

potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

If we publish and distribute the EA, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 2).

### Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an “intervenor” which is an official party to the Commission’s proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission’s final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the “Document-less Intervention Guide” under the “e-filing” link on the Commission’s Web site. Motions to intervene are more fully described at <http://www.ferc.gov/resources/guides/how-to/intervene.asp>.

### Additional Information

Additional information about the project is available from the Commission’s Office of External Affairs, at (866) 208-FERC, or on the FERC Web site at [www.ferc.gov](http://www.ferc.gov) using the “eLibrary” link. Click on the eLibrary link, click on “General Search” and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, CP16-27). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings

by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to [www.ferc.gov/docs-filing/esubscription.asp](http://www.ferc.gov/docs-filing/esubscription.asp).

Finally, public meetings or site visits will be posted on the Commission’s calendar located at [www.ferc.gov/EventCalendar/EventsList.aspx](http://www.ferc.gov/EventCalendar/EventsList.aspx) along with other related information.

This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

### SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit: <http://www.epa.gov/dockets>.

**Abstract:** Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 60, subpart A, as well as for the provisions of Subparts T, U, V, W, and X. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

**Form Numbers:** None.

**Respondents/affected entities:** New and existing facilities that engage in the manufacture of phosphate fertilizers and have a design capacity of more than 15 tons of equivalent phosphorous pentoxide (P<sub>2</sub>O<sub>5</sub>) feed per calendar day.

**Respondent’s obligation to respond:** Mandatory (40 CFR part 63, subparts T, U, V, W, and X).

**Estimated number of respondents:** 13 (total).

*Frequency of response:* Initially, occasionally and semiannually.

*Total estimated burden:* 1,390 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$460,000 (per year), which includes \$320,000 in annualized capital/startup and/or operation & maintenance costs.

*Changes in the Estimates:* The increase in burden from the most-recently approved ICR is due to accounting for the assumption that all sources will spend one hour annually reviewing and understanding the rule requirements. Previously, the assumption was that only new sources would incur this burden.

There is a small decrease in O&M cost in this ICR due to rounding of all calculated values to three significant digits. In addition, there is an increase of two annual responses due to a minor correction. The previous ICR did not account for notifications of operational changes in calculating the number of responses.

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of draft permit and request for public comment.

**SUMMARY:** All ten EPA Regions today are proposing for public comment the draft 2016 National Pollutant Discharge

Elimination System (NPDES) pesticide general permit (PGP)—the “draft 2016 PGP.” The draft 2016 PGP covers point source discharges from the application of pesticides to waters of the United States. Once finalized, the draft 2016 PGP will replace the existing permit that will expire at midnight on October 31, 2016. The draft 2016 PGP has the same conditions and requirements as the 2011 PGP and would authorize certain point source discharges from the application of pesticides to waters of the United States in accordance with the terms and conditions described therein. EPA proposes to issue this permit for five (5) years in all areas of the country where EPA is the NPDES permitting authority. EPA solicits public comment on all aspects of the draft 2016 PGP. This **Federal Register** notice describes the draft 2016 PGP in general and also includes specific topics about which the Agency is particularly seeking comment. The fact sheet accompanying the permit contains supporting documentation. EPA encourages the public to read the fact sheet to better understand the draft 2016 PGP.

**DATES:** Comments on the draft 2016 PGP must be received on or before March 11, 2016.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-HQ-OW-2015-0499, to the *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment

contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.
