the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the new or modified flood hazard information for each community listed. Notification of these changes has been published in newspapers of local circulation and 90 days have elapsed since that publication. The Deputy Associate Administrator for Mitigation has resolved any appeals resulting from this notification.

This final notice is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in flood-prone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the new or revised FIRM and FIS report available at the address cited below for each community or online through the FEMA Map Service Center at www.msc.fema.gov.

The flood hazard determinations are made final in the watersheds and/or communities listed in the table below.

(Catalog of Federal Domestic Assistance No. 97.022, “Flood Insurance.”)

Dated: May 19, 2016.

Roy E. Wright,

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after the FIRM and FIS report become effective.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of
DEPARTMENT OF HOMELAND SECURITY

Office for Interoperability and Compatibility

[Docket No. DHS–2016–0037]

Office for Interoperability and Compatibility Seeks Nominations for the Project 25 Compliance Assessment Program Advisory Panel—Single Position

AGENCY: Science and Technology Directorate, DHS.

ACTION: Notice.

SUMMARY: The Department of Homeland Security (DHS) is seeking nominations and expressions of interest for replacing an open position on the Project 25 Compliance Assessment Program Advisory Panel (P25 CAP AP). The P25 CAP AP holds quarterly meetings with the public on topics related to P25 CAP. The next meeting is scheduled for August 2016 timeframe.

The Project 25 Compliance Assessment Program is a standard which enables interoperability among digital two-way land mobile radio communications products created by and for public safety professionals. The

P25 CAP is a formal, independent process created by DHS and operated in collaboration with the National Institute of Standards and Technology (NIST), to ensure that communications equipment that is declared by the supplier to be P25 compliant, is in fact tested against the standards with publicly published results. The P25 CAP AP provides a resource by which DHS gains insight into the collective interest of organizations that procure P25-compliant equipment and a resource for DHS to continue to establish the policies of the P25 CAP, along with assisting the DHS Office for Interoperability and Compatibility (OIC) in the administration of the Program.

DATES: All responses must be received within 30 days from the date of this notice at the address listed below.

ADDRESSES: Expressions of interest and nominations shall be submitted to SandTFRG@hq.dhs.gov.

• Instructions: All submissions received must include the words "Department of Homeland Security" and DHS–2016–0037, the docket number for this action.

FOR FURTHER INFORMATION CONTACT: John Merrill, Director, Office for Interoperability and Compatibility, Science and Technology Directorate, Department of Homeland Security, 202–254–5604, John.Merrill@hq.dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

The TIA–102/Project 25 (P25) is a standards development process for the design, manufacture, and evaluation of interoperable digital two-way land mobile radio communications products created by and for public safety professionals. The goal of P25 is to specify formal standards for interfaces and features between the various components of a land mobile radio system commonly used by public safety agencies in portable handheld and mobile vehicle-mounted devices. The P25 standard enables interoperability among different suppliers’ products.

The P25 CAP was developed by DHS and the National Institute of Standards and Technology (NIST) to test equipment designed to comply with P25 standards. The program provides public safety agencies with evidence that the communications equipment they are purchasing is tested against and complies with the P25 standards for performance, conformance, and interoperability.

The P25 CAP is a voluntary system that provides a mechanism for the recognition of testing laboratories based on internationally accepted standards. It identifies competent P25 CAP testing laboratories for DHS-recognition through a robust assessment process and promotes the acceptance of compliant test results from these laboratories.
