

Currently, CNCS is soliciting comments concerning application instructions designed to be used for grant competitions which CNCS sponsors when appropriations are available. Copies of the information collection request can be obtained by contacting the office listed in the **ADDRESSES** section of this Notice.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by August 30, 2016.

ADDRESSES: You may submit comments, identified by the title of the information collection activity, by any of the following methods:

(1) *By mail sent to:* Corporation for National and Community Service; Attention Amy Borgstrom, Associate Director for Policy, Room 10508B; 1201 New York Avenue NW., Washington, DC 20525.

(2) By hand delivery or by courier to the CNCS mailroom at Room 8100 at the mail address given in paragraph (1) above, between 9:00 a.m. and 4:00 p.m. Eastern Time, Monday through Friday, except Federal holidays.

(3) Electronically through www.regulations.gov.

Individuals who use a telecommunications device for the deaf (TTY-TDD) may call 1-800-833-3722 between 8:00 a.m. and 8:00 p.m. Eastern Time, Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Amy Borgstrom, 202-606-6930, or by email at aborgstrom@cns.gov.

SUPPLEMENTARY INFORMATION: CNCS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are expected to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses).

Background

These application instructions will be used by applicants for funding through

CNCS competitions. The application is completed electronically using the Grants Member and Management web-based grants management system, or submitted via email.

Current Action

This is a new information collection that replaces multiple application information collections used in the past. The information collection will otherwise be used in the same manner as the existing applications. CNCS also seeks to continue using the current applications until the revised application is approved by OMB. The current applications are due to expire at various times in the future and will be withdrawn once the new information collection request is approved.

Type of Review: New.

Agency: Corporation for National and Community Service.

Title: CNCS Application Instructions.

OMB Number: TBD.

Agency Number: None.

Affected Public: Potential applicants.

Total Respondents: 13,200.

Frequency: Depending on the availability of appropriations.

Average Time per Response: Averages 6 hours.

Estimated Total Burden Hours: 79,200 hours.

Total Burden Cost (capital/startup): None.

Total Burden Cost (operating/maintenance): None.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: June 27, 2016.

BILLING CODE 6050-28-P

DEPARTMENT OF ENERGY

[FE Docket No. 16-15-LNG]

Eagle LNG Partners Jacksonville LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on January 27, 2016,

and supplemented on February 3, March 18, and June 1, 2016, by Eagle LNG Partners Jacksonville LLC (Eagle LNG), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) transported on both ocean-going LNG carriers, and approved ISO IMO7/TVAC-ASME LNG containers to be loaded onto container vessels, to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries).¹ Eagle LNG seeks authorization to export the LNG in a volume equivalent to approximately 49.8 billion cubic feet of natural gas per year (Bcf/yr) (0.14 Bcf per day). Eagle LNG proposes to export the LNG from Eagle LNG's planned production, storage, and export facility to be constructed at a site on the St. Johns River in Jacksonville, Florida² (Facility or Jacksonville Project). Natural gas will be delivered to the facility by the local gas distribution utility, Peoples Gas, a TECO Energy Company. The Facility will export LNG via vessel to foreign markets and/or distribution to specialized domestic markets. The Facility will incorporate a truck load-out facility. Through this load-out facility, Eagle LNG will have the capability of filling ISO containers. Those containers may be transported by truck to domestic markets or to locations within the Port of Jacksonville from which ISO containers may be loaded onto container ships for delivery to both domestic and export markets. According to Eagle LNG, when fully constructed and operational, the Jacksonville Project will have the capacity to produce the natural gas equivalent of 0.14 Bcf/d of LNG per day from three trains and include a storage tank with a capacity of 12 million gallons of LNG. The Jacksonville Project has been under development since 2013 and is currently in the pre-filing phase with the Federal Energy Regulatory Commission (FERC) for the siting and construction of the Project that is expected to have its first export in the fourth quarter of 2018. Eagle LNG

¹ In the Application Eagle LNG also requests authorization to export LNG to any nation that currently has, or in the future may enter into, a FTA requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (FTA countries). DOE/FE will review that request for a FTA export authorization separately pursuant to NGA § 3(c), 15 U.S.C. 717b(c).

² On June 1, 2016, Eagle LNG supplemented the application to add several maps which show the general location of the facility at: http://energy.gov/sites/prod/files/2016/06/f32/Third%20Supp%20to%20DOE%20Application06_01_16.pdf.

requests authorization for a 20-year term to commence on the earlier of the date of first export or five years from the issuance of a final order granting export authorization. Eagle LNG seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA), 15 U.S.C. 717b). Additional details can be found in Eagle LNG's Application, posted on the DOE/FE Web site at: <http://energy.gov/sites/prod/files/2016/02/f29/16-15-LNG.pdf>.

Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, August 30, 2016.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be

exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade, and international considerations; and whether the authorization is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the following two studies examining the cumulative impacts of exporting domestically produced LNG:

- *Effect of Increased Levels of Liquefied Natural Gas on U.S. Energy Markets*, conducted by the U.S. Energy Information Administration upon DOE's request (2014 EIA LNG Export Study);³ and

- *The Macroeconomic Impact of Increasing U.S. LNG Exports*, conducted jointly by the Center for Energy Studies at Rice University's Baker Institute for Public Policy and Oxford Economics, on behalf of DOE (2015 LNG Export Study).⁴

Additionally, DOE will consider the following environmental document: *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014).⁵ Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

motion to intervene or notice of intervention, as applicable. Due to the complexity of the issues raised by the Applicant, interested parties will be provided 60 days from the date of publication of this Notice in which to submit their comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) Emailing the filing to fergas@hq.doe.gov, with FE Docket No. 16-15-LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Regulation and International Engagement at the address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 16-15-LNG. **Please Note:** If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by

parties pursuant to this notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Office of Regulation and International Engagement docket room, Room 3E-042, 1000 Independence Avenue SW., Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: http://www.fe.doe.gov/programs/gas_regulation/index.html.

Issued in Washington, DC, on June 27, 2016.
