities potentially affected by this action are state, local and tribal air quality agencies, regional planning organizations and facilities potentially regulated under the regional haze rule.

**Respondent's obligation to respond:** Mandatory [see 40 CFR 51.308(b), (f) and (g) and 40 CFR 51.309(d)(10)].

**Estimated number of respondents:** 52 (total); 52 state agencies.

**Frequency of response:**

Approximately every 5 years.

**Total estimated burden:** 10,307 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$510,489 (per year). There are no annualized capital or operation and maintenance costs.

**Changes in the Estimates:** There is an increase of 4,259 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to this ICR renewal period covering different task elements than the previous renewal (EPA ICR No. 1813.08). These differences reflect the requirements of the current regional haze rule with respect to the scheduled events and activities in the implementation process. The last collection request anticipated the program consisting mainly of submission of 5-year progress reports. The change in burden reflects changes in labor rates and changes in the activities conducted due to the normal progression of the program, especially the fact that states will be working on and submitting periodic comprehensive State Implementation Plan (SIP) revisions (or initial SIPs).

### Notice of a Public Meeting and Webinar: Managing Cyanotoxins in Drinking Water

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of a public meeting.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) announces an opportunity for public input on the EPA's tools and information related to drinking water cyanotoxin management. The EPA is holding a public meeting for interested parties to provide input either

in person or online via a webinar on lessons learned after the release of the June 2015 *Recommendations for Public Water Systems to Manage Cyanotoxins in Drinking Water*. The agency plans to use this information to inform development of additional tools to support states and/or utilities. The EPA seeks to engage with stakeholders on information the agency can provide to support states and public water systems in addressing cyanotoxin public health concerns in drinking water.

**DATES:** The public meeting will be held on April 29, 2016, from 9:15 a.m. to 12:30 p.m., Central Standard Time. Registration and check-in begins at 8:45 a.m. Persons wishing to attend the meeting in person or online via webinar must register by April 28, 2016, as described in the **SUPPLEMENTARY INFORMATION** section.

**ADDRESSES:** The public meeting will be held at 77 West Jackson Blvd., Chicago, Illinois, Lake Michigan conference room on the 12th floor. All attendees must show government-issued photo identification (e.g., a driver's license) when signing in. Please arrive at least 15 minutes early to allow time to clear security. This meeting will also be simultaneously broadcast as a webinar, available on the Internet.

**FOR FURTHER INFORMATION CONTACT:** Members of the public who wish to receive further information about the public meeting or have questions about this notice should contact Hannah Holsinger at (202) 564-0403 or [holsinger.hannah@epa.gov](mailto:holsinger.hannah@epa.gov).

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

a. *How may I participate in this meeting/webinar?* Persons wishing to attend the meeting in person or online via the webinar must register in advance no later than 5:00 p.m., Eastern Daylight Savings Time, on April 28, 2016. To register, go online to: [https://www.eventbrite.com/e/us-epa-public-meeting-managing-cyanotoxins-in-drinking-water-tickets-22748127261?utm\\_term=eventurl\\_text](https://www.eventbrite.com/e/us-epa-public-meeting-managing-cyanotoxins-in-drinking-water-tickets-22748127261?utm_term=eventurl_text). Teleconferencing will be available for individuals participating via the webinar. The number of seats and webinar connections available for the meeting is limited and will be available on a first-come, first-served basis. Early registration is encouraged to ensure proper accommodations. The EPA will do its best to include all those interested in either meeting in person or via the webinar.

b. *How can I get a copy of the meeting/webinar materials?* Prior to the public meeting, a link to the meeting

materials will be sent by email to the registered attendees; copies will also be available for attendees at the meeting. For persons unable to attend the meeting, please contact Katie Foreman at [foreman.katherine@epa.gov](mailto:foreman.katherine@epa.gov) to request meeting materials.

c. *Special Accommodations:* Individuals with disabilities who wish to attend the meeting in person can request special accommodations by contacting Hannah Holsinger at [holsinger.hannah@epa.gov](mailto:holsinger.hannah@epa.gov) no later than April 22, 2016.

**II. Background**

Cyanobacteria are naturally occurring organisms similar to algae. These organisms can occur in fresh water and may rapidly multiply causing "blooms" under favorable conditions. Conditions that enhance bloom formation and persistence include light intensity and duration, nutrient availability (such as nitrogen and phosphorus), water temperature, pH and water column stability. Some blooms produce cyanotoxins such as microcystin, cylindrospermopsin and anatoxin-a, which can be a health concern. For additional background information on cyanotoxins in drinking water, please go to: [http://www2.epa.gov/sites/production/files/2014-08/documents/cyanobacteria\\_factsheet.pdf](http://www2.epa.gov/sites/production/files/2014-08/documents/cyanobacteria_factsheet.pdf).

The EPA released health advisories in June 2015 for two cyanotoxins: Microcystin and cylindrospermopsin. In June 2015, the EPA also released recommendations for public water systems on managing risks from cyanotoxins in drinking water. For additional background information on the health advisories and recommendations, please go to: <http://www.epa.gov/nutrient-policy-data/guidelines-and-recommendations>. The EPA's goal for this meeting is to obtain information on state, utility and public experiences in managing risks from cyanotoxins in drinking water. The EPA is seeking to get input on lessons learned after the release of the June 2015 recommendations document, *Recommendations for Public Water Systems to Manage Cyanotoxins in Drinking Water*. The EPA plans to use this information to develop additional tools or make modifications to the current recommendations document.

Dated: March 24, 2016.

**Rebecca Clark,**

*Acting Director, Office of Ground Water and Drinking Water.*

**Applicability Determination Index (ADI) Data System Recent Posting: Agency Applicability Determinations, Alternative Monitoring Decisions, and Regulatory Interpretations Pertaining to Standards of Performance for New Stationary Sources, National Emission Standards for Hazardous Air Pollutants, and the Stratospheric Ozone Protection Program**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

**SUMMARY:** This notice announces applicability determinations, alternative monitoring decisions, and regulatory interpretations that the Environmental Protection Agency (EPA) has made under the New Source Performance Standards (NSPS); the National Emission Standards for Hazardous Air Pollutants (NESHAP); and/or the Stratospheric Ozone Protection Program.

**FOR FURTHER INFORMATION CONTACT:** An electronic copy of each complete document posted on the Applicability Determination Index (ADI) data system is available on the Internet through the Resources and Guidance Documents for Compliance Assistance page of the Clean Air Act Compliance Monitoring Web site under "Air" at: <https://www2.epa.gov/compliance/resources-and-guidance-documents-compliance-assistance>. The letters and memoranda on the ADI may be located by date, office of issuance, subpart, citation, control number, or by string word searches. For questions about the ADI or this notice, contact Maria Malave at EPA by phone at: (202) 564-7027, or by email at: [malave.maria@epa.gov](mailto:malave.maria@epa.gov). For technical questions about individual applicability determinations, monitoring decisions or regulatory interpretations, refer to the contact person identified in the individual documents, or in the absence of a contact person, refer to the author of the document.

**SUPPLEMENTARY INFORMATION:**

**Background**

The General Provisions of the NSPS in 40 Code of Federal Regulations (CFR) part 60 and the General Provisions of the NESHAP in 40 CFR part 61 provide that a source owner or operator may request a determination of whether certain intended actions constitute the commencement of construction,
