**Notice of Public Comment Period on the Presentation of the Forensic Science Discipline Review Framework**

**ACTION:** Notice.

**SUMMARY:** This notice announces the opening of the public comment period on the Forensic Science Discipline Review (FSDR) of testimony draft methodology.

**SUPPLEMENTARY INFORMATION:**

The goal of the Forensic Science Discipline Review (FSDR) of testimony is to advance the use of forensic science in the courtroom by understanding its use in recent cases and to facilitate any necessary steps to ensure that expert forensic testimony is consistent with scientific principles and just outcomes. In order to accomplish this goal, the Department is planning a Department-level review of forensic testimony by Department personnel beginning with an examination of FBI testimony. The Department proposes to review and evaluate trial testimony provided by FBI forensic examiners in several forensic disciplines in state and federal cases for a five-year period (2008–2012). All cases in which an FBI examiner testified in these disciplines—and for which a transcript can be obtained—are proposed to be reviewed. Which disciplines will be reviewed and the order in which disciplines will be

reviewed has not been determined, in part because the development of the FSDR testimonial standards, against which the testimony of Department personnel will be compared, is ongoing.

The Department is undertaking this review because it is good management to conduct macro-level program reviews and not because of known or suspected problems with particular forensic science disciplines. The draft methodology proposes specific methodological decisions to evaluate testimony and seeks comment on additional issues. All elements in the draft methodology are subject to revision and comment is invited.

*Posting of Public Comments:* To ensure proper handling of comments, please reference “Docket No. OLP 158” on all electronic and written correspondence. The Department encourages all comments on this draft methodology be submitted electronically through [www.regulations.gov](http://www.regulations.gov) using the electronic comment form provided on that site. On June 15, 2016, the Department of Justice lodged a proposed Amended Consent Decree with the United States District Court for the Eastern District of Michigan in the lawsuit entitled *United States v. City of Wyandotte*, Civil Action No. 11-cv-12181.

In 2011, the United States entered into a Consent Decree with the City of Wyandotte ("Wyandotte") to resolve allegations under the Clean Air Act that Wyandotte's coal-fired electric generating Units 7 and 8 violated the emissions limits set forth in Wyandotte's Title V permit, its Prevention of Significant Deterioration permit, the New Source Performance Standards, and the federally enforceable Michigan State Implementation Plan. After entry of the Consent Decree, Wyandotte violated several provisions of the original Consent Decree, including failing to submit required reports. Additionally, Wyandotte made some operational changes. Under the proposed Amended Consent Decree, Wyandotte will pay \$425,000 in stipulated penalties, restrict Unit 7 to burning only natural gas, and retire Unit 8.
