Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through September 30, 2016. DATES: Comments must be submitted on or before July 25, 2016.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-ORD-2016-0010, online using www.regulations.gov (our preferred

method), by email to ord.docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of

the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: To comply with the U.S. Government Policy for Institutional Oversight of Life Sciences Dual Use Research of Concern (DURC Policy) (www.phe.gov/s3/dualuse/Pages/default.aspx), EPA must ensure that the institutions that are subject to the DURC Policy appropriately train their laboratory personnel and maintain records of their training. This training is specific to "dual use research of concern," and should include information on how to properly identify DURC and appropriate methods for ensuring research that is determined to be DURC is conducted and communicated responsibly.

Form Numbers: None.

Respondents/affected entities: Private sector and the federal-owned/contractor-operated labs.

Respondent's obligation to respond: Mandatory (per EPA Order 1000.19: Policy and Procedures for Managing Dual Use Research of Concern).

Estimated number of respondents: Eighteen (total).

Frequency of response: Only once and/or as necessary.

Total estimated burden: 72 hours (per year) over three years. Burden is defined at 5 CFR 1320.03(b)

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. Abstract: Respondents are owners or operators of facilities that produce pulp, paper, or paperboard by employing kraft, soda, sulfite, semi-chemical, or mechanical pulping processes using wood; or any process using secondary or non-wood fiber and that emits 10 tons per year or more of any hazardous air pollutant (HAP) or 25 tons per year or more of any combination of HAPs. Affected sources are all the hazardous air pollutant emission points or the HAP emission points in the pulping and bleaching system for mechanical pulping processes using wood and any process using secondary or non-wood fiber.

Form Numbers: None.

Respondents/affected entities:

Owners and operators of pulp and paper mills that are major sources of HAP emissions.

Respondent’s obligation to respond: Mandatory (40 CFR part 63, subpart S).

Estimated number of respondents: 114 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 44,438 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$5,191,626 (per year), includes \$841,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The currently approved burden estimates contain requirements from the previous regulation as well as duplicate burden activities. In preparing this ICR renewal, EPA has removed duplicate items and updated the ICR so that it only reflects current requirements. This results in an apparent decrease in burden.

Courtney Kerwin,

Acting Director, Collection Strategies Division.
