

population of wolves on the island for at least the next 20 years, which is the anticipated life of the plan. The wolf population range and number of breeding pairs to be maintained on the island would be determined based on best available science and professional judgement. This action would occur as soon as possible following a signed record of decision. Under Alternative D, the NPS would not take immediate action and would continue current management, allowing natural processes to continue. One or more resource indicators and thresholds would be developed to evaluate the condition of key resources, which could include moose or vegetation-based parameters. If a threshold is met, wolves would be brought to Isle Royale as a one-time event (per alternative B) or through multiple introductions (per alternative C). The NPS will not select an alternative for implementation until after a final EIS is completed.

Given the revised scope of the EIS, actions to manage moose, such as culling or translocation of moose, as well as actions to manage vegetation, such as fire, direct restoration, or other tools, will not be considered in this EIS. After a decision is made regarding whether and how to bring wolves to Isle Royale, the NPS will monitor conditions on the island, and will initiate additional planning processes to address other aspects of the island ecosystem, such as the moose population and forest community, if such planning processes are deemed necessary.

All comments received during the scoping period that was announced in the July 2015 NOI are available online at <http://parkplanning.nps.gov/ISROwolves> and will be considered. If you would like to provide additional comments regarding the revised scope of the plan, you may do so through the following methods.

The preferred method for submitting comments is on the NPS PEPC Web site at <http://parkplanning.nps.gov/ISROwolves>. You may also mail or hand-deliver your comments to Superintendent Phyllis Green, Isle Royale National Park, ISRO Wolves, 800 East Lakeshore Drive, Houghton, Michigan 49931-1896. The NPS will consider all additional comments received or postmarked no later than 30 days from the date this NOI is published in the **Federal Register**. Comments submitted after that date will be considered to the extent practicable.

Comments will not be accepted by fax, email, or any other way than those specified above. Bulk comments in any format (hard copy or electronic)

submitted on behalf of others will not be accepted. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

SUPPLEMENTARY INFORMATION:

I Abstract

The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary's responsibility, according to various laws, is to manage mineral resource production from Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected under those laws. We have posted those laws pertaining to mineral leases on Federal and Indian lands and the OCS at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm.

The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands.

You can find the information collections covered in this ICR at 30 CFR parts:

- 1202, subparts C and D, which pertain to Federal oil and gas royalties.
- 1204, subpart C, which pertains to accounting and auditing relief for marginal properties.
- 1206, subparts C and D, which pertain to Federal oil and gas product valuation.

General Information

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in an amount or value of production from the leased lands. The mineral lease laws require the lessee, or his designee, to report various kinds of information to the lessor relative to the

disposition of the leased minerals. Such information is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals.

Information Collections

ONRR uses the information that we collect in this ICR to ensure that lessees accurately value and appropriately pay royalties on oil and gas produced from Federal onshore and offshore leases. Please refer to the chart for all reporting requirements and associated burden hours. All data submitted is subject to subsequent audit and adjustment.

A. Federal Oil and Gas Valuation Regulations

The valuation regulations at 30 CFR part 1206, subparts C and D, mandate that companies collect and submit information used to value their Federal oil and gas, including (1) transportation and processing allowances and (2) regulatory allowance limit information. Companies report certain data on form ONRR-2014, Report of Sales and Royalty Remittance. The information that we request is the minimum necessary to carry out our mission and places the least possible burden on respondents. If ONRR does not collect this information, both Federal and State governments may incur a loss of royalties.

Transportation and Processing Regulatory Allowance Limits: Lessees may deduct actual costs of transportation and processing from Federal royalties. The lessees report these allowances on form ONRR-2014. For oil and gas, regulations establish the

allowable limit on transportation allowance deductions at 50 percent of the value of the oil or gas. For gas only, regulations establish the allowable limit on processing allowance deductions at 66⅔ percent of the value of each gas plant product.

Request to Exceed Regulatory Allowance Limitation, form ONRR-4393: Lessees may request to exceed regulatory limitations. Upon proper application from the lessee, ONRR may approve oil or gas transportation allowance in excess of 50 percent or gas processing allowance in excess of 66⅔ percent on Federal leases. Lessees use form ONRR-4393 for both Federal and Indian leases to request to exceed allowance limitations. This ICR covers only Federal leases; therefore, we have not included burden hours of form ONRR-4393 for Indian leases in this ICR. We include burden hours for form ONRR-4393 for Indian leases in OMB Control Number 1012-0002.

B. Accounting and Auditing Relief for Marginal Properties

In 2004, we amended our regulations to comply with section 7 of the Federal Oil and Gas Royalty Simplification and Fairness Act of 1996. These regulations provide guidance for lessees and designees seeking accounting and auditing relief for qualifying Federal marginal properties. Under the regulations, both ONRR and the State concerned must approve any relief granted for a marginal property.

OMB Approval

We will request OMB approval to continue to collect, from companies, lessees, and designees, information used

(1) to value their Federal oil and gas, including (a) transportation and processing allowances and (b) regulatory allowance limit information and (2) to request accounting and auditing relief approval for qualifying Federal marginal properties. If ONRR does not collect this information, this would limit the Secretary's ability to discharge fiduciary duties and may also result in loss of royalty payments. ONRR protects the proprietary information that we receive, and we do not collect items of a sensitive nature.

ONRR requires lessees to respond to information collections relating to valuation requirements.

Note: AUDIT PROCESS—The Office of Regulatory Affairs determined that the audit process is exempt from the Paperwork Reduction Act of 1995 because ONRR staff asks non-standard questions to resolve exceptions.

This 60-day **Federal Register** notice burden chart shows an adjustment increase of +320 burden hours. This adjustment is based on analyzed historical data since 2013 for the transportation and processing allowances (1206.156(c)(3) and 1206.158(c)(3)). The transportation processing allowance increased from 120 to 280 burden hours and the processing allowance increased from 640 to 800 burden hours for a total increase of +320 annual burden hours.

Estimated Annual Reporting and Recordkeeping “Non-hour” Cost Burden: We have not identified a “non-hour” cost burden associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person does not have to respond to, a collection of information unless it displays a currently valid OMB control number.

III. Request for Comments

Section 3506(c)(2)(A) of the PRA requires each agency to “* * * provide 60-day notice in the **Federal Register** * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *.” Agencies must specifically solicit comments to (a) evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information that ONRR collects; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting

“non-hour cost” burden to respondents or record-keepers resulting from the collection of information. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods that you use to estimate (1) major cost factors, including system and technology acquisition, (2) expected useful life of capital equipment, (3) discount rate(s), and (4) the period over which you incur costs. Capital and startup costs include, among other items, computers and software that you purchase to prepare for collecting information and monitoring, sampling, and testing equipment, and record storage facilities. Generally, your estimates should not include equipment or services purchased (i) before October 1, 1995; (ii) to comply with requirements not associated with the information

collection; (iii) for reasons other than to provide information or keep records for the Federal Government; or (iv) as part of customary and usual business, or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you, without charge, upon request. We also will post the ICR at http://www.onrr.gov/Laws_R_D/FRNotices/ICR0136.htm.

Public Comment Policy: ONRR will post all comments, including names and addresses of respondents at <http://www.regulations.gov>. Before including Personally Identifiable Information (PII), such as your address, phone number, email address, or other personal information in your comment(s), you should be aware that your entire comment (including PII) may be made available to the public at any time. While you may ask us, in your comment, to withhold PII from public view, we cannot guarantee that we will be able to do so.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.
