Abstract: Discharge Monitoring Report-Quality Assurance (DMR-QA) study program participation is mandatory for major and selected minor National Pollution Discharge Elimination System (NPDES) permit holders in accordance with Clean Water Act Section 308. The DMR-QA study program is designed to evaluate the analytic ability of laboratories that perform chemical, microbiological and whole effluent toxicity (WET) analyses required in NPDES permits for reporting results in the Discharge Monitoring Reports (DMR). Under DMR-QA, the permit holder is responsible for having their in-house and/or contract laboratories perform proficiency test samples, and submit results for grading to proficiency testing (PT) providers. Graded results are transmitted by either the permittee or PT provider to the appropriate federal or state NPDES regulatory authority. Permit holders are responsible for submitting corrective action reports to the appropriate regulatory authority.

Form Numbers: 6400-01.

Respondents/affected entities: Major and selected minor permit holders under the Clean Water Act's National Pollution Discharge Elimination System (NPDES).

Respondent's obligation to respond: Mandatory under Clean Water Act Section 308(a).

Estimated number of respondents: 5,700 (total).

Frequency of response: Major permit holders must participate annually. Minor permit holders must participate if selected by the state or EPA DMR-QA coordinator.

Total estimated burden: 37,620 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$4,378,968 (per year), includes \$2,459,037 annualized capital or operation & maintenance costs.

Changes in estimates: There will be an approximate increase of 1,261 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to increased discretionary selection of NPDES minor permit holders for DMR-QA participation in the most recent year. Labor costs will be revised upward to take into account changes in employee benefit compensation costs and inflation. Non-labor costs for obtaining proficiency test samples will also likely increase.

Dated: June 23, 2016.

Edward J. Messina,

Director, Monitoring, Assistance, and Media Programs Division/OECA.
