Please note that the public comment period ends at the time indicated above or following the last call for comments, whichever is earlier. Members of the public who want to comment must sign up by providing their name by mail, email, or telephone, at the addresses provided below by May 29, 2016. Each commenter will be provided up to five minutes for comment. A limited number of time slots are available and will be

assigned on a first come–first served basis. Written comments will also be accepted from those unable to attend the public session.

Status: Open to the public, limited only by the number of telephone lines. The conference line will accommodate up to 50 callers; therefore it is suggested that those interested in calling in to listen to the committee meeting share a line when possible.

Background: The Advisory Committee was established by Title I of the James Zadroga 9/11 Health and Compensation Act of 2010, Public Law 111-347 (January 2, 2011), amended by Public Law 114-113 (Dec. 18, 2015), adding Title XXXIII to the Public Health Service (PHS) Act (codified at 42 U.S.C. 300mm to 300mm-61).

Purpose: The purpose of the Advisory Committee is to review scientific and medical evidence and to make recommendations to the World Trade Center (WTC) Program Administrator regarding additional WTC Health Program eligibility criteria, potential additions to the list of covered WTC-related health conditions, and research regarding certain health conditions related to the September 11, 2001 terrorist attacks. Title XXXIII of the PHS Act established the WTC Health Program within the Department of Health and Human Services (HHS). The WTC Health Program provides medical monitoring and treatment benefits to eligible firefighters and related personnel, law enforcement officers, and rescue, recovery, and cleanup workers who responded to the September 11, 2001, terrorist attacks in New York City, at the Pentagon, and in Shanksville, Pennsylvania (responders), and to eligible persons who were present in the dust or dust cloud on September 11, 2001 or who worked, resided, or attended school, childcare, or adult daycare in the New York City disaster area (survivors). Certain specific activities of the WTC Program Administrator are reserved to the Secretary, HHS, to delegate at her discretion; other WTC Program Administrator duties not explicitly reserved to the Secretary, HHS, are assigned to the Director, NIOSH. The

administration of the Advisory Committee is left to the Director of NIOSH in his role as WTC Program Administrator. CDC and NIOSH provide funding, staffing, and administrative support services for the Advisory Committee. The charter was reissued on May 12, 2015, and will expire on May 12, 2017.

Matters for Discussion: The Advisory Committee will address the new responsibilities required under the reauthorization of the WTC Health Program in the PHS Act. Specifically, the enhanced role of the STAC to (1) make recommendations regarding the identification of individuals to conduct independent peer reviews of the evidence that would be the basis for issuing final rules to add a health condition to the List of WTC-Related Health Conditions; and (2) review and evaluate the policies and procedures in effect within the WTC Health Program that are used to determine whether sufficient evidence is available to support adding a non-cancer condition or type of cancer to the List of WTC-Related Health Conditions.

The two policies can be found at: <http://www.cdc.gov/wtc/policies.html>. The agenda will include presentations on peer review and the policies and procedures the WTC Health Program uses to add health conditions to the list of covered conditions.

The agenda is subject to change as priorities dictate.
