Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351, or as otherwise specified by the Secretary. In general, an extension request will be considered untimely if it is filed after the time limit established under 19 CFR 351 expires. For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, the Department may elect to specify a different time limit for extension requests for submissions which are due from multiple parties simultaneously. In such cases, we will inform parties of the time limit by issuing a letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, stand-alone submission; under limited circumstances we will grant untimely-filed requests for the extension of time limits. Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of
information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Title: Alaska Region Crab Economic Data Reports.

OMB Control Number: 0648–0518.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 99.

Average Hours Per Response: Annual catcher vessel economic data report (EDR), 40 hours; annual catcher/processor EDR, 20 hours; annual processor EDR, 16 hours; EDR certification only, 2 hours; verification of data, 8 hours.

Burden Hours: 2,624.

Needs and Uses: The Crab Rationalization (CR) Program is a limited-access system that allocates crab managed under the Fisheries Management Plan (FMP) among harvesters, processors, and coastal communities. The CR Program currently includes a comprehensive economic data collection program requiring participants to complete annual Economic Data Reports (EDRs). These EDRs are intended to aid the North Pacific Fisheries Management Council and NMFS in assessing the success of the CR Program and developing amendments to the FMP to mitigate any unintended consequences of the CR Program.

Pacific States Marine Fisheries Commission (PSMFC) is the Data Collection Agent for the CR Program. The CR Crab EDR program collects annually reported cost, revenue, ownership, and employment data from harvest and processing sector participants in the CR fisheries. This information is necessary to monitor and assess the economic effects of the CR program and support rigorous economic analysis to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act.

Participation in the CR Crab EDR program is mandatory under Federal fisheries regulations 50 CFR part 680.6 for all active vessel and processing sector participants in the CR Program fisheries.

Affected Public: Business or other for-profit organizations; not-for-profit institutions.

Frequency: Annually.

Respondent’s Obligation: Mandatory.

SUPPLEMENTARY INFORMATION:
I. Abstract

This request is for a revision and extension of a currently approved information collection.

Collection of estuary habitat restoration project information (e.g., location, habitat type, goals, status, monitoring information) will be undertaken in order to populate a restoration project database mandated by the Estuary Restoration Act of 2000. The database is intended to provide information to improve restoration methods, provide the basis for required reports to Congress, and track estuary habitat acreage restored. Estuaries where habitat restoration project information will be submitted by estuary habitat restoration project managers and will be accessible to the public via Internet for data queries and project reports.

The collection method has been revised to only include paper or electronic forms instead of web-based data entry forms, as maintaining the web-based data entry option is not cost-effective.

II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include email of electronic forms, and mail and facsimile transmission of paper forms.
