Bureau of Land Management

[LLCAC09000 L71220000.EU0000
15XL8069TF LVTFB1559610; CACA 54618]

Notice of Realty Action: Proposed Non-Competitive (Direct) Sale of Public Land in Fresno and Monterey Counties, CA

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice of realty action.

SUMMARY: The Bureau of Land Management (BLM), Central Coast Field Office, is considering a direct sale of public land containing 40 acres to Timothy Haley under Sections 203 and 209 of the Federal Land Policy and Management Act (FLPMA) of 1976, as amended, at not less than the fair market value of \$149,500.

DATES: Comments must be received by July 25, 2016. The BLM will not hold the public sale prior to August 8, 2016.

ADDRESSES: Comments should be sent to the Bureau of Land Management Central Coast Field Office; Attn: Smith Mountain Project Manager, 940 2nd Ave. Marina, California, 93933-6009 or by email to blm_ca_hollister_fo_email@blm.gov.

FOR FURTHER INFORMATION CONTACT: Christine Sloand, Realty Specialist, Bureau of Land Management, Central Coast Field Office, 831-582-2200. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The BLM will consider a direct sale for the following public lands in Fresno and Monterey counties, California, in accordance with Sections 203 and 209 of FLPMA (43 U.S.C. 1713 and 1719):

Mount Diablo Meridian, California

T. 21 S., R. 13 E.,
Sec. 29, NE $\frac{1}{4}$ NW $\frac{1}{4}$.

The area described contains 40 acres.

The direct sale of the public land is in conformance with the BLM's 1984 Hollister Resource Management Plan (RMP) for the Southern Diablo Mountain Range and Central Coast of California, revised in 2007, and is located under Land Tenure Adjustment (LTEN-COM3) on page 3-36 and shown on Figure 27. Regulations at 43 CFR 2710.0-3(a) and 43 CFR 2711.3-3(a) authorize the BLM to utilize a direct sale of public land when a competitive sale is not appropriate and the public interest would best be served by a direct sale. The BLM will dispose of a small, isolated parcel that lacks legal public access making it difficult and uneconomical to manage. The land is not suitable for management by another Federal agency. The BLM will offer the lands to Timothy Haley since he is the adjacent landowner and owns the access to the public land. The other surrounding landowners are not interested in acquiring the public land.

The BLM prepared a mineral potential report, dated July 31, 2014, that concludes there are no known mineral values in the land offered for direct sale. Therefore, the BLM intends to convey the Federal mineral interest simultaneously with the sale. Timothy Haley will be required to pay a \$50 non-refundable filing fee for conveyance of the available mineral interests and any associated administrative costs.

Pursuant to the requirements of 43 CFR 2711.1-2(d), publication of this notice in the **Federal Register** will segregate the land from all forms of appropriation under the public land laws, including the mining laws, except for the sale provisions of FLPMA. Until completion of the sale, the BLM will no longer accept land use applications affecting the public land, except applications for the amendment of previously filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15. The segregative effect will terminate upon issuance of a patent, publication in the **Federal Register** or a termination of the segregation, or on June 8, 2018 unless extended by the BLM State Director in accordance with 43 CFR 2711.1-2(d) prior to the

termination date. The BLM will publish this notice in the Monterey County Weekly newspaper once a week for three consecutive weeks.

The conveyance document will include the following terms, covenants, conditions, and reservations:

A reservation to the United States for ditches and canals constructed by authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945);

The conveyance document will convey the land subject to the following:

1. Valid existing rights of record;
2. A right-of-way CACA 12914 for a communications site granted to the State of California Department of General Services on behalf of the California Department of Forestry and Fire Protection, (FLPMA);
3. An appropriate indemnification clause protecting the United States from claims arising out of the patentee's use, occupancy, or operations on the patented lands; and
4. Additional terms and conditions that the authorized officer deems appropriate.

The BLM will make available the reports pertaining to the land, which include an appraisal, environmental site assessment, and mineral potential report for review at the address above. Until July 25, 2016, interested parties may submit in writing any comments concerning the land being considered for sale, including notifications of any encumbrances or other claims relating to the parcel, to the Field Manager, BLM Central Coast Field Office, at the address above. Comments, including names and street addresses of respondents will be available for public review at the BLM Central Coast Field Office during regular business hours, except holidays.

The BLM State Director or other authorized official of the Department of the Interior will review comments regarding the parcel and may sustain, vacate, or modify this realty action in whole or in part. In the absence of timely field objections, this realty action will become the final determination of the Department of the Interior.

Before including your address, phone number, email address, or other personal identifying information in your comments, the BLM will make your entire comment—including your personal identifying information—publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 CFR 2710, 2711, and 2720.

Tom Pogacnik,

Deputy State Director, Resources.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-WASO-NAGPRA-21097:
PPWOCRADN0-PCU00RP14.R50000]

Notice of Inventory Completion: Office of the State Archaeologist, University of Iowa, Iowa City, IA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Office of the State Archaeologist Bioarchaeology Program, previously listed as the Office of the State Archaeologist Burials Program, has completed an inventory of human remains and associated funerary objects, in consultation with the appropriate Indian tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and associated funerary objects and present-day Indian tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the Office of the State Archaeologist Bioarchaeology Program. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the Office of the State Archaeologist Bioarchaeology Program at the address in this notice by July 8, 2016.

ADDRESSES: Lara Noldner, Office of the State Archaeologist Bioarchaeology Program, University of Iowa, 700 South Clinton Street, Iowa City, IA 52242, telephone (319) 384-0740, email lara-noldner@uiowa.edu.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and

Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the Office of the State Archaeologist Bioarchaeology Program, Iowa City, IA. The human remains and associated funerary objects were removed from Polk County, IA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the Office of the State Archaeologist Bioarchaeology Program professional staff in consultation with representatives of the Ho-Chunk Nation of Wisconsin; the Iowa Tribe of Kansas and Nebraska; the Iowa Tribe of Oklahoma; the Otoe-Missouria Tribe of Indians, Oklahoma; and the Winnebago Tribe of Nebraska.

History and Description of the Remains

At an unknown date, likely between 1914 and 1935, human remains representing, at minimum, one individual were removed from a burial near the town of Runnells, in Polk County, IA. The human remains were stored at the Iowa State Historical Society until 2013, when they were transferred to the Office of the State Archaeologist Bioarchaeology Program. The human remains represent a late-term fetus or newborn child (Burial Project 2926). No known individuals were identified. The 310 associated funerary objects are 307 glass beads, one hematite fragment, one wood fragment, and one piece of linsey-woolsey textile.

Based on the artifacts associated with the human remains, the burial is believed to belong to the Ioway culture, which is affiliated with the present day Ho-Chunk Nation of Wisconsin; the Iowa Tribe of Kansas and Nebraska; the Iowa Tribe of Oklahoma; the Otoe-Missouria Tribe of Indians, Oklahoma; and the Winnebago Tribe of Nebraska.

Determinations Made by the Office of the State Archaeologist Bioarchaeology Program

Officials of the Office of the State Archaeologist Bioarchaeology Program have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice

represent the physical remains of one individual of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(3)(A), the 310 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Ho-Chunk Nation of Wisconsin; the Iowa Tribe of Kansas and Nebraska; the Iowa Tribe of Oklahoma; the Otoe-Missouria Tribe of Indians, Oklahoma; and the Winnebago Tribe of Nebraska.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Lara Noldner, Office of the State Archaeologist Bioarchaeology Program, University of Iowa, 700 South Clinton Street, Iowa City, IA 52242, telephone (319) 384-0740, email lara-noldner@uiowa.edu, by July 8, 2016. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to the Ho-Chunk Nation of Wisconsin; the Iowa Tribe of Kansas and Nebraska; the Iowa Tribe of Oklahoma; the Otoe-Missouria Tribe of Indians, Oklahoma; and the Winnebago Tribe of Nebraska, may proceed.

The Office of the State Archaeologist Bioarchaeology Program is responsible for notifying the Ho-Chunk Nation of Wisconsin; the Iowa Tribe of Kansas and Nebraska; the Iowa Tribe of Oklahoma; the Otoe-Missouria Tribe of Indians, Oklahoma; and the Winnebago Tribe of Nebraska, that this notice has been published.

Dated: May 16, 2016.

Melanie O'Brien,

Manager, National NAGPRA Program.
