

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves establishing a temporary safety zone for approximately 30-45 minutes during the evening on one day on July 4th or the first or second weekend before each year on the Verdigris River from (MM) 444.5 to (MM) 443.5. Normally such actions are categorically excluded from further review under paragraph 34(g) of Figure 2-1 of Commandant Instruction M16475.ID. A preliminary environmental analysis checklist and Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

Approval of California Air Plan Revisions, Eastern Kern Air Pollution Control District and Yolo-Solano Air Quality Management District
AGENCY: Environmental Protection Agency (EPA).
ACTION: Proposed rule.
SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the Yolo-Solano Air Quality

Management District (YSAQMD) and Eastern Kern Air Pollution Control District (EKAPCD) portions of the California State Implementation Plan (SIP). These revisions concern, respectively, the definition of volatile organic compounds (VOCs), and emissions of VOCs from the surface coating operations of wood products. We are approving local rules that regulate these emission sources under the Clean Air Act (CAA or the Act).
DATES: Any comments on this proposal must arrive by July 18, 2016.
ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R09-OAR-2016-0124 at <http://www.regulations.gov>, or email to

Steckel.Andrew@epa.gov. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should discuss all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA. This proposal addresses the following local rules: EKAPCD Rule 410.9 and YSAQMD Rule 1.1. In the Rules and Regulations section of this **Federal Register**, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

[Docket No. 160229157-6481-01]

RIN 0648-BF84

Fisheries of the Exclusive Economic Zone Off Alaska; Chinook Salmon Bycatch Management in the Gulf of Alaska Trawl Fisheries; Amendment 103

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to implement Amendment 103 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP). If approved, Amendment 103 and this proposed rule would allow NMFS to reapportion unused Chinook salmon prohibited species catch (PSC) within and among specific trawl sectors in the Central and Western Gulf of Alaska (GOA), based on specific criteria and within specified limits. This proposed rule would not increase the current combined annual PSC limit of 32,500 Chinook salmon that applies to Central and Western GOA trawl sectors under the FMP. This proposed rule would provide for more flexible management of GOA trawl Chinook salmon PSC, increase the likelihood that groundfish resources are more fully harvested, reduce the potential for fishery closures, and maintain the overall Chinook salmon PSC limits in the Central and Western GOA. Amendment 103 is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act, the FMP, and other applicable laws.
