

quality of the wetlands. Among these factors are: Public health, safety, and welfare, including water supply, quality, recharge and discharge; pollution; flood and storm hazards; and sediment and erosion; maintenance of natural systems, including conservation and long term productivity of existing flora and fauna, species and habitat diversity and stability, hydrologic utility, fish, wildlife, timber, and food and fiber resources; and other uses of wetlands in the public interest, including recreational, scientific, and cultural uses. The changes proposed in this rule would not have an effect on land use, floodplain management, or wetlands.

j. Executive Order 12898, Environmental Justice

Pursuant to Executive Order 12898, —Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994, as amended by Executive Order 12948, 60 FR 6381, February 1, 1995, FEMA incorporates environmental justice into its policies and programs. The Executive Order requires each Federal agency to conduct its programs, policies, and activities that substantially affect human health or the environment in a manner that ensures that those programs, policies, and activities do not have the effect of excluding persons from participation in programs, denying persons the benefits of programs, or subjecting persons to discrimination because of race, color, or national origin.

This rulemaking will not have a disproportionately high or adverse effect on human health or the environment. This rulemaking will not have a disproportionately high or adverse effect on human health or the environment. Therefore the requirements of Executive Order 12898 do not apply to this rule.

k. Congressional Review of Agency Rulemaking

Under the Congressional Review of Agency Rulemaking Act (CRA), 5 U.S.C. 801–808, before a rule can take effect, the Federal agency promulgating the rule must submit to Congress and to the Government Accountability Office (GAO) a copy of the rule, a concise general statement relating to the rule, including whether it is a major rule, the proposed effective date of the rule, a copy of any cost-benefit analysis, descriptions of the agency’s actions under the Regulatory Flexibility Act and the Unfunded Mandates Reform Act, and any other information or statements required by relevant executive orders.

FEMA will send this rule to the Congress and to GAO pursuant to the CRA if the rule is finalized. The rule is not a major rule within the meaning of the CRA. It will not have an annual effect on the economy of \$100,000,000 or more, it will not result in a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, and it will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets.

United States Rail Service Issues—Performance Data Reporting

AGENCY: Surface Transportation Board, Department of Transportation.

ACTION: Supplemental Notice of Proposed Rulemaking; correction.

SUMMARY: This document corrects the Supplemental Notice of Proposed Rulemaking (SNPR) served on April 29, 2016, and published in the Federal Register on May 5, 2016, (81 FR 27069), titled “United States Rail Service Issues—Performance Data Reporting.”

DATES: The SNPR is corrected as of May 23, 2016. Comments on the SNPR are due by May 31, 2016. Reply comments are due by June 28, 2016.

FOR FURTHER INFORMATION CONTACT: Allison Davis at (202) 245–0378.

Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at (800) 877–8339.

SUPPLEMENTARY INFORMATION: A corrected decision was served on May 13, 2016, and is available on the Surface Transportation Board’s Web site at http://www.stb.dot.gov. In the corrected decision, the citation to 49 U.S.C. 721 in footnote 4 was corrected to 49 U.S.C. 722(c). On page 19, lines 4–5, the statement “all six of the Class I carriers” was corrected to “all seven of the Class

I carriers.” In Table 1 on page 24, “60 or more railcars” was corrected to “50 or more railcars.” On page 30, Request No. 12, the statement “versus cars actually and on constructive placement” was corrected to “versus cars actually placed and on constructive placement.” A number of minor typographical errors were also corrected in the decision.

In the Supplemental Notice of Proposed Rulemaking beginning on page 81 FR 27069 in the issue of May 5, 2016 of the **Federal Register** make the following corrections:

- In the preamble, on page 27070, in 1st column, in footnote 3, correct “49 U.S.C. 721” to read “49 U.S.C. 722(c)”.
- In the preamble, on page 27076, in the 3rd column, correct the statement “all six of the Class I carriers” to read “all seven of the Class I carriers.”
- In the preamble, on page 27079, in Table 1, on the 3rd line correct the statement “60 or more railcars” to “50 or more railcars.”
- In the amendatory language, on page 27081, in the 3rd column, in the proposed rule 49 CFR 1250.2(12)(ii) correct the statement “versus cars actually and on constructive placement” to “versus cars actually placed and on constructive placement.”

Additional information is contained in the Board’s decision, which is available on our Web site at <http://www.stb.dot.gov>.

Decided: May 13, 2016.

By the Board, Chairman Elliott, Vice Chairman Miller, and Commissioner Begeman.

[Docket No. 160301167–6167–01]

RIN 0648–BF89

#### Fisheries of the Northeastern United States; Recreational Management Measures for the Summer Flounder, Scup, and Black Sea Bass Fisheries; Fishing Year 2016

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** NMFS proposes management measures for the 2016 summer flounder, scup, and black sea bass recreational fisheries. NMFS is also proposing a change to the commercial scup incidental possession limit, and two minor corrections to the summer flounder minimum mesh size regulations. The implementing regulations for these fisheries require NMFS to publish recreational measures for the fishing year and to provide an opportunity for public comment. The intent of these measures is to constrain recreational catch to established limits and prevent overfishing of the summer flounder, scup, and black sea bass resources. The intent of the commercial scup regulatory change is to reduce unnecessary discards by allowing more incidentally caught scup to be retained by vessels. The regulatory corrections are intended to clarify the original purpose of the regulation.

**DATES:** Comments must be received by 5 p.m. local time, on June 7, 2016.

**ADDRESSES:** You may submit comments on this document, identified by NOAA–NMFS–2016–0029, by either of the following methods:

#### SUPPLEMENTARY INFORMATION:

##### General Background

The summer flounder, scup, and black sea bass fisheries are managed cooperatively under the provisions of the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP) developed by the Mid-Atlantic Fishery Management Council (Council) and the Atlantic States Marine Fisheries Commission (Commission), in consultation with the New England and South Atlantic Fishery Management Councils. The management units specified in the FMP include summer flounder (*Paralichthys dentatus*) in U.S. waters of the Atlantic Ocean from the southern border of North Carolina northward to the U.S./Canada border, and scup (*Stenotomus chrysops*) and black sea bass (*Centropristis striata*) in U.S. waters of the Atlantic Ocean from 35°13.3' N. lat. (the approximate latitude of Cape Hatteras, North Carolina). States manage these three species within 3 nautical miles (4.83 km) of their coasts, under the Commission’s plan for summer flounder, scup, and black sea bass. The applicable species-specific Federal regulations govern vessels and individual fishermen fishing in Federal waters of the exclusive economic zone (EEZ), as well as vessels possessing a summer flounder, scup, or black sea bass Federal charter/party vessel permit, regardless of where they fish.

##### Recreational Management Measures Background

The Council process for recommending recreational management measures to NMFS for rulemaking is generically described below. All meetings are open to the public and the materials utilized during such meetings, as well as any documents created to summarize the meeting results, are public information and posted on the Council’s Web site ([www.mafmc.org](http://www.mafmc.org)) or are available from the Council by request. Therefore, extensive background on the 2016 recreational management measures recommendation process is not repeated in this preamble.

The FMP established monitoring committees for the three fisheries, consisting of representatives from the
