

proposed rule change promotes just and equitable principles of trade because it ensures a midpoint price that the Exchange believes would accurately reflect the market for the security.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposal will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change will enable the Exchange to incorporate the listing market's quotation into its calculation of the midpoint of the NBBO, resulting in a re-opening price that would more closely reflect the opening market prices and conditions for that security. Therefore, the Exchange believes the proposed rule change will promote competition by enhancing the quality of the Exchange's opening process.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁶ and Rule 19b-4(f)(6) thereunder.¹⁷

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act¹⁸ normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)¹⁹ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon

filing. The Exchange states that waiver of the 30-day operative delay would allow market participants to immediately realize the benefits of what may be more accurate re-opening prices. Based on the foregoing, the Commission believes the waiver of the operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal operative upon filing.²⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements

may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to amend Chapter VI, Section 5 to extend the Penny Pilot through December 31, 2016 or the date of permanent approval, if earlier,⁵ and to change the date when delisted classes may be replaced in the Penny Pilot. The Exchange believes that extending the Penny Pilot will allow for further analysis of the Penny Pilot and a determination of how the program should be structured in the future.

Under the Penny Pilot, the minimum price variation for all participating options classes, except for the Nasdaq-100 Index Tracking Stock ("QQQQ"), the SPDR S&P 500 Exchange Traded Fund ("SPY") and the iShares Russell 2000 Index Fund ("IWM"), is \$0.01 for all quotations in options series that are quoted at less than \$3 per contract and \$0.05 for all quotations in options series that are quoted at \$3 per contract or greater. QQQQ, SPY and IWM are quoted in \$0.01 increments for all options series. The Penny Pilot is currently scheduled to expire on June 30, 2016.

The Exchange proposes to extend the time period of the Penny Pilot through December 31, 2016 or the date of permanent approval, if earlier, and to provide a revised date for adding replacement issues to the Penny Pilot. The Exchange proposes that any Penny Pilot Program issues that have been delisted may be replaced on the second trading day following July 1, 2016. The replacement issues will be selected based on trading activity in the previous six months.⁶

⁵ The options exchanges in the U.S. that have pilot programs similar to the Penny Pilot (together "pilot programs") are currently working on a proposal for permanent approval of the respective pilot programs.

⁶ The replacement issues will be announced to the Exchange's membership via an Options Trader Alert (OTA) posted on the Exchange's Web site. The Exchange proposes in its Penny Pilot rule that replacement issues will be selected based on trading activity in the previous six months. The replacement issues would be identified based on The Options Clearing Corporation's trading volume data. For example, for the July replacement, trading volume from December 1, 2015 through May 30, 2016 would be analyzed. The month immediately preceding the replacement issues' addition to the Pilot Program (*i.e.*, June) would not be used for purposes of the six-month analysis.
