AGENCY: Federal Aviation Administration (FAA), DOT.

SUPPLEMENTARY INFORMATION:

History

The **Federal Register** published a final rule amending Class E airspace at Alpena County Regional Airport, Alpena, MI, and Muskegon County Airport, Muskegon, MI (81 FR 6447, February 8, 2016) Docket No. FAA–2015–7483. Subsequent to publication, the FAA determined that the part-time NOTAM language in the Class E surface area description was inadvertently removed in error. Potential safety concerns were identified due to the possibility for confusion in determining the operating rules and equipment requirements in the Alpena County Regional Airport and Muskegon Country Airport terminal areas. The concerns were based on the opportunity for part-time Class D surface area airspace and continuous Class E surface area airspace to be active at the same time.

To resolve these concerns, the FAA is keeping the part-time NOTAM language in the Class E surface area description to retain it as part-time airspace supplementing the existing part-time Class D surface area airspace at Alpena County Regional Airport and Muskegon Country Airport. The regulatory text is rewritten for clarity.
