

interview will be specific to the proposed solution and context. For example, teams may interview government employees if the solution is intended to improve how government employees do their work. On the other hand, teams may interview individuals who work industry and businesses if the teams determines that they are the intended beneficiaries.

Using a generic information collection plan, this data collection covers qualitative information to be obtained through on-site, unstructured interviews with individuals who represent the customers or stakeholders CDC teams are attempting to serve or benefit. CDC

anticipates conducting I-Catalyst with three cohorts of teams over the next two years. With each I-Catalyst cohort teams will interview their customers/ stakeholders for an average of 30 minutes. Each team will interview approximately 50 respondents. With 8–10 teams participating in each of the three I-Catalyst training cohorts, approximately 1,500 respondents will be interviewed. Of these, approximately 40% of individuals will be internal CDC/ATSDR staff and 60% will be external partners, stakeholders, or customers. Data to be collected includes information regarding what they most

value and need and their top barriers and pain points.

CDC expects that teams participating in the I-Catalyst will be empowered to implement innovative strategies and solutions that create value for a set of beneficiaries. The ultimate goal of the I-Catalyst program is to give CDC staff skills to successfully transfer knowledge into value-based solutions that benefit society and broaden the agency's impact.

Participation in the I-Catalyst interviews is completely voluntary. A three-year approval is requested. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs.)	Total burden (in hrs.)
Cohort 1: External Partners, Stakeholders, or Customers.	Forms will not be used	500	1	1	500
Cohort 2: External Partners, Stakeholders, or Customers.	Forms will not be used	500	1	1	500
Cohort 3: External Partners, Stakeholders, or Customers.	Forms will not be used	500	1	1	500
Total	1,500

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity: Comment Request

Proposed Projects

Title: National Study of Title IV-E Child Welfare Waiver Demonstrations.
OMB No.: New Collection.

Description: The National Study of the Title IV-E Child Welfare Waiver Demonstrations is sponsored by the Children's Bureau, Administration for Children and Families of the U.S. Department of Health and Human Services and involves the conduct of a cross-site study of jurisdictions (referred to as waiver jurisdictions) approved to operate demonstrations authorized by

section 1130 of the Social Security Act, as amended by the Child and Family Services Improvement and Innovation Act, Public Law 112-34. The demonstrations involve waivers of certain provisions of the foster care program authorized by title IV-E of the Social Security Act. Child welfare agencies in waiver jurisdictions are operating demonstrations to implement a variety of programs and interventions that serve children and families in an effort to improve their safety, permanency, and well-being. Each waiver jurisdiction is required to conduct a third-party evaluation of its demonstration.

The National Study will examine the extent to which safety, permanency, and well-being outcomes have improved for children and families; the characteristics of waiver jurisdictions where improvements in outcomes have occurred; expenditure patterns and the types of activities for which waiver jurisdictions have increased funding; and the extent to which waiver jurisdictions have experienced practice and systems-level changes. The National Study uses a mixed-method approach to examine 25 waiver jurisdictions (including 23 states, the District of

Columbia and one tribal government) with Terms and Conditions approved in Federal Fiscal years 2012, 2013, and 2014. Proposed data collection methods are two topically-focused telephone surveys: (a) A telephone survey of waiver jurisdiction representatives and evaluators who are focused on measuring well-being, and (b) a second telephone survey of waiver jurisdiction representatives and evaluators that is focused on understanding practice and systems-level changes within child welfare service systems. Also proposed is a Web-based survey of waiver jurisdiction representatives and evaluators that will look more broadly at the implementation of waiver demonstrations and corresponding changes in child welfare policy, practice, and financing. Data collected through these instruments will be used by the Children's Bureau to gain an understanding of the jurisdictions' collective experience with implementing their demonstrations.

Respondents: The respondents to the Web-based survey will be a purposive sample of an estimated 250 waiver jurisdiction representatives and evaluators drawn from the 25 waiver jurisdictions with waiver demonstration

projects (Arkansas, Arizona, Colorado, Hawaii, Illinois, Kentucky, Maine, Maryland, Massachusetts, Michigan, Nebraska, Nevada, New York, Oklahoma, Oregon, Pennsylvania, Port Gamble S'Klallam Tribe, Rhode Island, Tennessee, Texas, Utah, Washington, Washington DC, West Virginia, Wisconsin). The Web-based survey will be administered once during the

National Study. The respondents to the Well-Being telephone survey will be a purposive sample of 60 respondents identified from up to 12 waiver jurisdictions who are involved with the assessment of child and family well-being in their waiver jurisdictions. The Well-Being telephone survey will be administered once during the National Study. The respondents to the Practice

and Systems-Level Change telephone survey will be a purposive sample of 60 respondents identified from up to 12 waiver jurisdictions who are knowledgeable about practice, policy, and organizational changes in their respective waiver jurisdictions. The Practice and Systems-Level Change telephone survey will be administered once during the National Study.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Web-Based Survey	250	1	0.33	82.5
Telephone Survey: Well-Being	60	1	1	60
Telephone Survey: Practice and Systems-Level Change	60	1	1	60
Estimated Total Annual Burden Hours				202.5

In compliance with the requirements of section 506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collected described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 330 C St. SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. Email address: infocollection@acf.hhs.gov. All requests should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information (c) the quality, utility and clarity of the information to be collected, and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Robert Sargis,

Reports Clearance Officer.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA-2016-N-0001]

Arthritis Advisory Committee; Notice of Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces a forthcoming public advisory committee meeting of the Arthritis Advisory Committee. The general function of the committee is to provide advice and recommendations to the Agency on FDA's regulatory issues. The meeting will be open to the public.

DATES: The meeting will be held on July 12, 2016, from 7:30 a.m. to 5 p.m.

ADDRESSES: FDA White Oak Campus, 10903 New Hampshire Ave., Bldg. 31 Conference Center, the Great Room (Rm. 1503), Silver Spring, MD 20993-0002. Answers to commonly asked questions including information regarding special accommodations due to a disability, visitor parking, and transportation may be accessed at: <http://www.fda.gov/AdvisoryCommittees/AboutAdvisoryCommittees/ucm408555.htm>.

FOR FURTHER INFORMATION CONTACT: Moon Hee V. Choi, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 31, Rm. 2417, Silver Spring, MD 20993-0002, 301-796-9001, FAX: 301-847-8533, AAC@fda.hhs.gov, or FDA Advisory Committee Information Line, 1-800-

741-8138 (301-443-0572 in the Washington, DC area). A notice in the **Federal Register** about last minute modifications that impact a previously announced advisory committee meeting cannot always be published quickly enough to provide timely notice. Therefore, you should always check the Agency's Web site at <http://www.fda.gov/AdvisoryCommittees/default.htm> and scroll down to the appropriate advisory committee meeting link, or call the advisory committee information line to learn about possible modifications before coming to the meeting.

SUPPLEMENTARY INFORMATION:

Agenda: The committee will discuss biologics license application 761024, for ABP 501, a proposed biosimilar to AbbVie Inc.'s HUMIRA (adalimumab), submitted by Amgen, Inc. The proposed indications (uses) for this product are: (1) Reducing signs and symptoms, inducing major clinical response, inhibiting the progression of structural damage, and improving physical function in adult patients with moderately to severely active rheumatoid arthritis (alone or in combination with methotrexate or other non-biologic disease-modifying anti-rheumatic drugs (DMARDs)); (2) reducing signs and symptoms of moderately to severely active polyarticular juvenile idiopathic arthritis in patients 4 years of age and older (alone or in combination with methotrexate); (3) reducing signs and symptoms, inhibiting the progression of structural damage, and improving physical function in adult patients with active psoriatic arthritis (alone or in combination with non-biologic DMARDs); (4) reducing signs and
