collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a currently valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C., Chapter 45, OMB approved the surveys described in this notice under the following OMB control numbers:

- Annual Retail Trade Survey, 0607–0013;
- Annual Wholesale Trade Survey, 0607–0195;
- Service Annual Survey, 0607–0422;
- Company Organization Survey, 0607–0444;
- Annual Survey of Manufacturers, 0607–0449;
- Manufacturers’ Unfilled Orders Survey, 0607–0561;
- Annual Capital Expenditures Survey, 0607–0782;
- Business R&D and Innovation Survey, 0607–0912;
- Annual Survey of Entrepreneurs, 0607–0986;
- Management and Organizational Practices Survey, 0607–0963;

Based upon the foregoing, I have directed that the current mandatory business surveys be conducted for the purpose of collecting these data.

Dated: June 17, 2016.

John H. Thompson, Director, Bureau of the Census.

Countervailing Duty Investigation of Certain Biaxial Integral Geogrid Products from the People’s Republic of China: Preliminary Determination and Alignment of Final Determination With Final Antidumping Duty Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the “Department”) preliminarily determines that countervailable subsidies are being provided to producers and exporters of certain biaxial integral geogrid products (“geogrids”) from the People’s Republic of China (the “PRC”). The period of investigation is January 1, 2015, through December 31, 2015. We invite interested parties to comment on this preliminary determination.

DATES: Effective Date: June 24, 2016.

FOR FURTHER INFORMATION CONTACT: Bob Palmer or Ryan Mullen, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone 202-482.9068 or 202.482.5260, respectively.

SUPPLEMENTARY INFORMATION:

Scope of the Investigation

The products covered by this investigation are geogrids from the PRC. For a complete description of the scope of this investigation, see Appendix II.

Methodology

The Department is conducting this countervailing duty (“CVD”) investigation in accordance with section 701 of the Tariff Act of 1930, as amended (the “Act”). For a full description of the methodology underlying our preliminary conclusions, see the Preliminary Decision Memo.1 The Preliminary Decision Memo is a public document and is on file electronically via Enforcement & Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (“ACCESS”). ACCESS is available to registered users at http://access.trade.gov, and is available to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memo can be accessed directly on the Internet at http://trade.gov/enforcement/frn/index.html.

The signed Preliminary Decision Memo and the electronic versions of the Preliminary Decision Memo are identical in content.

The Department notes that, in making these findings, we relied, in part, on facts available and, because one or more respondents did not act to the best of their ability to respond to the Department’s requests for information, we drew an adverse inference, where appropriate, in selecting from among the facts otherwise available.2 For further information, see “Use of Facts Otherwise Available and Adverse Inferences” in the Preliminary Decision Memo.

Alignment

As noted in the Preliminary Decision Memo, in accordance with section 705(a)(1) of the Act and 19 CFR 351.210(b)(4), we are aligning the final CVD determination in this investigation with the final determination in the companion antidumping duty (“AD”) investigation of geogrids from the PRC.3 Consequently, the final CVD determination will be issued on the same date as the final AD determination, which is currently scheduled to be issued no later than October 31, 2016, unless postponed.

Preliminary Determination and Suspension of Liquidation

In accordance with section 703(d)(1)(A)(i) of the Act, we calculated an estimated individual countervailable subsidy rate for each producer/exporter of the subject merchandise individually investigated. We preliminarily determine these rates to be:

1 See Memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Enforcement and Compliance, “Countervailing Duty Investigation of Certain Biaxial Integral Geogrid Products from the People’s Republic of China: Decision Memorandum for the Preliminary Determination,” dated concurrently with this notice ("Preliminary Decision Memo").

2 See sections 776(a) and (b) of the Act.

3 See Certain Biaxial Integral Geogrid Products from the People’s Republic of China: Initiation of Less-Than-Fair-Value Investigation, 81 FR 7755 (February 16, 2016).
In accordance with section 703(d)(2) of the Act, we will direct U.S. Customs and Border Protection ("CBP") to suspend liquidation of all entries of geogrids from the PRC as described in the scope of the investigation section entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the Federal Register. Section 703(e)(2) of the Act provides that, given an affirmative determination of critical circumstances, any suspension of liquidation shall apply to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the later of (a) the date which is 90 days before the date on which the suspension of liquidation was first ordered, or (b) the date on which notice of initiation of the investigation was published. We preliminarily found that critical circumstances exist for imports produced or exported by BOSTD Geosynthetics Qingdao Ltd. and the all other companies. Therefore, in accordance with section 703(e)(2)(A) of the Act, suspension of liquidation of geogrids from the PRC, as described in the "Scope of the Investigation" section, shall apply to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the date which is 90 days before the publication of this notice, the date of publication of liquidation is first ordered. Because we preliminarily found critical circumstances do not exist for Taian Modern Plastic Co., Ltd., we will begin suspension of liquidation for such firms on the date of publication of this notice in the Federal Register. Pursuant to 19 CFR 351.205(d), the Department will instruct CBP to require a cash deposit equal to the amounts indicated above.

In accordance with sections 703(d) and 705(c)(5)(A) of the Act, for companies not investigated, we apply an "all-others" rate, which is normally calculated by weighting the subsidy rates of the individual companies selected as mandatory respondents by those companies' exports of the subject merchandise to the United States. Under section 705(c)(5)(i) of the Act, the all-others rate should exclude zero and de minimis rates calculated for the exporters and producers individually investigated as well as rates based entirely on facts otherwise available. Notwithstanding the language of section 705(c)(5)(A)(i) of the Act, we have not calculated the "all-others" rate by weighted averaging the rates of the two individually investigated respondents, because doing so risks disclosure of proprietary information. Therefore, for the "all-others" rate, we calculated a simple average of the two responding firms' rates.

 Disclosure and Public Comment

The Department will disclose calculations performed for this preliminary determination to the parties within five days of the date of public announcement of this determination in accordance with 19 CFR 351.224(b). Case briefs or other written comments for all non-scope issues may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the final verification report is issued in this proceeding, and rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.4 A table of contents, list of authorities used and an executive summary of issues should accompany any briefs submitted to the Department. This summary should be limited to five pages total, including footnotes. Interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, filed electronically using ACCESS. An electronically filed document must be received successfully in its entirety by the Department’s electronic records system, ACCESS, by 5:00 p.m. Eastern Standard Time, within 30 days after the date of publication of this notice.5 Requests should contain the party’s name, address, and telephone number; the number of participants; and a list of the issues to be discussed. If a request for a hearing is made, the Department intends to hold the hearing at the U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, at a date, time and location to be determined. Parties will be notified of the date, time and location of any hearing.

International Trade Commission Notification

In accordance with section 703(f) of the Act, we will notify the International Trade Commission ("ITC") of our determination. In addition, we are making available to the ITC all non-privileged and non-proprietarily

XII. Use of Facts Otherwise Available and Adverse Inference
XIII. Analysis of Programs
XIV. Verification
XV. Conclusion

Appendix II

The merchandise covered by the investigation is certain biaxial integral geogrid products. Biaxial integral geogrid products are a polymer grid or mesh material (whether or not finished, slit, cut-to-length, attached to woven or non-woven fabric or sheet material, or packaged) in which four-sided openings in the form of squares, rectangles, rhomboids, diamonds, or other four-sided figures predominate. The products covered have integral strands that have been stretched to induce molecular orientation into the material (as evidenced by the strands being thinner toward the middle between the junctions than at the junctions themselves) constituting the sides of the openings and integral junctions where the strands intersect.

The scope includes products in which four-sided figures are rounded off or not sharp angles. As used herein, the term “integral” refers to strands and junctions that are homogenous with each other. The products covered have a tensile strength of greater than 5 kilonewtons per meter (”kN/m”) according to American Society for Testing and Materials (“ASTM”) Standard Test Method D6637/D6637M in any direction and average overall flexural stiffness of more than 100,000 milligram-centimeter according to the ASTM D7748/D7748M Standard Test Method for Flexural Rigidity of Geogrids, Geotextiles and Related Products, or other equivalent test method standards.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise further processed in a third country, including by trimming, slitting, coating, cutting, punching holes, stretching, attaching to woven or non-woven fabric or sheet material, or any other finishing, packaging, or other further processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the biaxial integral geogrid.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (“HTSUS”) under the following subheading: 3926.90.9995. Subject merchandise may also enter under subheadings 3920.20.0050 and 3925.90.0000. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

DEPARTMENT OF COMMERCE

International Trade Administration

Polyethylene Retail Carrier Bags From Malaysia: Preliminary Results of Antidumping Duty Administrative Review; 2014–2015

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on polyethylene retail carrier bags (PRCBs) from Malaysia. The period of review (POR) is August 1, 2014, through July 31, 2015. The review covers one producer/exporter of the subject merchandise, Euro SME Sdn Bhd (Euro SME). We preliminarily find that Euro SME has sold subject merchandise at less than normal value during the POR. Interested parties are invited to comment on these preliminary results.

DATES: Effective Date: June 24, 2016.

FOR FURTHER INFORMATION CONTACT: Bryan Hansen or Minoo Hatten, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–3683 or (202) 482–1690, respectively.

SUPPLEMENTARY INFORMATION:

Scope of the Order

The merchandise subject to the order is PRCBs. The product is currently classified under the Harmonized Tariff Schedules of the United States (HTSUS) item number 3923.21.0085. While the HTSUS subheading is provided for convenience and customs purposes, the written description is dispositive. A full description of the scope of the order is contained in the Preliminary Decision Memorandum.

Bona Fides Analysis

We have analyzed the information provided by Euro SME in this POR to determine whether the company’s sale under review was made in a bona fide manner and, as such, should be reviewed under the administrative review provisions of the regulations. See section 751(a)(2)(B) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213. Where a review is based on a single sale, exclusion of that sale as non-bona fide necessarily must end the review. Accordingly, as discussed in Euro SME’s Bona Fides Memorandum, we preliminarily find Euro SME’s sale to be bona fide and determine to continue conducting this administrative review.

Methodology

The Department conducted this review in accordance with section 751(a)(2) of the Tariff Act of 1930, as amended (the Act). Export price is calculated in accordance with section 751
