k. *Description of Request:* HEI requests amendment of several provisions in its license for the unconstructed Hiilangaay Hydroelectric Project, based on a Fish Habitat Permit issued by Alaska Department of Fish and Game and several factors it has identified that adversely affect the project economics. Specifically, based on consultations with state and federal agencies, HEI proposes a series of changes to the project description and affected license articles: (1) Move the penstock alignment further to the north; (2) move the location of the powerhouse about 80 feet further back from Reynolds Creek; (3) modify the tailrace length as a result of moving the powerhouse location; (4) add an access road to the diversion area on the south side of Rich's Pond; (5) adjust the proposed transmission line pole locations and widen the transmission line right of way in the Jumbo Island area to minimize tree-fall hazards to the transmission line; (6) increase the project's hydraulic capacity from 90 cfs to 100 cfs; (7) change the starting date for in-water construction window; (8) remove the "perched ledge" design requirement for the tailrace; (9) change the ramping rates requirement to apply only to flow decreases; (10) replace the requirement for a shunt pipeline with jet deflectors on the turbine and eliminate a synchronous bypass valve from the powerhouse design; and (11) change the fish screen design from a retractable T-cylinder screen to a conventional bar screen.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations and amendments to terminate uses, voluntarily requested by the registrants and accepted by the Agency, of products listed in Tables 1 and 2 of Unit II, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a January 5, 2016 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II, to voluntarily cancel and amend to terminate uses of these product registrations. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations and amendments to terminate uses. This order will terminate the last alachlor products registered for use in the United States. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations and amendments are effective June 30, 2016.
