Proposal to Approve Under OMB Delegated Authority the Extension for Three Years, Without Revision, of the Following Report

Report title: Recordkeeping Requirements Associated with the Interagency Statement on Complex Structured Finance Activities.

Agency form number: FR 4022.

OMB control number: 7100–0311.

Frequency: Annual.

Reporters: State member banks, bank holding companies, and U.S. branches and agencies of foreign banks.

Estimated annual reporting hours: 180 hours.

Estimated average hours per response: 10 hours.

Number of respondents: 18 respondents.

General description of report:

Sections 11(a), 11(i), 21, and 25 of the Federal Reserve Act (12 U.S.C. 248(a), 248(i), 483, and 602) authorize the Board to issue the information collection and recordkeeping guidance associated with the Interagency Statement. In addition, section 5(c) of the Bank Holding Company Act (12 U.S.C. 1844(c)), section 10(b) of the Home Owners’ Loan Act (12 U.S.C. 1467a (b)(2)), and section 13(a) of the International Banking Act (12 U.S.C. 3108(a)) provide further authority for the Board to issue such rules and guidance. As a guidance document, the Interagency Statement is voluntary, although conformance with the guidance may be the subject of review during examinations of institutions engaged in CSFTs. No information is collected by the Board in connection with the Interagency Statement, so the issue of confidentiality does not ordinarily arise. Should an institution’s policies or procedures adopted pursuant to the Interagency Statement be retained as part of the record of an institution’s examination, the records would be exempt from disclosure under exemption (b)(6) of the Freedom of Information Act, 5 U.S.C. 552(b)(6).

Abstract: The guidance provides that state member banks, bank holding companies, and U.S. branches and agencies of foreign banks supervised by the Federal Reserve should establish and maintain policies and procedures for identifying, evaluating, assessing, documenting, and controlling risks associated with certain complex structured finance transactions (CSFTs).

A financial institution engaged in CSFTs should maintain a set of formal, firm-wide policies and procedures that are designed to allow the institution to identify, evaluate, assess, document, and control the full range of credit, market, operational, legal, and reputational risks associated with these transactions. These policies may be developed specifically for CSFTs or included in the set of broader policies governing the institution generally. A financial institution operating in foreign jurisdictions may tailor its policies and procedures as appropriate to account for, and comply with, the applicable laws, regulations, and standards of those jurisdictions.

A financial institution’s policies and procedures should establish a clear framework for the review and approval of individual CSFTs. These policies and procedures should set forth the responsibilities of the personnel involved in the origination, structuring, trading, review, approval, documentation, verification, and execution of CSFTs. A financial institution should define what constitutes a new complex structured finance product and establish a control process for the approval of such new product. An institution’s policies should also provide for new complex structured finance products to receive the approval of all relevant control areas that are independent of the profit center before the products are offered to customers.

Current Actions: The Federal Reserve proposes to extend, without revision, the FR 4022 information collection.

Secretary of the Board.

Proposal To Approve Under OMB Delegated Authority the Extension for Three Years, With Revision, of the Following Report

Agency form number: FR Y–7N, FR Y–7NS, and FR Y–7Q.

OMB control number: 7100–0125.

Frequency: Quarterly and annually, beginning with the reporting period ending on September 30, 2016, and, for some items, March 31, 2018.

Reporters: Foreign banking organizations (FBOs).

Estimated annual reporting hours: FR Y–7N (quarterly): 1,170 hours; FR Y–7N (annual): 218 hours; FR Y–7NS: 40 hours; FR Y–7Q (quarterly): 1,360 hours; FR Y–7Q (annual): 32 hours.

Estimated average hours per response: FR Y–7N (quarterly): 6.8 hours; FR Y–7N (annual): 6.8 hours; FR Y–7NS: 1 hour; FR Y–7Q (quarterly): 2.5 hours; FR Y–7Q (annual): 1 hour.

General description of report: The FR Y–7Q collects consolidated regulatory capital information from all FBOs either quarterly or annually. The FR Y–7Q is filed quarterly by FBOs that have effectively elected to become U.S. financial holding companies (FHCs) and by FBOs that have total consolidated assets of $50 billion or more, regardless of FHC status. All other FBOs file the FR Y–7Q annually. The FR Y–7N and FR Y–7NS collect financial information for non-functionally regulated U.S. nonbank subsidiaries held by FBOs other than through a U.S. bank holding company (BHC), FHC, or U.S. bank. FBOs file the FR Y–7N quarterly or annually and the FR Y–7NS annually predominantly based on asset size-thresholds.

This information collection is mandatory pursuant to section 5(c) of the Bank Holding Company Act (12 U.S.C. 1844(c) and sections 8(c) and 13 of the International Banking Act (12 U.S.C. 3106(c) and 3108)). Section 165 of the Dodd–Frank Act, (12 U.S.C. 5365), directs the Federal Reserve to establish enhanced prudential standards for certain companies, including certain FBOs. The data may not be confidential in all cases. However, individual respondents may request confidential treatment for any of these reports pursuant to sections (b)(4) and (b)(6) of the Freedom of Information Act (5 U.S.C. 552(b)(4) and (b)(6)). The applicability of these exemptions would be determined on a case-by-case basis. In addition, items 8.b and 8.c in Part 1B of the FR Y–7Q involve disclosure of capital buffers imposed by an FBO’s home country supervisor. While some home country supervisors do not accord confidential status to that information or do so only on a case-by-case basis, others treat this information as confidential on a blanket basis under the belief that a more selective confidential treatment could signal an FBO’s financial strength or weakness and could thereby cause substantial competitive harm. Because the information on items 8.b and 8.c may or may not be public depending on the FBO’s home country, the Federal Reserve would grant confidential status, pursuant to FOIA exemption 4, only on a case-by-case basis.

The Federal Reserve proposes to revise the FR Y–7Q by collecting fourteen new data items to monitor compliance with enhanced prudential standards for FBOs adopted pursuant to Subparts N and O of Regulation YY. The new data items would be used to determine whether an FBO with total consolidated assets of $50 billion or more meets capital adequacy standards at the consolidated level that are consistent with the Basel capital framework. The proposed revision would be effective September 30, 2016, and, for some items, March 31, 2018.

Regulation YY requires an FBO with total consolidated assets of $50 billion or more to certify to the Federal Reserve that it meets capital adequacy standards on a consolidated basis, as established by its home-country supervisor, that are consistent with the regulatory capital framework published by the Basel Committee on Banking Supervision (BCBS), as amended from time to time (Basel capital framework). This requirement was intended to help ensure that the consolidated capital base supporting the activities of U.S. branches and agencies remains strong.
and to lessen the degree to which weaknesses at the consolidated foreign parent could undermine the financial strength of its U.S. operations.

The proposal would require an FBO with total consolidated assets of $50 billion or more to complete a new section, Part 1B, effective September 30, 2016 (with three of the proposed items effective March 31, 2018). Proposed Part 1B would contain 14 items related to home country regulatory capital ratios that would be reported on a quarterly basis. The value of each of these items would be calculated on a consolidated basis according to the methodologies established by the FBO’s home-country supervisor that are consistent with the Basel capital framework.

The proposal would not revise the reporting frequency for the FR Y–7Q. FBOs with total consolidated assets of less than $50 billion and that are not FHHCs would only file Part 1A on an annual basis. FBOs who have elected to become FHHCs and do not have $50 billion or more in total consolidated assets will file Part 1A on a quarterly basis. FBOs with total consolidated assets of $50 billion or more would complete both Part 1A and Part 1B on a quarterly basis.

As noted above, the Federal Reserve would propose to determine confidentiality of the proposed items on a case-by-case basis. However, the Federal Reserve notes that some jurisdictions may treat this information as confidential on a blanket basis under the belief that a more selective confidentiality treatment could signal an FBO’s financial strength or weakness and could thereby cause substantial competitive harm. The Federal Reserve seeks comment on whether these items should qualify for confidential treatment in all cases, such that treating this information as confidential on a blanket basis would be appropriate.

The FR Y–7N and FR Y–7NS are not being revised at this time. However, the estimated number of respondents is expected to decrease as a result of the designation of U.S. intermediate holding companies (IHCs) and recent proposed reporting requirements for the IHCs.²

Robert deV. Frierson,
Secretary of the Board.
