

2:50 p.m. to 3:00 p.m. (check agenda on Web site to confirm time.) The Committee expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to a total time of three (3) minutes. Written comments should be received by the Designated Federal Official by June 17, 2016 to provide sufficient time for Committee review. Written comments received after June 17, 2016, will be distributed to the Committee, but may not be reviewed prior to the meeting date.

MATTERS TO BE CONSIDERED: The meeting will focus on review of draft recommendations on how the U.S. IOOS Program Office could improve the Ocean Technology Transition (OTT) Program. The agenda is subject to change. The latest version will be posted at <https://ioos.noaa.gov/community/u-s-ioos-advisory-committee/>.

Dated: May 16, 2016.

Zdenka Willis,

Director, U.S. Integrated Ocean Observing System Office.

National Oceanic and Atmospheric Administration

RIN 0648-XD162

Endangered Species; File No. 18029

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that Tasha L. Metz, Ph.D., Texas A&M University at Galveston, Department of Marine Biology, P.O. Box 1675, Galveston, TX 77551 has been issued a permit to take loggerhead (*Caretta caretta*), green (*Chelonia mydas*), Kemp's ridley (*Lepidochelys kempii*), and hawksbill (*Eretmochelys imbricata*) sea turtles for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

FOR FURTHER INFORMATION CONTACT: Rosa González or Amy Hapeman, (301) 427-8401.

SUPPLEMENTARY INFORMATION: On March 12, 2014, notice was published in the **Federal Register** (79 FR 13991) that a request for a scientific research permit to take sea turtles had been submitted by the above-named individual. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 18029 authorizes Dr. Metz to capture loggerhead, green, Kemp's ridley, and hawksbill sea turtles using nets to continue studying relative abundance, distribution, habitat use, and health status of the above sea turtle species in estuarine and nearshore waters in the northwestern Gulf of Mexico particularly off Texas and Louisiana. Visual surveys by vessel may also be performed. Captured turtles would be examined, biologically sampled, and tagged prior to release. A select number may be outfitted with satellite transmitters to track movements post-release. The permit expires on May 31, 2021.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: May 23, 2016.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

RIN 0648-XD756

Endangered and Threatened Species; 5-Year Reviews for 28 Listed Species of Pacific Salmon, Steelhead, and Eulachon

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: NMFS' West Coast Region announces the availability of 5-year

reviews for 17 evolutionarily significant units (ESUs) of Pacific salmon (*Oncorhynchus sp.*), 10 distinct population segments (DPSs) of steelhead (*O. mykiss*), and the southern DPS of eulachon (*Thaleichthys pacificus*) as required by the Endangered Species Act of 1973, as amended (ESA). The purpose of the reviews was to evaluate whether the listing classifications of these species remains accurate or should be changed. After reviewing the best available scientific and commercial data, we conclude that no changes in the ESA-listing status for the 27 salmonid ESUs and DPSs, or the southern DPS of eulachon, are warranted at this time.

ADDRESSES: Additional information about the 5-year reviews may be obtained by visiting the NMFS West Coast Region's Web site: <http://www.westcoast.fisheries.noaa.gov>, or by writing to us at: NMFS West Coast Region, Protected Resources Division, 1201 Lloyd Blvd., Suite 1100, Portland, OR 97232.

FOR FURTHER INFORMATION CONTACT: Dr. Scott Rumsey at the above address, by phone at (503) 872-2791, or by email at scott.rumsey@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

Section 4(c)(2)(A) of the ESA requires that we conduct a review of listed species at least once every 5 years. On the basis of such reviews under section 4(c)(2)(B), we determine whether any species should be removed from the list (delisted), or reclassified from endangered to threatened or from threatened to endangered. During 5-year reviews, we consider the best scientific and commercial data available, including new information that has become available since the last listing determination or most recent status review of a species.

On February 6, 2015, the NMFS West Coast Region announced initiation of 5-year reviews of all 28 ESA-listed Pacific salmon ESUs and steelhead DPSs, the southern DPS of eulachon, and three DPSs of Puget Sound rockfishes (*Sebastes spp.*) (80 FR 6695). Both ESUs and DPSs are treated as 'species' under the ESA. At the time of our announcement, we requested information on species viability, threats to the species, and protective efforts, from the public, concerned governmental agencies, Tribes, the scientific community, environmental entities, and other interested parties.

This notice addresses the following ESUs and DPSs: (1) Sacramento River winter-run Chinook salmon ESU; (2)
