

performed by a certified or licensed appraiser who must conduct a physical property visit of the interior of the property. At application, the applicant must be provided with a statement regarding the purpose of the appraisal; a notice that that the creditor will provide the applicant a copy of any written appraisal; and notice that that the applicant may choose to have a separate appraisal conducted at the expense of the applicant. The creditor must also provide the consumer with a free copy of any written appraisals obtained for the transaction at least three business days before closing.

The rule also requires a higher-risk mortgage loan creditor to obtain an additional written appraisal, from a different licensed or certified appraiser,

at no cost to the borrower, if: The higher-risk mortgage loan will finance the acquisition of the consumer's principal dwelling; the seller acquired the home within 180 days of signing the agreement to sell the property; and the consumer is purchasing the home for a higher price than the seller paid.

The additional written appraisal generally must include the following information: (1) An analysis of the difference in sale prices (*i.e.*, the sale price paid by the seller and the acquisition price of the property as set forth in the consumer's purchase agreement); (2) changes in market conditions; and (3) any improvements made to the property between the date of the previous sale and the current sale.

The information collection requirements are needed to protect consumers and promote the safety and soundness of creditors making higher-risk mortgage loans. This information is used by creditors to evaluate real estate collateral in higher-risk mortgage loan transactions and by consumers entering these transactions.

4. *Title:* Interagency Guidance on Leveraged Lending.

OMB Number: 3064-0191.

Affected Public: Insured state nonmember banks and state savings associations.

Estimated Number of Respondents: 10.

Frequency of Response: Occasionally.

Burden Estimate:

	Number of respondents	Estimated annual frequency	Estimated average hours per response	Estimated total annual burden hours
<i>Implementation Burden:</i>				
<i>Recordkeeping burden</i>	1	1	986.7	986.7

<i>Total Ongoing Burden</i>				4,763.7
<i>Total PRA Burden</i>				5,750.4

General Description: The Guidance describes expectations for the sound risk management of leveraged lending activities, including the importance for institutions to develop and maintain: (a) Transactions structured to reflect a sound business premise, an appropriate capital structure, and reasonable cash flow and balance sheet leverage; (b) A definition of leveraged lending that facilitates consistent application across all business lines; (c) Well-defined underwriting standards; (d) a credit limit and concentration framework consistent with the institution's risk appetite; (e) Sound MIS that enable management to identify, aggregate, and monitor leveraged exposures and comply with policy across all business lines; (f) strong pipeline management policies and procedures; and (g) guidelines for conducting periodic portfolio and pipeline stress tests to quantify the potential impact of economic and market conditions on the institution's asset quality, earnings, liquidity, and capital.

The guidance outlines high-level principles related to safe and sound leveraged lending activities, including underwriting considerations, assessing and documenting enterprise value, risk management expectations for credits

awaiting distribution, stress testing expectations and portfolio management, and risk management expectations, all of which will be reviewed during supervisory examinations to assess how well the financial institution is managing its risk. Banks will not be submitting documentation to the FDIC. Rather, FDIC examiners will review this documentation during examinations to assess a bank's management of its risk.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.
