2. Email your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov.
3. Call the Reports Clearance Office at (410) 786-1326.

FOR FURTHER INFORMATION CONTACT: Reports Clearance Office at (410) 786-1326.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Revision of currently approved collection; *Title of Information Collection:* Annual Medical Loss Ratio (MLR) and Rebate Calculation Report and MLR Rebate Notices; *Use:* Under section 2718 of the Affordable Care Act and implementing regulation at 45 CFR part 158, a health insurance issuer (issuer) offering group or individual health insurance coverage must submit a report to the Secretary concerning the amount the issuer spends each year on claims, quality improvement expenses, non-claims costs, Federal and State taxes and licensing and regulatory fees,

the amount of earned premium, and beginning with the 2014 reporting year, the amounts related to the reinsurance, risk corridors, and risk adjustment programs established under sections 1341, 1342, and 1343, respectively, of the Affordable Care Act. An issuer must provide an annual rebate if the amount it spends on certain costs compared to its premium revenue (excluding Federal and States taxes and licensing and regulatory fees) does not meet a certain ratio, referred to as the medical loss ratio (MLR). Each issuer is required to submit annually MLR data, including information about any rebates it must provide, on a form prescribed by CMS, for each State in which the issuer conducts business. Each issuer is also required to provide a rebate notice to each policyholder that is owed a rebate and each subscriber of policyholders that are owed a rebate for any given MLR reporting year. Additionally, each issuer is required to maintain for a period of seven years all documents, records and other evidence that support the data included in each issuer's annual report to the Secretary.

Under section 1342 of the Patient Protection and Affordable Care Act and implementing regulation at 45 CFR part 153, issuers of qualified health plans (QHPs) must participate in a risk corridors program. A QHP issuer will pay risk corridors charges or be eligible to receive payments based on the ratio of the issuer's allowable costs to the target amount. Each QHP issuer is required to submit an annual report to CMS concerning the issuer's allowable costs, allowable administrative costs, premium, and proportion of market premium in QHPs. Risk corridors premium information that is specific to an issuer's QHPs is collected through a separate plan-level data form, which is included in this information collection.

CMS received a total of 3 public comments on a number of specific issues regarding the notice of the revised MLR PRA package. CMS has taken into consideration all of the comments and has modified the information collection instruments and instructions (the 2015 MLR Annual Reporting Form and Instructions and the 2015 Risk Corridors Plan-Level Data Form and Instructions) in order to correct minor errors and to provide additional clarifications. *Form Number:* CMS-10418 (OMB control number: 0938-1164); *Frequency:* Annually; *Affected Public:* Private Sector (Business or other for-profits and not-for-profit institutions); *Number of Respondents:* 538; *Number of Responses:* 2,818; *Total Annual Hours:* 235,148. Health Resources and Services Administration

Ryan White HIV/AIDS Program Part C HIV Early Intervention Services Program Existing Geographic Service Area

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of Class Deviation from Competition Requirements for Ryan White HIV/AIDS Program (RWHAP) Part C HIV Early Intervention Services Program Existing Geographic Service Area (EISEGA).

SUMMARY: The HIV/AIDS Bureau (HAB) is requesting a class deviation from the competition requirements in order to provide one-year extensions with funds to 346 Ryan White HIV/AIDS Program (RWHAP) Part C HIV Early Intervention Services Program Existing Geographic Service Area (EISEGA) recipients. The purpose of the Part C EISEGA program is to provide HIV primary care in the outpatient setting to targeted low income, underinsured people living with HIV. HAB is finalizing an evaluation of the Part C EISEGA program and development of a new data-driven methodology. This methodology is aimed at ensuring that awards are based on a consistent approach to promote a rational and sustainable allocation of resources while ensuring responsiveness to geographic and healthcare financing considerations, indicators of need, and results along the HIV care continuum. HAB expects to re-compete the entire program in fiscal year (FY) 2018. One-year extensions with funds for all 346 Part C EISEGA recipients enables HAB to finalize the evaluation and methodology development and engage recipients and relevant stakeholders with regard to this new approach prior to implementation and without disrupting the provision of critical HIV primary medical care services to the current RWHAP clients served by these recipients. Pending the availability of funds, the amount of each FY 2017 award will be based on a

proportion of the FY 2016 Part C EISEGA award to each of the 346 recipients, respectively.
