Authority: 44 U.S.C. 3506(c)(2)(A).

SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Each year, the Department of Labor/ Employment and Training Administration is appropriated funds for youthful offender demonstration projects. The Department of Labor uses these funds for a variety of multi-site demonstrations aimed at developing model programs for serving young offenders. The Department expects over the next few years to award 28 new Youthful Offender grants in various sets of demonstrations each year for two years of operation and up to one year of follow-up services and post-placement data collection. In any given year this will result in 28 grants in their first year of operation, 28 grants in their second year of operation, and 28 grants providing follow-up services and tracking post-placement outcomes, for a total of 84 grants collecting data each year.

This data collection request is to permit the Department of Labor to continue with revisions a management information system for these various sets of grantees. This request includes the collection of data by grantees on participant characteristics, services provided, and participant outcomes; the quarterly progress report submitted by grantees, the quarterly narrative report, and the annual recidivism report. This

request continues a reporting and recordkeeping system for a minimum level of information collection that is necessary to comply with Equal Opportunity requirements, to hold Youthful Offender grantees appropriately accountable for the Federal funds they receive, including performance measures, and to allow the Department to fulfill its oversight and management responsibilities.

Revisions include adding questions on immigration status, welfare receipt, mental health treatment, and child support obligations to the data collected at intake; inserting several additional outcomes and clarifying some of the reporting items in the quarterly progress report; and broadening the recidivism survey to cover young adult offenders as well as juvenile offenders and to allow it to be filled out by the adult criminal justice system for young adult offenders. This request also adds the quarterly narrative report to be submitted by grantees. Burden hours for the quarterly narrative report were included in the supporting statement three years ago, but the report was left out of the final approval. This request also adds burden hours not included in the request three years ago for the time spent by grantees generating, reviewing, and correcting errors in the quarterly progress reports; increases the average burden to participants for the collection of intake data; and reduces the average burden hours from 30 to 16 for grantees to complete the quarterly narrative reports to make it consistent with the average hours approved for the quarterly narrative reports of similar Division of Youth services programs.

Section 185 of the Workforce Innovation and Opportunity Act authorizes the collection of data from grantees on the demographic characteristics of participants, activities provided, and program outcomes. This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be

summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB Control No. 1205–0513. Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION:

I. Background

Each Indian and Native American (INA) grantee receiving WIOA, Section 166 funds (non-Pub. L. 102–477 grantees) to administer the Comprehensive Services Program (CSP) is required to submit a CSP Report (ETA Form 9084) on a quarterly basis. Grantees receiving WIOA Section 166

Supplemental Youth Services Program (SYSP) funds (non-Pub. L. 102–477 grantees) currently submit a SYSP Report (ETA Form 9085) semi-annually. This request is to extend the existing ETA Form 9084 and 9085 report submitted each quarter, or semi-annually, by INA grantees. The only revision to the ETA 9085 is to increase the age range for youth to twenty-four years old per the WIOA.

ETA requires the collection and reporting of data on eligible persons served under the WIOA, Section 166 CSP and SYSP to assess the performance and delivery of services. The current ETA forms 9084 and 9085 expire on September 30, 2016. This request is to extend the instructions and forms currently used until such time when the WIOA Final Rule and policy guidance are issued. Subsequently, a revised Information Collection Request will be required to comply with the Final Rule. In the interim, ETA will continue to administer the INA programs under the Workforce Investment Act (WIA) Final Rule.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary
