II. Background, Purpose, and Legal Basis

The legal basis for this rule is: 33 U.S.C. 471, 1221 through 1236, 2071; 33 CFR 1.05–1; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to define anchorage grounds.

On December, 12, 1967, the Coast Guard Fifth District published a final rule establishing an anchorage area on the Delaware River in Philadelphia, Pennsylvania in the **Federal Register** (32 FR 17726, 17749). The anchorage area established is contained in 33 CFR 110.157(a)(11). This proposed rule would change the shape and the dimensions of anchorage “10”, and remove the “restricted naval anchorage” verbiage from the regulation. The anchorage currently remains unused by the Naval Yard. Removing the restrictions on anchorage “10” would alleviate congestion within the port, allowing the anchorage to be used as a general anchorage for commercial traffic.

III. Discussion of Proposed Rule

The new anchorage area would encompass all waters of the Delaware River on the north side of the channel along West Horseshoe Range, bounded as follows: Beginning off of the southeasterly corner of Pier 1 at 39°53′07″ N., 075°10′30″ W., thence south to the north edge of the channel along West Horseshoe Range to 39°52′58″ N., 075°10′29″ W., thence east along the edge of the channel to 39°52′56″ N., 075°09′53″ W., thence north to 39°53′07″ N., 075°09′54″ W., thence continuing west to the beginning point at 39°53′07″ N., 075°10′30″ W. Additionally, the restrictions on the use of the anchorage will be removed, permitting all vessels to anchor within its bounds. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders (E.O.s) related to rulemaking. Below we summarize our analyses based on a number of these
