

portions of the State under the regular CDBG program and all of the other areas of the most impacted counties not covered by the CDBG entitlement communities getting a direct grant. For example, the geography served by Livingston County, South Carolina includes one or more communities that cross over into Richland County, South Carolina. Because those communities participate with the Livingston County CDBG program and not the Richland County CDBG program, their need is reflected in the award to Livingston County. In addition, a number of incorporated towns in Richland County are served by the State CDBG program and the data for those communities were factored into the grant to the South Carolina State government and not the grant to the Richland County Urban County.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Water Resources Research Act of 1984, as amended (42 U.S.C. 10301 *et seq.*), authorizes a research institute water resources or center in each of the 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, the Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, and American Samoa. There are currently 54 such institutes, one in each state, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and Guam. The institute in Guam is a regional institute serving Guam, the Federated States of Micronesia, and the Commonwealth of the Northern Mariana Islands. Each of the 54 institutes submits an annual application for an allotment grant, national competitive grants, and provides an annual report on its activities under the grant. The State Water Resources Research Institute Program issues an annual call for applications from the institutes to support plans to promote research, training, information dissemination, and other activities meeting the needs of the States and Nation. The State Water Resources Research Institute Program also issues an annual call for competitive grants to focus on water problems and issues of a regional or interstate nature beyond those of concern only to a single State. The U.S. Geological Survey has been designated as the administrator of the provisions of the Act.
