them. We have explained the reasons for this authorization and incorporation by reference in the preamble to the direct final rule.

Unless EPA receives written comments that oppose the authorization and incorporation by reference during the comment period, the direct final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose the authorization, we will withdraw the direct final rule and it will not take immediate effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

Supplementary information: In the “Rules and Regulations” section of this Final Rule, the EPA is authorizing changes to the South Dakota program, in addition to codifying and incorporating by reference the State’s hazardous waste program as a direct final rule. The EPA did not make a proposal prior to the direct final rule because we believe these actions are not controversial and do not expect comments that oppose them. We have explained the reasons for this authorization and incorporation by reference in the preamble to the direct final rule.
