Approval and Promulgation of Air Quality Implementation Plans; Colorado; Revisions to Common Provisions and Regulation Number 3; Corrections

AGENCY: Environmental Protection Agency (EPA).

ACTION: Correcting amendments.

SUMMARY: The Environmental Protection Agency (EPA) published in the January 25, 2016 **Federal Register** a document concerning the approval of Air Quality State Implementation Plan (SIP) revisions to Colorado Common Provisions and Regulation Number 3. Inadvertently, the publication date of January 25, 2016 was listed in the regulatory text under the heading "EPA Effective Date" instead of the effective date of February 24, 2016. The correct EPA effective date was provided in the rule preamble. This document corrects the "EPA Effective Date" within the regulatory text to February 24, 2016.

DATES: This correcting amendment is effective on April 12, 2016.

SUPPLEMENTARY INFORMATION: The EPA published a document in the January 25, 2016 **Federal Register** (81 FR 3963) concerning air quality SIP revisions to Colorado's Common Provisions and

Regulation Number 3. These revisions became effective on February 24, 2016 as correctly noted in the rule preamble. The "EPA Effective Date" within the regulatory text for this action was inadvertently listed as January 25, 2016. This correction revises the "EPA Effective Date" within the regulatory text to reflect the actual EPA effective date of February 24, 2016.

Approval and Promulgation of Implementation Plans; Spokane, Washington: Second 10-Year PM₁₀ Limited Maintenance Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving the limited maintenance plan submitted on January 4, 2016, by the State of Washington for the Spokane area, which includes the cities of Spokane, Spokane Valley, Millwood and surrounding unincorporated areas in Spokane County, Washington. This plan addresses the second 10-year maintenance period for particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM₁₀). A limited maintenance plan is used to meet Clean

Air Act requirements for formerly designated nonattainment areas that meet certain qualification criteria. The EPA determined that Washington's submittal meets the limited maintenance plan criteria. The Spokane area currently has monitored PM₁₀ levels well below the National Ambient Air Quality Standards (NAAQS) and levels have not increased since the area was redesignated to attainment in 2005. The EPA is also approving minor updates to the Spokane Regional Clean Air Agency (SRCAA) regulations controlling PM₁₀ related to the maintenance plan.

DATES: This final rule is effective May 12, 2016.
